This has reference to a case of storage gain in food grain stock at one of the warehouses, which has come to the notice of the Vigilance Division recently. After conducting the "Zero PV" by the concerned depositor, no net shortage was found; even though the depositor concerned deducted an amount of ₹1.5 lakh due to lack of supervision at that warehouse. The Competent Authority has viewed it very seriously; as recovery has been made by the depositor even after no shortages in quantity of stock was found.

As per the direction of the Managing Director, it is therefore advised to take up similar nature of issues with the depositor concerned on priority basis, to avoid occurrence of such cases. Further, responsibility, if any, on the part of any official standing on the verge of retirement, should be intimated to Corporate Office well in advance along with proper investigation report and recommendation of the Regional Manager.
