NOTICE INVITING TENDER**NO.ENIT-CWC/RO-Engg./HYD/AMC/2023-24/19**

(E-tendering Mode)

The Central Warehousing Corporation, through the Regional Manager of the Central Warehousing Corporation, (CWC), at Regional Office, HYDERABAD (hereinafter referred to as the Procuring Entity and 'Regional Manager' respectively), invites online tenders (hereinafter referred to as the 'bid(s)') for entering into an Annual Rate Contract for Execution of Miscellaneous Repair/ Maintenance, upgradation and construction works in Zone I - a cluster of central warehouses located at Vizag-I, Anakapalli and Kakinada on Annual rate contract basis. (hereinafter referred to as the Works).

This Request for Proposal for procurement having reference number, **Tender No. NIT_CWC/RO-Engg./HYD/AMC/2023-24/19** (hereinafter referred to as the Tender Document), gives further details.

1. The Tender Document**1.1. Bidders must read the complete 'Tender Document'.**

This NIT is an integral part of the Tender Document and serves a limited purpose of invitation, and does not purport to contain all relevant details for submission of bids. 'Tender Information Summary' (TIS) appended to this notice gives a salient summary of the tender information. Any generic reference to NIT shall also imply a reference to TIS as well. However, Bidders must go through the complete Tender Document for details before submission of their Bids.

1.2. Availability of the Tender Document

The Tender Documents shall be published on the CWC's website www.cewacor.nic.in or e-tender website www.cwceprocure.com or CPP Portal <https://eprocure.gov.in/cppp/>. It shall be available for download after the date and time of the start of availability till the deadline for availability as mentioned in TIS. Unless otherwise stipulated in TIS, the Tender Document can be downloaded from CWC website www.cewacor.nic.in or from CPP portal free of cost. If the Procuring Entity happens to be closed on the deadline for submitting the bids as specified above, this deadline shall *not* be extended. Any query/clarification regarding downloading Tender Documents and uploading Bids on the e-Procurement portal may be addressed to the Help Desk (contact details given in TIS).

1.3. Clarifications

A Bidder requiring any clarification regarding the Tender Document may ask questions in writing/electronically from Office/ Contact Person as mentioned in TIS, provided the questions are raised before the clarification end date mentioned in TIS (or if not mentioned, before 7 days of the deadline for the bid submission). This deadline shall not be extended in case of any intervening holidays.

2. Eligibility Criteria for Participation in this Tender

The participation in this Tender Process is open to all bidders who fulfill the 'Eligibility' and 'Qualification criteria. 2) If relative working in CWC then the Contractor Not Allowed to Tender

The contractor shall not be permitted to tender for works in the CWC in which his near relative is posted as Officer in any

capacity, responsible for award, monitoring, execution and payment under Contracts within Region.

He shall also intimate the names of persons who are working with him in any capacity or are subsequently employed by him and who are near relatives to any Officer in the Central Warehousing Corporation or in the Ministry of Food, Consumer Affairs & Public Distribution, Govt. of India, New Delhi.

The contractor would be debarred from tendering in CWC for five years for any breach of this condition

Note: By the term "near relatives" is meant wife, husband, parents & grandparents, children & grandchildren, brothers & sisters, uncles, aunts & cousins and their corresponding in-laws.

3) No Gazetted Engineer to Work as Contractor within One Year of Retirement

No Officer of Gazetted rank employed in any Govt Department of India/its states/UTs or other officer employed in Central Warehousing Corporation shall work as a contractor or employee of a contractor for a period of one year after his retirement from Govt. Department / Corporation service without the previous permission of the Managing Director of the Corporation in writing.

This contract is liable to be cancelled, if either the contractor or any of his employees is found at any time to be such a person who had not obtained the permission of Central Warehousing Corporation as aforesaid, before submission of the tender or engagement in the contractor's service, as the case may be.

Though, permission shall not be required for working as contractor or employee of contractor post one year of retirement.

3.3. Eligibility of bidders from specified countries

Orders issued by the Government of India restricting procurement from bidders from certain countries that share a land border with India shall apply to this procurement.

Volume-I(RFP)

22. Any bidder (as defined in GCC) from a country that shares a land border with India¹, excluding countries as listed on the website of the Ministry of External Affairs², to which the Government of India has extended lines of creditor in which the Government of India is engaged in development projects – hereinafter called 'Restricted Countries') shall be eligible to bid in this tender only if Bidder is registered³ with the Registration Committee constituted by the Department for Promotion of Industry and Internal Trade (DPIIT). Bidders shall enclose the certificate in this regard.
23. In Bids for Turnkey contracts, including Works contracts, the successful bidder shall not be allowed to sub-contract works to any contractor from such Restricted Countries unless such contractor is similarly registered. In such cases, the bidders shall enclose the certificate in this regard.
24. If Bidder has proposed to sub-contract Services or incidental Goods directly/ indirectly from the vendors from such countries, such vendor shall be required to be registered with the Competent Authority. However, if Bidder procures raw material, components, and sub-assemblies from such countries' vendors, such vendors shall not require registration.
25. "Bidder from such Restricted Countries" means:-
- a) An entity incorporated, established, or registered in such a country; or
 - b) A subsidiary of an entity incorporated, established, or registered in such a country; or
 - c) An entity substantially controlled through entities incorporated, established, or registered in such a country; or
 - d) An entity whose beneficial owner is situated in such a country; or
 - e) An Indian (or other) agent of such an entity; or
 - f) A natural person who is a citizen of such a country; or
 - g) A consortium/joint venture where any member falls under any of the above
26. The beneficial owners shall mean:
- a) In a company or Limited Liability Partnership, the beneficial owner is the natural person(s). Whether acting alone or together or through one or more juridical persons, controlling ownership interest exercises control through other means.

Explanation-

- i) "Controlling ownership interest" means ownership of or entitlement to more than twenty-five percent of the company's shares or capital or profits.
 - ii) "Control" shall include the right to appoint a majority of the directors or to control the management or policy decisions including by virtue of their shareholding or management rights or shareholder agreements or voting agreements;
- b) In the case of a partnership firm, the beneficial owner is the natural person(s) who, whether acting alone or together or through one or more juridical persons, has ownership of entitlement to more than fifteen percent of capital or profits.
 - c) In case of an unincorporated association or body of individuals, the beneficial owner is the natural person(s), who, whether acting alone or together or through one or more juridical person, has ownership of or entitlement to more than fifteen percent of the property or capital or profits of such association or body of individuals;

Volume-I(RFP)

- d) Where no natural person is identified under (1) or (2) or (3) above, the beneficial owner is the relevant natural person who holds the position of senior managing official.
- e) In case of a trust, the identification of beneficial owner(s) shall include identification of the author of the trust, the trustee, the beneficiaries with fifteen percent or more interest in the trust and any other natural person exercising ultimate effective control over the trust through a chain of control or ownership.

3.4. Conflict of Interest

Any bidder having a conflict of interest, which substantially affects fair competition, shall not be eligible to bid in this tender. Bids found to have a conflict of interest shall be rejected as non-responsive. Bidder shall be required to declare the absence of such conflict of interest in Eligibility Declarations along with PQ forms. A bidder in this Tender Process shall be considered to have a conflict of interest if the bidder:

- 1) directly or indirectly controls, is controlled by or is under common control with another Bidder; or
- 2) receives or has received any director or indirect subsidy/financial stake from another bidder; or
- 3) has the same legal representative/ agent as another bidder for purposes of this bid. A Principal can authorise only one agent, and an agent also should not represent or quote on behalf of more than one Principals. However, this shall not debar more than one Authorised distributor from quoting equipment manufactured by an Original Equipment Manufacturer (OEM), in procurements under Proprietary Article Certificate; or
- 4) has a relationship with another bidder, directly or through common third parties, that puts it in a position to have access to information about or influence the bid of another Bidder or influence the decision of the Procuring Entity regarding this Tender process; or
- 5) participates in more than one bid in this tender process. Participation in any capacity by a Bidder (including the participation of a Bidder as sub-contractor in another bid or vice-versa) in more than one bid shall result in the disqualification of all bids in which he is a party. However, this does not limit the participation of a non-bidder firm as a sub-contractor in more than one bid; or
- 6) would be providing goods, works, or non-consulting services resulting from or directly related to consulting services that it provided (or were provided by any affiliate that directly or indirectly controls, is controlled by, or is under common control with that firm), for the procurement planning (inter-alia preparation of feasibility/cost estimates/Detailed Project Report (DPR), design/technical specifications, terms of reference (ToR)/ Activity Schedule/ schedule of requirements or the Tender Document etc) of this Tender process; or
- 7) has a close business or family relationship with a staff of the Procuring Organisation who: (i) are directly or indirectly involved in the preparation of the Tender document or specifications of the Tender Process, and/or the evaluation of bids; or (ii) would be involved in the implementation or supervision of resulting Contract unless the conflict stemming from such relationship has been resolved in a manner acceptable to the Procuring Entity throughout the Tender process and execution of the Contract.

3.5 If relative working in CWC then the Contractor Not Allowed to Tender

The contractor shall not be permitted to tender for works in the CWC in which his near relative is posted as Officer in any capacity, responsible for award, monitoring, execution and payment under Contracts within Region.

He shall also intimate the names of persons who are working with him in any capacity or are subsequently employed by him and who are near relatives to any Officer in the Central Warehousing Corporation or in the Ministry of Food, Consumer Affairs & Public Distribution, Govt. of India, New Delhi.

The contractor would be debarred from tendering in CWC for five years for any breach of this condition

Volume-I(RFP)

Note: By the term "near relatives" is meant wife, husband, parents & grandparents, children & grandchildren, brothers & sisters, uncles, aunts & cousins and their corresponding in-laws.

3.6 No Gazetted Engineer to Work as Contractor within One Year of Retirement

No Officer of Gazetted rank employed in any Govt Department of India/its states/UTs or other officer employed in Central Warehousing Corporation shall work as a contractor or employee of a contractor for a period of one year after his retirement from Govt. Department / Corporation service without the previous permission of the Managing Director of the Corporation in writing.

The contract is liable to be cancelled, if either the contractor or any of his employees is found at any time to be such a person who had not obtained the permission of Central Warehousing Corporation as aforesaid, before submission of the tender or engagement in the contractor's service, as the case may be.

Though, permission shall not be required for working as contractor or employee of contractor post one year of retirement.

- 2) **Applicability to Imported Goods/ Services:** Following the implementation of GST, the import of commodities shall not be subject to such erstwhile applicable duties like safeguard duty, education cess, basic customs duty, anti-dumping duty, etc. All these supplementary custom duties are subsumed under GST. The supply of commodities or services or both, if imported into India, shall be considered as supply under inter-state commerce/ trade and shall attract integrated tax (IGST). The IGST rate and GST cess shall be applicable on the 'Custom Assessable Value' plus the 'Basic Customs duty applicable thereon'.

5.3. Payments

5.3.1 General

Periodic "On Account" payments and final Payments shall be made as per the procedure laid down in GCC only upon receipt of valid invoice through BTS portal "Bill tracking system portal" of CWC after submission of complete E-MB (computerized Measurement Book) by Contractor and Acceptance of E MB. by CWC. Central Warehousing Corporation (CWC) in its endeavor to achieve Zero Paper Usage (ZPU) and to ensure timely payment to the Contractors/vendors/suppliers, has mandated the usage of BTS to submit the digitally signed invoices/bills and supporting documents, if any, against the supply of goods/services/work setc. The ink signed invoices or physical copy of the invoices/supporting documents shall not be accepted for processing the due payments.

- The Contractors/ vendors/ suppliers shall be required to get themselves registered on the BTS as "vendors" (<https://cwceportal.com/bts/>) upon entering into the contract with CWC.
- Similarly, for increasing the transparency, expediting the process and achieving the contract management benefits through digital system, CWC has commenced "Contract Management system Portal (CMS)". All contractors are required to submit their agreements, EMBS and Quality test report setc. through CMS only.

5.3.2 No Advance Payments

Unless otherwise stipulated, no advance payment like Mobilization advance and Secured advance shall be made by the Procuring Entity. The other advances viz secured advances can be made if so, provided for such advances as per conditions stipulated therefore in GCC.

6. Downloading the Tender Document; Corrigenda and Clarifications

6.1. Downloading the Tender Document

The Tender Document shall be published and be available for download as mentioned in TIS. Bidders can obtain the Tender Document after the date and time of the start of availability till the deadline for availability. If the office happens to be closed on the deadline for the availability of the Tender Document, the deadline shall not be extended.

Tender document should be purchased (at the price mentioned in TIS) by the Bidder who is participating in the tender, i.e., Tender form should be in name of bidder, otherwise tender will be summarily rejected.

6.2. Corrigenda/Addenda to Tender Document

Before the deadline for submitting bids, the Procuring Entity may update, amend, modify, or supplement the information, assessment or assumptions contained in the Tender Document by issuing corrigenda and addenda. The corrigenda and addenda shall be published in the same manner as the original

Tender Document. Newspaper press advertisements shall not be issued for the same. Without any liability or obligation, the Portal may send intimation of such corrigenda/ addenda to bidders who have downloaded the document under their login. However, the bidders' responsibility is to check the website(s) for any corrigenda/ addenda. Any corrigendum or addendum thus issued shall be considered a part of the Tender Document. To give reasonable time to the prospective bidders to take such corrigendum/ addendum into account in preparing their bids, the Procuring Entity may also suitably extend the deadline for the bid

Volume-I(RFP)

submission, as necessary. After the procuring entity makes such modifications, any Bidder who has submitted his bid in response to the original invitation shall have the opportunity to either withdraw his bid or re-submit his bid superseding the original bid within the extended time of submission.

6.3. Clarification on the Tender Document or discrepancies in the Document

- 1) A Bidder may seek clarification of the Tender Document from Office/ Contact Person/ e-procurement Help Desk as mentioned in TIS, provided the clarifications are raised before the clarification end date mentioned in TIS (or if not mentioned, within 3 days of publishing of the bid). The Procuring Entity shall respond before 72 hours of the bid closing date. The query and clarifications shall be shared on the portal with all the prospective bidders. Any modification of the Tender Document that may become necessary due to the clarifications shall be made by the Procuring Entity through an Addendum/Corrigendum issued under the sub-clause above.
- 2) It should be understood that every endeavour has been made to avoid any error which can materially affect the basis of the tender and the successful Bidders shall take upon himself and provide for the risk of any error which may subsequently be discovered & shall make no subsequent claim on account thereof.
Should a Bidder find discrepancies or omissions in the drawings or any of the Tender forms or should he be in doubt as to their meaning, he should at once notify, within 10 days from start of document download date to the authority inviting tender to remove this discrepancy.

7. Pre-bid Conference

- 1) If a Pre-bid conference is stipulated in the TIS, prospective bidders interested in participating in this tender may attend a Pre-bid conference to clarify the techno-commercial conditions of the Tender at the venue, date and time specified therein. Participation in the Pre-bid conference is restricted to prospective bidders who have downloaded the Tender Document.
- 2) Participation is not mandatory. However, if a bidder chooses not to (or fails to) participate in the Pre-bid conference or does not submit a written query, it shall be assumed that they have no issues regarding the techno-commercial conditions.
- 3) The date and time by which the written queries for the Pre-bid must reach the authority and the last date for registration for participation in the Pre-bid conference are also mentioned in the TIS.
- 4) The pre-bid conference may also be held online at the discretion of the Procuring Entity.
- 5) After the Pre-bid conference, Minutes of the Pre-bid conference shall be published on the Procuring Entity's portal within seven days from the Pre-bid conference. If required, a clarification letter and corrigendum to Tender Documents shall be issued, containing amendments of various provisions of the Tender Document, which shall form part of the Tender Document. The Procuring Entity may suitably extend, as necessary, the deadline for the bid submission to give reasonable time to the prospective bidder to take such clarifications into account in preparing their bids.

8. Preparation of Bids

8.1. The bid

8.1.1 Language of the bid

Unless otherwise stipulated in the ITB, the bids submitted by Bidder and all subsequent correspondence and documents relating to the bid exchanged between Bidder and the Procuring Entity shall be written in English or the Official Language (Hindi). However, the language of any printed literature furnished by Bidder in connection with its bid may be written in any other language provided a translation accompanies the same in the bid language. For purposes of interpretation of the bid, translation in the language of the bid shall prevail.

8.1.2 Acquaintance with Local Conditions and Factors

Volume-I(RFP)

- 6) For the successful Bidder, Earnest Money will be returned after submission of PG (as applicable) within specified period and as per terms of Clauses of Contract.
- 7) The procuring entity shall not be responsible for any depreciation that may happen thereto EMD due to price inflation etc. while in its possession, nor shall be liable to pay any interest thereon.

8.6. Non-compliance with these provisions

Bids are liable to be rejected as non-responsive if a Bidder:

- 1) fails to provide and/ or comply with the required information, instructions etc., incorporated in the Tender Document or give evasive information/ reply against any such stipulations.
- 2) furnishes wrong and/ or misleading data, statement(s) etc. In such a situation, besides rejection of the bid as non-responsive, it is liable to attract other punitive actions under relevant provisions of the Tender Document for violation of the Code of Integrity.

9. Signing and Uploading of Bids

9.1. Relationship between Bidder and Procurement Portal

The Procuring Entity is neither a party nor a principal in the relationship between Bidder and the organization hosting the e-procurement portal (hereinafter called the Portal). Bidders must acquaint and train themselves with the rules, regulations, procedures, and implied conditions/ agreements of the Portal. Bidders intending to participate in the bid shall be required to register in the Portal. Bidders shall settle clarifications and disputes, if any, regarding the Portal directly with them. In case of conflict between provisions of the Portal with the Tender Document, provisions of the Portal shall prevail. Bidders may study the resources provided by the Portal for Bidders.

9.2. Signing of bid

- 1) The individual digitally signing the bid or any other connected documents should submit an authenticated copy of the document(s), which authorizes the signatory to commit and submit bids on behalf of the bidder in PQ form (Bidder Information).
- 2) If the tender is made by Proprietary firm, it shall be signed by the Proprietor with his full name and full name of his firm with its current address.
- 3) If the application is made by a Firm in Partnership, it shall be signed by all partners of the Firm above their full names and current addresses or by a partner holding the power of attorney for the Firm by signing the applications in which case a certified copy of the power of attorney shall accompany the application. A certified copy of the Partnership Deed, current address of the Firm and the full names and current addresses of all the Partners of the Firm shall also accompany the application.
Note; Receipts for payment made on account of work, when executed by a Firm, must also be signed by all the partners, except where contractors are described in their tender as a Firm, in which case the receipts must be signed in the name of the Firm by one of the partners or by some other person having due authority to give effectual receipts for the Firm.
- 4) If the application is made by a limited company or a limited corporation, it shall be signed by a duly authorized person, holding the power of attorney for signing the application in which case a certified copy of the Power of Attorney shall accompany the application. Such Limited Company or Corporation will be required to furnish satisfactory evidence of its existence, before the contract is awarded.

9.3. Submission/uploading of Bids.

9.3.1 Submission/ Uploading to the Portal

- 1) No manual Bids shall be made available or accepted for submission. In the case of downloaded documents, Bidder must not make any changes to the contents of the documents while uploading, except for filling the required information—otherwise, the bid shall be rejected as non-responsive.
- 2) Bids shall be received only *Online* on or before the deadline for the bid submission as notified in TIS.

Volume-I(RFP)

- 3) Only one copy of the bid can be uploaded, and Bidder shall digitally sign all statements, documents, certificates uploaded by him, owning sole and complete responsibility for their correctness/authenticity as per the provisions of the IT Act 2000 as amended from time to time.
- 4) Bidder need not sign or up-load the entire tender document and its sections as mentioned in ITB-clause 1.4 above while uploading his bid. It is assumed that Bidder commits itself to comply with all the Sections and documents uploaded by the Tender Inviting Officer.
- 5) Bidder must upload scanned copies of originals – (as specified). Uploaded Pdf documents should not be password protected. Bidders should ensure the clarity/legibility of the scanned documents uploaded by him.
- 6) The Procuring Entity reserves its right to call for verification originals of all such self-certified documents from the Bidders at any stage of evaluation, especially from the successful Bidder(s) even after the issue of Letter of Award (LoA).
- 7) Regarding the protected Price Schedule (excel format, Cover-2), Bidder shall write his name in the space provided in the specified location only. Bidder shall type percentage rates in the figure only in the bidder's rate column of each of sub schedule without leaving any blank cell or Zero values in the rate column, without any alteration/deletion/modification of other portions of the excel sheet.
- 8) The date and time of the deadline for the bid submission shall remain unaltered even if the specified date is declared a holiday for the Tender Inviting Officer.
- 9) The date and time of the e-Procurement server clock, which is also displayed on the dashboard of the bidders, shall be taken as the reference time for deciding the closing time of bid submission. Bidders are advised to ensure they submit their bid within the deadline and time of bid submission, taking the server clock as a reference, failing which the portal shall not accept the Bids. No request on the account that the server clock was not showing the correct time and that a particular bidder could not submit their bid because of this shall be entertained. Failure or defects on the internet or heavy traffic at the server shall not be accepted as a reason for a complaint. The Procuring Entity shall not be responsible for any failure, malfunction or breakdown of the electronic system used during the e-Tender Process.
- 10) Submission of tender and credential documents through E-Tender website www.cwceprocure.com shall be sole risk & responsibility of the Bidder. Any claim on this account will not be entertained. Hence, Bidder should ensure that tender along with all requisite credential papers are submitted /uploaded on e-tender website in correct way and at correct place on or before tender submission date & time.
- 11) Bidders should upload all the required documents with the tender under valid digital signature. Uploading of tender with digital signatures shall imply that all tender terms & conditions have been accepted by the bidder unless the bidder has specifically declared for non-acceptance/deviation in his technical bid. It shall also mean that documents uploaded by bidders are attested by him self and he takes full responsibility of authenticity of same.
- 12) All Bids uploaded by Bidder to the portal shall get automatically encrypted. The encrypted bid can only be decrypted/ opened by the authorised persons on or after the due date and time. The bidders should ensure the correctness of the bid before uploading and take a printout of the system generated submission summary to confirm successful bid upload.
- 13) The Procuring Entity may extend the deadline for the bid submission by issuing an amendment, in which case all rights and obligations of the Procuring Entity and the bidders previously subject to the original deadline shall then be subject to the new deadline for the bid submission.
- 14) Bids submitted through modalities other than those stipulated in IT shall be liable to be rejected as non-responsive.
- 15) For whatsoever reasons, if any part of tender document is not uploaded/submitted by the bidder, other than financial & technical offers and requisite pre-Qualifying credentials; in that case, the missing part of the tender document shall be treated as read and accepted by bidder. Missing part of tender document shall not be called for re-submission; however, the same shall form part of contract agreement and shall be binding on bidder.

Volume-I(RFP)

9.3.2 Implied acceptance of procedures by Bidders

Submission of bid in response to the Tender Document is deemed to be acceptance of the Procurement and tender procedures and conditions of the Tender Document.

9.3.3 Late Bids

The bidder shall not be able to submit this bid after the expiry of the deadline for the bid submission (as per server time). Therefore, in the Procurement, a situation of Late Tender does not arise.

9.4. Modification, Resubmission and Withdrawal of Bids

9.4.1 Modification & Resubmission

Once submitted in e-Procurement, Bidder cannot view or modify his bid since it is locked by encryption. However, resubmission of the bid by the bidder for any number of times superseding earlier bid(s) before the date and time of submission is allowed. Resubmission of a bid shall require uploading of all documents, including financial bid afresh. The system shall consider only the last bid submitted.

9.4.2 Withdrawal

- 1) The bidder may withdraw his bid before the bid submission deadline, and it shall be marked as withdrawn.
- 2) No bid should be withdrawn after the deadline for the bid submission and before the expiry of the bid validity period. If a Bidder withdraws the bid during this period, the Procuring Entity shall be within its right to enforce Bid Security (EMD), in addition to other punitive actions provided in the Tender Document for such misdemeanour.

10. Bid Opening

The date & time of the opening bid is as stipulated in TIS. Bids cannot be opened before the specified date & time, even by the Tender Inviting Officer, the Procurement Officer, or the Publisher. If the specified date of tender opening falls on a subsequently declared holiday or closed day for the Procuring Entity, the Bid shall be opened at the appointed time on the next working day.

11. Evaluation of Bids and Award of Contract

11.1. General norms

11.1.1 Evaluation based only on declared criteria.

The evaluation shall be based upon scrutiny and examination of all relevant data and details submitted by Bidder in its/ his bid and other allied information deemed appropriate by Procuring Entity. Evaluation of bid shall be based only on the criteria/ conditions included in the Tender Document.

11.1.2 Infirmary/ Irregularity/ Non-Conformity/ Deviations- Substantive or Minor

1. An infirmity/ irregularity or non-conformity/ exception/ deviation/ reservation/ omission from the requirements of the Tender Document shall be considered as a substantive deviation as per the following norm, and the rest shall be considered as Minor deviation:
 - a) which affects in any substantial way the scope, quality, or performance standards of the Works/ Services;
 - b) which limits in any substantial way, inconsistent with the Tender Document, the Procuring Entity's right or the Bidder's obligations under the contract; or
 - c) Whose rectification would unfairly affect the competitive position of other Bidders presenting substantively responsive Bids.

Volume-I(RFP)

2. The decision of the Procuring Entity shall be final in this regard. Bids with substantive deviations shall be rejected as non-responsive.
3. Variations and deviations and other offered benefits (Techno-commercial or Financial) above the scope/ quantum of Works/ Services stipulated in the Tender Document shall not influence evaluation Bids. If the bid is otherwise successful, such benefits shall be availed by the Procuring Entity, and these would become part of the contract.
4. The Procuring Entity reserves the right to accept or reject bids with any minor deviations. Wherever necessary; the Procuring Entity shall convey its observation as per sub-clause below, on such 'minor' issues to Bidder electronically etc. asking Bidder to respond by a specified date. If Bidder does not reply by the specified date or gives an evasive reply without clarifying the point at issue in clear terms, that bid shall be liable to be rejected as non-responsive.

11.1.3 Clarification of Bids and short fall documents

- 1) During the evaluation of Techno-commercial or Financial Bids, the Procuring Entity may, at its discretion, but without any obligation to do so, ask Bidder to clarify its bid by a specified date otherwise **within time of 03 days. Bidder should answer the clarification within that specified date otherwise within time of 03 days.**
- 2) The request for clarification shall be submitted in writing electronically and no change in prices or substance of the bid shall be sought, offered, or permitted that may grant any undue advantage to such bidder.
- 3) For this purpose, the procedure stated below is to be followed and the specific clarification is required to be uploaded on the same portal as per the procedure prescribed therein.
- 4) The Bidder has the option to respond or not to respond to these queries.
- 5) If the Bidder fails to respond, within the stipulated time period or fails to respond/submit the clarification(s)/document(s) with respect to mandatory documents submitted or it is non-conforming to requirement of tender conditions; no further time will be given for submitting the same and the tender will be summarily rejected.
- 6) For obtaining clarification, following procedure is to be followed:
 - i. A icon for clarifications shall appear on "Bid Details" page (in front of each of the Bidder's name) at Corporation's end after opening of Technical/Financial Bid.
 - ii. Corporation shall click on clarification icon for the desired Bidder and enter the details of clarifications sought within the prescribed time.
 - iii. After entering the details of clarification sought by the Corporation, same icon shall appear at Bidder's end for replying to the particular clarification sought by the Corporation. The system will also send the alert to the Bidder at his registered e-mail address about the clarification sought by the Corporation.
 - iv. Bidder will click on clarification icon and will reply to the same and upload the required clarification/documents in support of clarifications sought, if any, within the prescribed time. Bidder cannot ask for any clarification from the corporation.
 - v. Once the prescribed time expires, clarification icon from Bidder's site shall also disappear automatically.
 - vi. After expiry of prescribed time, Corporation shall download the clarification/documents in support of clarifications submitted by the Bidder.
- 7) If discrepancies exist between the uploaded scanned copies and the Originals submitted by the bidder, the original copy's text, etc., shall prevail. Any substantive discrepancy shall be construed as a violation of the Code of Integrity, and the bid shall be liable to be rejected as non-responsive in addition to other punitive actions under the Tender Document for violation of the Code of Conduct.
- 1) The Procuring Entity reserves its right to, but without any obligation to do so, to seek any short fall information/ documents only in case of historical documents which pre-existed at the time of the tender opening, and which have not undergone change since then and does not grant any undue advantage to any bidder. There is a provision on the portal for requesting Short-fall documents from the bidders.

Volume-I(RFP)

11.1.4 Contacting Procuring Entity during the evaluation

Canvassing whether directly or indirectly in connection with tenders is strictly prohibited and the tenders submitted by the Bidders who resort to canvassing will be liable to rejection.

From the time of bid submission to awarding the contract, no Bidder shall contact the Procuring Entity on any matter relating to the submitted bid. If a Bidder needs to contact the Procuring Entity for any reason relating to this tender and/ or its bid, it should do so only in writing electronically. Any effort by a Bidder to influence the Procuring Entity during the processing of bids, evaluation, bid comparison or award decisions shall be construed as a violation of the Code of Integrity, and bid shall be liable to be rejected as non-responsive in addition to other punitive actions for violation of Code of Integrity as per the Tender Document.

11.2. Evaluation of Bids

11.2.1 Preliminary Examination of Bids-Determining Responsiveness

A substantively responsive bid is complete and conforms to the Tender Document's essential terms, conditions, and requirements, without substantive deviation, reservation, or infirmity. Only substantively responsive bids shall be considered for further evaluation. Unless otherwise stipulated in the ITB, the following are some of the crucial aspects for which a bid shall be rejected as non-responsive:

- 1) The bid is not in the prescribed format or is not submitted as per the stipulations in the Tender Document.
- 2) Required Bid Security (EMD) has not been provided.
- 3) Tender Document Cost, if specifically mentioned in TIS/ITB, has not been paid.

- 10) Non-submission or submission of illegible scanned copies of stipulated **Mandatory documents/declarations**
- 11) Tenders containing any condition leading to unknown/ indefinite liabilities.

11.2.2 The evaluation process:

- 1) This Tender Process is for Single Stage bids in Two bid System (Technical and Financial) as stipulated in TIS/ITB.
- 2) Initially, only the techno-commercial bids that is also referred /called as technical bid shall be opened on the stipulated date of opening of bids. After that, the techno-commercial evaluation shall be done to find whether these bids meet the eligibility & qualification criteria and techno-commercial aspects. Subsequent opening of financial bids and financial evaluation shall be done only of bids declared successful in techno-commercial evaluation.

11.3. Techno-commercial Evaluation

Only substantively responsive bids shall be evaluated for techno-commercial evaluation. In evaluating the techno-commercial bid, conformity to the eligibility/qualification criteria, technical specifications, and Quality Assurance; and commercial conditions of the offered Services to those in the Tender Document is ascertained. Additional factors incorporated in the Tender Document shall also be considered in the manner indicated therein. Bids with substantive techno-commercial deviations shall be rejected as non-responsive. Procuring entity reserves its right to consider and allow minor deviations in technical and Commercial Conditions.

11.3.1 Evaluation of eligibility

Volume-I(RFP)

The Tender evaluation Committee constituted by Procuring Entity shall determine, to its satisfaction, whether the Bidders are eligible as per ITB-clause 3.2 and NIT-clause 2 above to participate in the Tender Process as per submission in Eligibility Declarations. Tender that do not meet the required eligibility criteria prescribed shall be rejected as non-responsive.

11.3.2 Evaluation of Qualification Criteria

The Tender evaluation Committee constituted by Procuring Entity shall determine, to its satisfaction, whether the Bidders are qualified and capable in all respects to perform the contract satisfactorily. This determination shall, inter-alia, consider the Bidder's Experience/Past Performance and Financial Capabilities etc; for satisfying all requirements incorporated in the Tender Document. The determination shall not consider the qualifications of other firms such as the Bidder's subsidiaries, parent entities, affiliates, subcontractors, or any other firm(s) different from the Bidder.

11.3.3 Evaluation of Conformity to Commercial and Other Clauses

Bidder must comply with all the Commercial and other clauses of the Tender Document. The Procuring Entity shall also evaluate the commercial conditions quoted by Bidder to confirm that all terms and conditions stipulated in the Tender Document have been accepted without substantive omissions/reservations/exception/deviation by the Bidder. Deviations from or objections or reservation to critical provisions such as those concerning Governing laws and Jurisdiction, Contractor's Obligations and Restrictions of its Rights, Performance Bond/Security, Force Majeure, Taxes & Duties, Defects Liability Period, Completion Time, LD clause, Technical Specifications, and Code of Integrity will be deemed to be a material deviation.

11.3.4 Declaration of Techno-commercially Suitable Bidders and Opening of Financial Bids

Bid that succeed in the above techno-commercial evaluation shall be considered techno-commercially suitable, and financial evaluation shall be done only of such Bids. The list of such techno-commercially suitable bidders and date/time and venue for the opening of their financial bids shall be declared on the procurement Portal only.

11.4. Evaluation of Financial Bids and Ranking of Bids

11.4.1 Ranking of Financial Bids

- 1) Evaluation of the financial bids shall be on the price criteria only. Financial Bids of all Techno-commercially suitable bids shall be evaluated and ranked to determine the lowest priced bidder.
- 2) The comparison of the responsive Bid shall be on total outgo from the Procuring Entity's pocket, to be paid to the contractor including all elements of costs as per the terms of the proposed contract, duly delivered, commissioned, etc. as the case may be, including any taxes, duties, levies etc.
- 3) The price schedule contains the rates of civil, electrical, E&M works from CPWD-DSR (DSR CIVIL 2021 and E&M 2022 and other schedules mentioned in the Volume III) and Market Rates/ non schedule items based of the analysis of DSR. the contract shall quote all items mentioned in the schedule including scheduled or non-scheduled items. The bid for a schedule shall not be considered if all item of works prescribed in that schedule are not quoted or included in the bid.
Any mention of prices elsewhere other than at appropriate place in financial bid XLS sheet, will be summarily rejected and will not be entertained.
- 4) All tenders in which any of the prescribed condition is not fulfilled and any condition including that of conditional rebate is put forth by the Bidder, shall be summarily rejected.
- 5) If any bidder offers discounts/ rebates in his bid or suo-motu discounts and rebates after the tender opening (techno-commercial or financial), such rebates/ discounts shall not be considered for ranking the offer. But if such a bidder does become L-1 without such discounts/ rebates, such discounts/ rebates shall be availed and incorporated in the contracts;
- 6) Unless announced before hand, the quoted prices shall not be loaded based on deviations in the commercial conditions. If it is so declared, such loading of a financial bid shall be done as per the relevant provisions;

Volume-I(RFP)

- 7) **Bidders quoted rates shall be inclusive of GST, Building & Construction Workers Cess and any other taxes, levies, duties, as applicable on complete work.** Evaluation of Bids shall include and consider these component over and above basic rates of material & services. The Procuring Entity shall not be responsible for any misclassification of HSN Number or incorrect GST rate if quoted by the bidder. Any increase in GST rate due to misclassification of HSN number shall have to be absorbed by the supplier.
- 8) Valid L1 shall be decided based on overall lowest quote in terms of Gross Tendered Amount (GTA) calculated on the basis of estimated cost and contractor percentage (CP) quoted for each sub-schedule by bidder in his financial bid. Refer TCC for details.
- 9) **Ambiguous Financial bid:** If the financial bid is ambiguous, it shall be rejected as non-responsive.
- 10) In case the lowest Gross tendered amount (GTA) of two or more contractors is same, such lowest bidders will be asked to submit sealed revised offer in the form of letter mentioning percentage above/below on scheduled cost of tender including all sub-sections/ sub-heads as the case may be, but the revised percentage quoted above/below on tendered cost or on each sub-section/sub-head should not be higher than the percentage quoted at the time of submission of tender. The lowest tenders shall be decided based on revised offers.
- 11) In case any of such contractor refuses to submit revised offer, then it shall be treated as withdrawal of his tender before acceptance and 50% of earnest money shall be forfeited.
- 12) If the revised tendered amount of two more contractors received in revised offer is again found to be equal, the lowest tender, among such contractors, shall be considered as one for whom Arithmetic sum of turn over from operations for previous three financial years as mentioned in eligibility criteria of bid stands highest. In case, turnover of all such bidder stands equal then Lowest bidder shall be decided by draw of lots in the presence of Tender Evaluation Committee & the lowest contractor those have quoted equal amount of their tenders.
- 13) In case all the lowest contractors those have quoted same tendered amount, refuse to submit revised offers, then tenders are to be recalled after forfeiting 50% of EMD of each contractor. Contractor(s), whose earnest money is forfeited because of non-submission of revised offer, shall not be allowed to participate in the re-tendering process of the work.
- 14) Cartel Formation/Pool Rates
1. If Procuring Entity decides this to be a case of Cartel/ Pool Rates, leading to "Appreciable Adverse Effect on Competition" (AAEC) as identified in Competition Act, 2002, as amended from time to time, it reserves its right to:
- a) consider it as a violation of the Code of Integrity and reject the bid(s) as non-responsive in addition to other punitive actions provided in this regard in the Tender Document. In addition to such remedies, the Procuring Entity also reserves the right to refer the matter to the Competition Commission of India (CCI) for obtaining necessary relief. In addition, the attention of the bidders is drawn to Chapter VI of the "The Competition Act 2002", which deals with Penalties. Such actions shall be in addition to other rights and remedies available to the Procuring Entity under the contract and Law.

11.4.2 Reasonableness of Rates Received

Procuring Entity shall evaluate whether the rates received in the Bids in the zone of consideration are reasonable. If the rates received are considered abnormally low or unreasonably high, it reserves its right to take actions as per the following sub-clauses, or as per ITB-clause 2.3, reject any or all Bids; abandon/cancel the Tender process and issue another tender for identical or similar Services.

11.4.3 Consideration of Abnormally Low Bids

An Abnormally Low bid is one in which the bid price, in combination with other elements of the bid, appears so low that it raises substantive concerns as to the Bidder's capability to perform the contract at the offered price. Procuring Entity shall in such cases seek written clarifications from the Bidder, including detailed price

Volume-I(RFP)

analyses of its bid price concerning scope, schedule, allocation of risks and responsibilities, rates of material, manpower, T&P, machines etc required to be provided to complete the work or to deliver the services and any other requirements of the Tender Document.

The rates consist of applicable GST, 15% contractor profit with overhead and the scope of work includes miscellaneous Day to day General nature maintenance services. The More over the quality of works and standard of services required in CW complex shall be as per approved technical specifications and of best industries practice and therefore it is understood the contractor cannot deliver the services in an efficient manner if they quote the abnormally below rates. The contractor shall also comply all labor laws and contribution towards ESI/EPF and Labor CESS is also covered in the rates quoted by him. **In view of all these factors, If rate quoted in any of tender price sub schedule (A. I, A.II, A.III) is below 15% of rates mentioned in tender price schedule, then it shall be considered abnormally low rates and in such case, if a contractor quoting such abnormal rate is found successful in tender system due to his lowest offer (Lowest GTA), he will have to submit additional performance guarantees equivalent to 2 times of the amount mentioned in Clause 12.1.3, below.**

11.4.4 Price Negotiation

Usually, there shall be no price negotiations. However, the Procuring Entity reserves its right to negotiate with the lowest acceptable bidder (L-1).

The Bidder shall not increase his rate in case the Procuring Entity negotiates for reduction of rates. Such negotiations shall not amount to cancellation or withdrawal of original offer and rates originally quoted will also be binding on the Bidder.

12. Award of Contract

There shall be no parallel orders or splitting quantities among more than one Bidders.

12.1. Letter of Award (Acceptance-LoA) and Signing of Contract, Placement of work orders

12.1.1 Selection of Successful Bidder(s)

The Procuring Entity shall award the contract to the Bidder whose bid is Techno-commercially suitable and bid price is the lowest and reasonable, as per evaluation criteria detailed in the Tender Document.

12.1.2 Letter of Award (LoA)

- 1) The Bidder, whose bid has been accepted, shall be notified of the award by the Procuring Entity before the expiration of the bid validity period in written by digital means only through CWCEmail only. This notification (hereinafter and in the Conditions of Contract called the "Letter of Award - LoA") shall state the sum (hereinafter and in the contract called the "Contract Price") that the Procuring Entity shall pay the contractor in consideration of completion of work. The Letter of Award (LoA) shall constitute the legal formation of the contract, subject only to the furnishing of performance security as per the provisions of the sub-clause below.
- 2) The bidder shall return duly acceptance copy of LOA in written by digital means only through Email only. Failure in acceptance of LOA or non-acting for further deposition of PG will lead to termination and forfeiture of EMD and other punitive actions as mentioned in ITB.
- 3) On acceptance of the tender, the name of the accredited representative(s) of the contractor, who would be responsible for taking instructions from the Regional Manager/Engineer-in-charge /Engineer/Warehouse Managers shall be communicated to the Engineer-in-Charge.
- 4) If a Bidder expires after the submission of his tender or after the acceptance of his tender, the CWC shall deem such tender as cancelled. If a partner of a Firm expires after the submission of their tender or after the acceptance of their tender, the CWC shall deem such tender as cancelled, unless the Firm retains its character. However, in such cases, the amount of Earnest Money will be refunded to the legal heir on production of successor certificate.

12.1.3 Performance Security/Performance Guarantee(PG)

- 1) The Bidder, whose tender is accepted and LOA has been placed, will be required to furnish to the Procuring Entity, a Performance Guarantee (PG) of an amount equivalent of 5% of the estimated Contract Price with escalation, if any and Additional Performance Guarantee (in case of abnormally low bid as per Clause 11.4.4 above) within 15 days of receipt of the Letter of Award (LoA) or period specified in Annexure-7 whichever is earlier, as per details in TIS/GCC-CL-1/LOA
- 2) In case of non-submission of Performance Security / Performance Guarantee (PG) by contractor by due date as above, Procuring Entity, upon written request of Contractor, may extend the due date of submission of PG which in no case shall be 30 days of receipt of the Letter of Award (LOA). Such (maximum) allowable extension shall be with late fee @ 0.1% per day of Performance Guarantee amount beyond the initial period of 15 days.
- 3) In case of non-receipt of written request of Contractor for extension of initial due date of submission of PG or non-submission of PG even by 15th day of receipt of LOA, no extension of such due date shall be sumo granted by Procuring Entity. The action on contract shall be decided by Procuring Entity as per provisions made herein at subclause (4) or elsewhere in Tender Document.
- 4) In case the PG/SD is to be submitted through BG then, The Bank Guarantee issuing bank shall send cover for Bank Guarantee issued through SFMS platform to the CWC Banker i.e. **ICICI Bank, 9 Phelp's Building, Connaught Place, New Delhi, (IFSC Code: ICIC0000007)** as per details given below:
 - MT760COV for issuance of bank guarantee.
 - MT767COV for amendment of bank guarantee.
 - Issuing bank shall mention CWC beneficiary code i.e. CENTRALW27112020 in field 7037 of MT760COV / MT767COV.
 - The bidder shall submit the copy of SFMS message as sent by the issuing bank branch along with the original Bank Guarantee.
 - Bank Guarantee submitted without these details shall not be accepted.
- 5) If the contractor, having been called upon by the Procuring Entity to furnish PG, fails to do so within the period as specified above in subclause (1) (in case of non-extension) and even up to last date of extended period, if extended as specified in subclause (2) above, the contract shall be terminated without any notice to Contractor, duly forfeiting EMD and other dues, if any payable against the contract. The failed contractor shall be debarred from participating in future tender of the Corporation for next two years from the date of debarring.
- 6) In the case, when bidder, whose bid has been found to be the lowest evaluated bid withdraws or whose bid has been accepted, fails to sign the contract as may be required, or fails to provide the security (PG) as may be required for the performance of the contract or otherwise withdraws from the procurement process, the Procuring Entity shall cancel the procurement process.

12.1.4 The Contract and Signing of Contract

- 1) Within seven working days of receiving performance security in form of Bank Guarantee, the Procuring Entity shall send the contract form (as per Volume-II: Contract Form along with sub-formats) duly completed and signed, in duplicate by digital means through CWC Contract Management Portal (CMS)/Email only to the successful Bidder.
- 2) If so asked by the Procuring Entity, the successful Bidder shall return the original copy of the contract, duly signed and dated, within seven days from the date of receipt of the contract, to the Procuring Entity by suitable digital means through CWC Contract Management Portal (CMS)/Email only.
- 3) The contractor may point out to the Procuring Entity, in writing/ electronically, any anomalies noticed in the contract within seven days of its receipt.
- 4) Failure to do so in signing the contract shall constitute a breach, in which case, the Procuring Entity would be at liberty to not only terminate the contract, but also forfeit EMD and Performance Bank Guarantee. Cost of stamp paper for the agreement will be borne by contractor.

Volume-I(RFP)

- 5) The contract agreements shall consist of:
The Press Notification (if any), E-Tender Notice, Notice Inviting Tender (NIT), Tender information summary (TIS), Instructions to Bidders (ITB), all the Documents of Tender & Contract for works including Schedule I, II and III and Drawings, if any, forming the part of tender documents, as issued/downloaded by the Bidder from the websites at the time of invitation of tender and acceptance thereof together with any correspondence with them leading thereto and also the correspondence related with verification of credentials
- 6) Procuring Entity through the officers as defined in contract may place the work order(s) on need basis to perform various works and to deliver the services as per scope during currency of contract.

12.1.5 Publication of Tender Result

The name and address of the successful Bidder(s) receiving the contract(s) shall be published only on the procurement portal on www.cwceprocure.com, website of the Corporation and on CPP portal.

12.1.6 Verification of Original Documents

The Procuring Entity, at its discretion, may ask Bidder to submit for verification the originals of all such documents whose scanned copies were submitted online along with the technical bid. The credential documents of financial and experience criteria shall also be got verified from the authority/ office who has issued such documents. If so decided, the photocopies of such self-certified documents and the credential documents verified from issuing office/ authority shall be kept in the records as part of the contract agreement.

If the Bidder fails to provide such originals or in case of substantive discrepancies in such documents or it is found at any stage of tendering process that documents submitted in bid is/are fabricated/ tempered/ forged/ altered/ manipulated/ false then it shall be construed as a violation of the Code of Integrity. Such bid shall be liable to be rejected as non-responsive, bidder shall be disqualified and the evaluation of Bid shall proceed with the subsequent ranked offers.

If the Bidder fails to provide such originals or in case of substantive discrepancies in such documents or documents submitted in bid is/are fabricated/ tempered/ forged/ altered/ manipulated/ false if found even after placement of LOA or signing the contract or then Procuring Entity reserves the right to terminate the contract, forfeit of EMD and Performance Security and/or adjust the Security Deposit or the Retention Amount against Corporation's claims whichever is available on or after termination of the Contract.

In addition to above (disqualification of bidder or termination of contract as the case may be), other punitive actions shall also be taken to blacklist/debar the bidder from future participation in tenders of the Procurement Entity for next five years.

13. Grievance Redressal/Complaint Procedure

- 1) Bidder has the right to submit a complaint or seek de-briefing regarding the rejection of his bid, in writing or electronically, within 10 days of declaration of techno-commercial or financial evaluation results. The grievance can be registered through grievance redressal portal (<https://cwceportal.com/grp/VigilanceApplicationForm/Create?q=itbljmSK+WnjaC/EoVtINA==>) using general grievances.
- 2) Within 10 working days of receipt of the complaint, the Tender Inviting Officer shall acknowledge the receipt in writing to the complainant indicating that it has been received, and the response shall be sent in due course after a detailed examination.
- 3) The Tender Inviting Officer shall convey the final decision to the complainant within 21 days of receiving the complaint. No response shall be given regarding the confidential process of evaluating bids and awarding the contract before the award is notified, although the complaint shall be kept in view during such a process. However, no response shall be given regarding the following topics explicitly excluded from such complaint process:

If a part or a component of work is completed but the overall scope of contract is not completed, this work shall not be considered for fulfilment of technical credentials even if the cost of part completed work/component is more than required for fulfilment of credentials. 4. In case a work is considered similar in nature for fulfilment of technical credentials, the overall cost of that work including PVC amount if any shall be considered and no separate evaluation for each component of that work shall be made to decide eligibility.
 15. The value of final bill including PVC amount-if paid, or otherwise in case final bill is pending the contract cost in last approved variation statement plus PVC amount paid or cumulative amount paid upto last on-

Volume-I(RFP)

account bill including PVC amount and statutory deductions whichever is less, shall be considered as the complete cost of work.

16. Participation of Partnership Firms in work tenders:

- i. The Partnership Firms participating in the tender should be legally valid under the provisions of the Indian Partnership Act.
- ii. The partnership firm should have been in existence or should have been formed prior to submission of tender. Partnership firm should have either been registered with the Registrar or the partnership deed should have been notarized prior to date of tender opening as per the Indian Partnership Act.
- iii. Separate identity / name should be given to the partnership firm. The partnership firm should have PAN / TAN number in its own name and PAN / TAN number in the name of any of the constituent partners shall not be considered. The valid constituents of the firm shall be called partners.
- iv. Once the tender has been submitted, the constitution of the firm shall not be allowed to be modified / altered / terminated during the validity of the tender as well as the currency of the contract except when modification becomes inevitable due to succession laws etc., in which case prior permission should be taken from CWC and in any case the minimum eligibility criteria should not get vitiated. The re-constitution of firm in such cases should be followed by a notary certified Supplementary Deed. The approval for change of constitution of the firm, in any case, shall be at the sole discretion of the CWC and the Bidder shall have no claims what-so-ever. Any change in the constitution of Partnership firm after opening of tender shall be with the consent of all partners and with the signatures of all partners as that in the Partnership Deed. Failure to observe this requirement shall render the offer invalid and full EMD shall be forfeited. If any Partner / withdraws from the firm after opening of the tender and before the award of the contract, the offer shall be rejected. If any new partner joins the firm after opening of tender but prior to award of contract, his/her credentials shall not qualify for consideration towards eligibility criteria either individually or in proportion to his share in the previous firm. In case the Bidder fails to inform CWC beforehand about any such changes / modification in the constitution which is inevitable due to succession laws etc. and the contract is awarded to such firm, then it will be considered a breach of the contract conditions liable for determination of the contract under Clause 3 of General Conditions of Contract.
- v. A partner of the firm shall not be permitted to participate either in his individual capacity or as a partner of any other firm in the same tender.
- vi. The tender form shall be submitted only in the name of partnership firm. The EMD shall be deposited by partnership firm through e-payment gateway as mentioned in tender document. The EMD submitted in the name of any individual partner or in the name of authorized partner (s) shall not be considered.
- vii. One or more of the partners of the firm or any other person (s) shall be designated as the authorized person (s) on behalf of the firm, who will be authorized by all the partners to act on behalf of the firm through a "Power of Attorney", specially authorizing him / them to submit & sign the tender, sign the agreement, receive payment, witness measurements, sign measurement books, make correspondences, compromise/settle/relinquish any claim (s) preferred by the firm, sign "No Claim Certificate", refer all or any dispute to arbitration and to take similar such action in respect of the said tender/contract. Such "Power of Attorney" shall be notarized/registered and submitted along with the tender.
- viii. On issue of Letter of Acceptance (LOA) to the partnership firm, all the guarantees like Performance Guarantee, Guarantee for various Advances to the Contractor shall be submitted only in the name of the partnership firm and no splitting of guarantees among the partners shall be acceptable.
- ix. On issue of Letter of Acceptance (LOA), contract agreement with partnership firm shall be

Volume-I(RFP)

executed in the name of the firm only and not in the name of any individual partner.

- x. In case the Letter of Acceptance (LOA) is issued to a partnership firm, the following undertakings shall be furnished by all the partners through a notarized affidavit, before signing of contract agreement.
- (a) Joint and several liabilities: The partners of the firm to which the Letter of Acceptance (LOA) is issued, shall be jointly and severally liable to the CWC for execution of the contract in accordance with General and Special Conditions of the Contract. The partners shall also be jointly and severally liable for the loss, damages caused to the CWC during the course of execution of the contract or due to non-execution of the contract or part thereof.
- (b) Duration of the partnership deed and partnership firm agreement: The partnership deed / partnership firm agreement shall normally not be modified / altered / terminated during the currency of contract and the maintenance period after the work is completed as contemplated in the conditions of the contract. Any change carried out by partners in the constitution of the firm without permission of CWC, shall constitute a breach of the contract, liable for determination of the contract under Clause 3 of the General Conditions of Contract.
- (c) Governing laws: The partnership firm agreement shall in all respect be governed by and interpreted in accordance with the Indian laws.
- (d) No partner of the firm shall have the right to assign or transfer the interest right or liability in the contract without the written consent of the other partner / and that of the CWC.
- xi. The Bidder shall clearly specify that the tender is submitted on behalf of a partnership firm. The following documents shall be submitted by the partnership firm, with the tender:
- A copy of partnership deed.
 - A copy of Power of Attorney (duly registered as per prevailing law) in favour of the individual to tender for the work, sign the agreement etc. and create liability against the firm.
 - An undertaking by all partners of the partnership firm that they are not blacklisted or debarred by CWC/CPWD/Railways or any other Ministry / Department of the Govt. of India / any State Govt. or PSU from participation in tenders / contracts as on the date of opening of bids, either in their individual capacity or in any firm in which they were / are partners. Concealment / wrong information in regard to above shall make the contract liable for determination under Clause 3 of the General Conditions of Contract.
- xii. In case of newly formed partnership firm, the credentials of individual partners from previous proprietary firm(s) or dissolved previous partnership firm(s) or split previous partnership firm(s), shall be considered only to the extent of their share in previous entity on the date of dissolution / split and their share in newly formed partnership firm. For example, a partner A had 30% share in previous entity and his share in present partnership firm is 20%. In the present tender under consideration, the credentials of partner A will be considered to the extent of 0.3×0.2 * value of the work done in the previous entity. For this purpose, the Bidder shall submit along with his bid all the relevant documents which include copy of previous partnership deed(s), dissolution deed(s) and proof of surrender of PAN No.(s) in case of dissolution of partnership firm(s) etc.
- xiii. In case of existing partnership firm, if any one or more partners quit the partnership firm, the credentials of remaining partnership firm shall be re-worked out i.e., the quitting partner(s) shall take away his credentials to the extent of his share on the date of quitting the partnership firm (e.g. in a partnership firm of partners A, B & C having share 30%, 30% & 40% respectively and credentials of Rs 10 crore; in case partner C quits the firm, the credentials of this partnership firm shall remain as Rs 6 crore). For this purpose, the Bidder shall submit along with his bid all the relevant documents which include copy of previous partnership deed(s), dissolution deed(s) and proof of surrender of PAN No.(s) in case of dissolution of partnership firm(s) etc.
- xiv. In case of existing partnership firm if any other partner(s) join the firm, the credentials of partnership

Volume-I(RFP)

firm shall get enhanced to the extent of credentials of newly added partner(s) on the same principles as mentioned in sub clause above. For this purpose, the Bidder shall submit

along with his bid all the relevant documents which include copy of previous partnership deeds, dissolution/splitting deeds and proof of surrender of PAN No.(s) in case of dissolution of partnership firm etc.

- xv. Any partner in a partnership firm cannot use or claim his credentials in any other firm without leaving the partnership firm i.e., In a partnership firm of A&B partners, A or B partner cannot use credentials of partnership firm of A&B partners in any other partnership firm or propriety firm without leaving partnership firm of A&B partners.
- xvi. In case a partner in a partnership firm is replaced due to succession as per succession law, the proportion of credentials of the previous partner will be passed on to the successor.
- xvii. If the percentage share among partners of a partnership firm is changed, but the partners remain the same, the credentials of the firm before such modification in the share will continue to be considered for the firm as it is without any change in their value. Further, in case a partner of partnership firm retires without taking away any credentials from the firm, the credentials of partnership firm shall remain the same as it is without any change in their value.
- xviii. In case of a partnership firm 'AB' consisting of partners 'A' & 'B', if Partner 'A' also works as proprietor firm 'P' or partnership in other firm 'AX', the credentials of 'A' in proprietor firm 'P' or other partnership firm 'AX' earned after date of becoming a partner of the firm AB shall not be added in partnership firm AB.
- xix. In case a Bidder is LLP, the credentials of Bidder shall be worked out on above lines similar to a partnership firm.

Bidder not fulfilling the above requirements or submission of clarification documents with respect to above or any of mandatory document, shall be summarily rejected.

General This pre-bid/pre-contract Agreement (hereinafter called the Integrity Pact) is made on _____ day of the month of _____

_____ between on one hand, the Central Warehousing Corporation (A Govt. of India Undertaking), 4/1 Siri Institutional area, Hauz Khas, New Delhi, acting through Group General Manager (Personnel), Central Warehousing Corporation (A Govt. of India Undertaking) (hereinafter called the "CORPORATION" which expressions shall mean and include, unless the context otherwise requires, his successors in office and assigns) of the First Part and M/s _____

represented by Shri _____, (Name of the contractor) (hereinafter called **BIDDER** which expressions shall mean and include, unless the context otherwise requires, his successors and permitted assigns) of the Second Part.

WHEREAS the CORPORATION propose to appoint contractor at _____ and the BIDDER is willing to execute the items of work / Section as per schedule of work, the work order issued General conditions of the contract of CWC.

WHEREAS the BIDDER is a private company / public company / Government undertaking / partnership firm constituted in accordance with the relevant law in the matter and the corporation is a PSU performing its functions on behalf of the Ministry of Consumer Affairs, Food and Public Distribution, New Delhi, Govt. of India.

NOW, THEREFORE,

To avoid all forms of corruption by following a system that is fair, transparent and free from any influence / prejudiced dealings prior to, during and subsequent to the currency of the contract to be entered into with a view to:- Enabling the CORPORATION to obtain the desired said work at a competitive price in conformity with the defined specifications by avoiding the high cost and the distortionary impact of corruption on public procurement, and enabling BIDDER to abstain from bribing or indulging in any corrupt practice in order to secure the contract by providing assurance to them that their competitors will also abstain from bribing and other corrupt practices and the CORPORATION will commit to prevent corruption, in any form, by its officials by following transparent procedures.

The parties hereto hereby agree to enter into this integrity Pact and agree as follows:

[1] Commitment of the Corporation

[1.1] The Corporation undertakes that no official of the CORPORATION, connected directly or indirectly with the contract, will demand, take a promise for or accept, directly or through intermediaries, any bribe, consideration, gift, reward, favour or any material or immaterial benefit or any other advantage from the BIDDER, either for themselves or for any person, organization or third party related to the contract in exchange for an advantage in the bidding process, bid evaluation, contracting or implementation process related to the contract.

[1.2] The CORPORATION will, during the pre-contractor stage, treat all BIDDERS alike and will provide to all BIDDERS the same information and will not provide any such information to any particular BIDDER which could afford an advantage to that particular BIDDER in comparison to other BIDDERS.

[1.3] All the officials of the CORPORATION will report to the appropriate authority any attempted or completed breaches of the above commitments as well as any substantial suspicion of such a breach.

[2] In case any such preceding misconduct on the part of such official(s) is reported by the BIDDER to the CORPORATION with full and verifiable facts and the same is prima facie found to be correct by the CORPORATION, necessary disciplinary proceedings, or any other action as deemed fit, including criminal proceedings may be initiated by the CORPORATION and such a person shall be debarred from further dealings related to the contract process. In such a case while an enquiry is being conducted by the CORPORATION the proceedings under the contract would not be stalled.

[3] Commitments of BIDDERS

The BIDDER commits itself to take all measures necessary to prevent corrupt practices, unfair means and illegal activities during any stage of its bid or during any pre-contract or post-contract stage in order to secure the contractor in furtherance to secure it and in particular commit itself to the following:-

[3.1] The BIDDER will not offer, directly or through intermediaries, any bribe, gift, consideration, reward, favour, any material or immaterial benefit or other advantage, commission, fees, brokerage or inducement to any official of the CORPORATION, connected directly or indirectly with the bidding process, or to any person, organization or third party related to the contract in exchange for any advantage in the bidding, evaluation, contracting and implementation of the contract.

[3.2] The BIDDER further undertakes that it has not given, offered or promised to give, directly or indirectly any bribe, gift, consideration, reward, favour, any material or immaterial benefit or other advantage, commission, fees, brokerage or inducement to any official of the CORPORATION or otherwise in procuring the Contract or for bearing to do or having done any act in relation to the obtaining or execution of the contract or any other contract with the CORPORATION for showing or for bearing to show favour or disfavour to any person in relation to the contractor or any other contract with the CORPORATION.

[3.3] The BIDDER, either while presenting the bid or during pre-contract negotiations or before signing the contract, shall disclose any payments he has made, is committed to or intends to make to officials of the CORPORATION or their family members, agents, brokers or any other intermediaries in connection with the contract and the details of services agreed upon for such payments.

[3.4] The BIDDER will not collude with other parties interested in the contract to impair the transparency, fairness and progress of the bidding process, bid evaluation, contracting and implementation of the contract.

[3.5] The BIDDER will not accept any advantage in exchange for any corrupt practice, unfair means and illegal activities.

[3.6] The BIDDER shall not use improperly, for purposes of competition or personal gain, or pass on to

Volume-I(RFP)

others, any information provided by the CORPORATION as part of the business relationship, regarding plans, technical proposals and business details, including information contained in any electronic data carrier. The BIDDER also undertakes to exercise due and adequate care lest any such information is divulged.

[3.7] The BIDDER commits to refrain from giving any complaint directly or through any other manner without supporting it with full and verifiable facts.

[3.8] The BIDDER shall not instigate or cause to instigate any third person to commit any of the actions mentioned above.

[3.9] If the BIDDER or any employee of the BIDDER or any person acting on behalf of the BIDDER, either directly or indirectly, is a relative of any of the officers of the CORPORATION, or alternatively, if any relative of an officer of the CORPORATION has financial interest / stake in the BIDDER's firm, the same shall be disclosed by the BIDDER at the time of filling of tender.

The term 'relative' for this purpose would be as defined in Section 6 of the Companies Act 1956.

[3.10] The BIDDER shall not lend to or borrow any money from or enter into any monetary dealings or transactions, directly or indirectly, with any employee of the CORPORATION

[4] Previous Transgression

[4.1] The BIDDER declares that no previous transgression occurred in the last three years immediately before signing of this Integrity Pact, with any other company in any country in respect of any corrupt practices envisaged hereunder or with any Public Sector Enterprise in India or any Government Department in India that could justify BIDDER's exclusion from the tender process.

[4.2] The BIDDER agrees that if it makes incorrect statement on this subject, BIDDER can be disqualified from the tender process or the contract, if already awarded, can be terminated for such reason.

[5] Sanctions for Violations

Any breach of the aforesaid provision by the BIDDER or any one employed by it or acting on its behalf (whether with or without the knowledge of the BIDDER) shall entitle the CORPORATION to take all or any one of the following actions, wherever required: -

- i. To immediately call off the pre-contract negotiations without assigning any reason or giving any compensation to the BIDDER. However, the proceedings with the other BIDDER(s) would continue.
- ii. The Security Deposit / Performance Bond (after the contract is signed) shall stand forfeited either fully or partially, as decided by the CORPORATION and the CORPORATION shall not be required to assign any reason therefore.
- iii. To immediately cancel the contract, if already signed, without giving any compensation to the BIDDER.
- iv. To recover all sums already paid by the CORPORATION, and in case of an Indian BIDDER with interest thereon at 2% higher than the prevailing Prime Lending Rate of State Bank of India, while in case of a BIDDER from a country other than India with interest thereon at 2% higher than the LIBOR. If any outstanding payment is due to the BIDDER from the CORPORATION in connection with any other contract for any other stores / work such outstanding payment could also be utilized to recover the aforesaid sum and interest.

Volume-I(RFP)

- v. To encash the advance bank guarantee and performance bond/warranty bond, if furnished by the BIDDER, in order to recover the payments, already made by the CORPORATION, along with interest.
- vi. To cancel all or any other Contracts with the BIDDER. The BIDDER shall be liable to pay compensation for any loss or damage to the CORPORATION resulting from such cancellation / rescission and the CORPORATION shall be entitled to deduct the amounts so payable from the money(s) due to the BIDDER.
- vii. To debar the BIDDER from participating in future bidding processes of the CORPORATION for a minimum period of five years, which may be further extended at the discretion of the CORPORATION.
- viii. To recover all sums paid in violation of this Pact by BIDDER(s) to any middleman or agent or broker with a view to securing the contract.
- ix. In cases where irrevocable Letters of Credit have been received in respect of any contracts signed by the CORPORATION with the BIDDER, the same shall not be opened.
- x. Forfeiture of Performance Bond in case of a decision by the CORPORATION to forfeit the same without assigning any reason for imposing sanction for violation of this Pact.

[5.1] The CORPORATION will be entitled to take all or any of the actions mentioned at para 5.1(i) to (x) of this Pact also on the Commission by the BIDDER or any one employed by it or acting on its behalf (whether with or without the knowledge of the BIDDER), of an offence as defined in Chapter IX of the Indian Penal Code, 1860 or Prevention of Corruption Act, 1988 or any other statute enacted for prevention of corruption.

[5.2] The decision of the CORPORATION to the effect that a breach of the provisions of this Pact has been committed by the BIDDER shall be final and conclusive on the BIDDER. However, the BIDDER can approach the independent Monitor(s) appointed for the purposes of this Pact.

[6] Fall Clause

[6.1] The BIDDER undertakes that it has not supplied / is not supplying similar product / systems or subsystems at a price lower than that offered in the present bid in respect of any other Ministry / Department of the Government of India or PSU and if it is found at any stage that similar product / systems or subsystems was supplied by the BIDDER to any other Ministry / Department of the Government of India or PSU at a lower price, then that very price, with due allowance for elapsed time, will be applicable to the present case and the difference in the cost would be refunded by the BIDDER to the CORPORATION, if the contract has already been concluded.

[7] Independent Monitor

[7.1] The CORPORATION has appointed Independent Monitors (hereinafter referred to as Monitors) for this Pact in consultation with the Central Vigilance Commission, New Delhi.

[7.2] The CORPORATION has appointed Sh. Sudhanshu Sekhara Mishra, Email – ssmishra.995@gmail.com and Sh. Rajni Kant Mishra, Email rkmishraips84@gmail.com as an Independent Monitor (hereinafter referred to as Monitor) for this Pact in consultation with the Central Vigilance Commission.

[7.3] The task of the Monitor shall be to review independently and objectively, whether and to what extent the parties comply with the obligations under this Pact.

[7.4] The Monitor shall not be subject to instructions by the representatives of the parties and perform their functions neutrally and independently.

[7.5] Both the Parties accept that the monitors have the right to access all the documents relating to the project / procurement, including minutes of meetings.

[7.6] As soon as the Monitor notices, or has reason to believe, a violation of this Pact, he will so inform the Authority designated by the CORPORATION.

Volume-I(RFP)

[7.7] The BIDDER(s) accept that the Monitor has the right to access without restriction to all Project documentation of the CORPORATION including that provided by the BIDDER. The BIDDER will also grant the Monitor, upon his request and demonstration of a valid interest, unrestricted and unconditional access to his project documentation. The same is applicable to Subcontractors. The Monitor shall be under contractual obligation to treat the information and documents of the BIDDER / Subcontractor(s) with confidentiality.

[7.8] The CORPORATION will provide to the Monitor sufficient information about all meetings among the parties related to the Project provided such meetings could have an impact on the contractual relations between the parties. The parties will offer to the Monitor the option to participate in such meetings.

[7.9] The Monitor will submit a written report to the designated Authority of CORPORATION within 8 to 10 weeks from the date of reference or intimation to him by the CORPORATION / BIDDER and, should the occasion arise, submit proposals for correcting problematic situations.

[8] Facilitation of Investigation

In case of any allegation of violation of any provisions of this Pact or payment of commission, the CORPORATION or its agencies shall be entitled to examine all the documents including the Books of Accounts of the BIDDER and the BIDDER shall provide necessary information and documents in English and shall extend all possible help for the purpose of such examination.

[9] Law and Place of Jurisdiction

This Pact is subject to Indian Law. The Place of performance and jurisdiction is the seat of the CORPORATION.

[10] Other Legal Actions

The actions stipulated in this integrity Pact are without prejudice to any other legal action that may follow in accordance with the provisions of the extant law in force relating to any civil or criminal proceedings.

[11] Validity

[11.1] The validity of this Integrity Pact shall be from date of its signing and extend upto 5 years or the complete execution of the contract to the satisfaction of both the CORPORATION and the BIDDER / Seller, including warranty period, whichever is later. In case BIDDER is unsuccessful, this integrity Pact shall expire after six months from the date of the signing of the contract.

[11.2] Should one or several provisions of this Pact out to be invalid; the remainder of this Pact shall remain valid. In this case, the parties will strive to come to an agreement to their original intentions.

3 CONTRACTOR'S OBLIGATIONS – GENERAL

3.1 Contractor's Performance

- 3.1.1 The Contractor shall perform the Work with all due skill, diligence and care and in a safe, competent and workmanlike manner in accordance with good and prudent industry practice and in accordance with the provisions of the Contract.
- 3.1.2 Except to the extent that it may be legally or physically impossible or create a hazard to safety, the Contractor shall comply with the Corporation's Representative(s) instructions and directions on all matters relating to the Work.
- 3.1.3 The Contractor shall provide all management, supervision, personnel, materials, equipment and supplies, plant, consumables, facilities and all other things, so far as the necessity for providing the same is specified or is reasonably to be inferred from the Contract.
- 3.1.4 Where the Contractor has to work along with other agencies in and around the area allotted for his Works, it shall execute all the Works in complete coordination and cooperation with all such agencies, so that at no time either its work or the works of other agencies is stopped or delayed. In case of any dispute in this regard, decision of Regional Manager of the Corporation will be final and binding on the Contractor. No claim for idle labor, plant and machinery, under any circumstances will be entertained by the Corporation.
- 3.1.5 During execution of the work, the Warehouse may be operational. Contractor has to execute all works in complete coordination and cooperation with all activities confined to the area within the Scope of Work, so as not to affect the operation of Warehouse under any circumstances. In case of any dispute in this regard, decision of Corporation or their representative (officer in charge) will be final and binding on the Contractor. Contractor shall also note that work shall progress in phased manner as per operational requirement of Corporation, if any, as may be informed by the Corporation at the time of execution of the Work.
- 3.1.6 The Contractor acknowledges that it has assessed CWC operations at site of work and shall deploy the needful resources after proper planning in such a way that each work/services, under this contract, is completed within stipulated time scheduled despite running transactions/operations of CWC

3.1.7 Contractor shall provide temporary site office with requisite furniture & appliances and godown for storing/stacking construction materials at their own cost. Space, without charging any rent, to construct temporary godown and to provide temporary site office shall be provided by Warehouse Manager of the Corporation based on availability of space in CWC complex. The area to be provided shall be decided by Warehouse Manager based on availability. The Contractor undertakes that no construction material, supplied goods or any other items/materials is/are placed in the CWC complex in haphazard manner or stored at any place other than its designated place. Warehouse Manager may, in all such cases, have the power to remove such material(s) from the CWC Complex or may relocate the same to designated place at risk and cost of Contractor. Decision of Warehouse Manager in such cases shall be final and binding on Contractor and shall be an exempted matter.

3.1.8 Where the Work(s) executed by the Contractor are ultimately to be delivered to the Corporation, the risk and responsibility for the damage, loss, care and maintenance of such Work(s) shall remain with the Contractor until the date of issue of the Completion Certificate in respect of the whole of the Facilities.

3.1.9 The Contractor acknowledges that it has already inspected the site and satisfied itself about the actual site conditions and has collected any other information which may be required by the Contractor. The Contractor shall not be entitled for any claim(s) whatsoever, in case of variance of Site conditions prior to or after execution of this Contract.

3.2 Sampling, Inspection and Testing

3.2.1 The Contractor shall, at his own expense and without delay, supply to the Corporation samples of materials to be used on the work and shall get these approved in advance. All such materials to be provided by the Contractor shall be in conformity with the specifications, if any, laid down or referred to in the Contract. The Contractor shall, if requested by the Corporation, furnish proof, to the satisfaction of the Corporation that the materials so comply.

3.2.2 The Corporation through its representative shall, within 7 days of supply of samples or within such further period as he may require, intimate to the Contractor in writing whether samples are approved by him or not. If samples are not approved, the Contractor shall forthwith arrange to supply to the Corporation for his approval, fresh samples complying with the specifications laid down in the Contract. When materials are required to be tested in accordance with specifications, approval of the Corporation shall be issued after the test results are received.

3.2.3 The Contractor shall at his risk & cost submit the samples of materials to be tested or analyzed and shall not make use of or incorporate in the work any materials represented by the samples until the required tests or analysis have been made and materials finally accepted by the Corporation. The Contractor shall not be eligible for any claim or compensation either arising out of any delay in the work or due to any corrective measures required to be taken on account of and as a result of testing of materials.

3.2.4 The Contractor shall, at his risk & cost, make all arrangements and shall provide all facilities as the Corporation may require for collecting, and preparing the required number of samples for such tests at such time and to such place or places as may be directed by the Corporation and bear all charges and cost of testing unless specifically provided for otherwise elsewhere in the contract or specifications. The Corporation shall, at all times, have access to the works and to all workshops and places where work is being prepared or from where materials, manufactured articles or machinery are being obtained for the works and the Contractor shall afford every facility and every assistance in obtaining the right to such access.

3.2.5 The Corporation shall have full powers to require the removal from the premises of all materials which in his opinion are not in accordance with the specifications and in case of default, the Corporation shall be at liberty to employ at the expense of the Contractor, other persons to remove the same without being answerable or accountable for any loss or damage that may happen or arise to such materials. The Corporation shall also have full powers to require other proper materials to be substituted thereof and in case of default, the Corporation may cause the same to be supplied and all costs which may attend such removal and substitution shall be borne by the Contractor.

3.2.6 The contractor may at his own expense, provide a material testing lab. at the site for conducting routine field tests. The lab should be equipped at least with the testing equipment, as specified in Appendix 7.

3.2.7 Any inspection by the Corporation, test or examination, or any failure by the Corporation to carry out any inspection, test or examination, shall not relieve the Contractor of any of its obligations under the Contract.

3.3 Quality Assurance and Quality Control

3.3.1 Promptly after the Effective Date, the Contractor shall provide quality assurance and quality control systems and quality plans for approval by the Corporation. Such systems and plans shall be in accordance with good industry practice and field quality plans given in Schedule-II (Appendix-IV- technical specification).

3.3.2 The Contractor shall ensure, and shall procure that its sub-contractors ensure, that the Work is carried out in accordance with the quality assurance and quality control systems and quality plans approved in writing by the Corporation and any other quality assurance and quality control systems and quality plans provided to the Contractor by the Corporation.

3.3.3 All works under or in course of execution or executed in pursuance of the contract, shall at all times be open and accessible to the inspection and supervision of the Corporation and/or his authorized officers-in-charge of the work and all the superior officers, officer of the Quality Assurance Unit of the Department or any organization engaged by the Department for Quality Assurance and of the Chief Technical Examiner's Office and the contractor shall, at all times, during the usual working hours and at all other times at which reasonable notice of the visit of such officers has been given to the contractor, either himself be present to receive orders and instructions or have a responsible agent, duly accredited in writing, present for that purpose. Orders given to the Contractor's agent shall be considered to have the same force as if they had been given to the contractor himself.

3.3.4 If it shall appear to the Corporation or his authorized subordinates, Chief Engineer and/or Other Engineers in his Office of Quality Assurance or his subordinate officers or the officers of the organization engaged by the Department for Quality Assurance or to the Chief Technical Examiner or his subordinate officers, that any work has been executed with unsound, imperfect or unskillful workmanship or with materials or articles provided by him for the execution of the work which are unsound or of a quality inferior to that contracted or otherwise not in accordance with the contract, the Contractor shall, on demand in writing which shall be made within six months (three months in the case of work costing Rs. 10 Lac and below except roadwork) of the completion of the work from the Corporation specifying the work, materials or articles complained of notwithstanding that the same may have been passed, certified and paid for with rectify, or remove and reconstruct the work so specified in whole or in part, as the case may require or as the case may be, remove the materials or articles so specified and provide other proper and suitable materials or articles at his own charge and cost. In the event of the failing to do so within a period specified by the Corporation in his demand aforesaid, then the contractor shall be liable to pay compensation at the same rate as under Clause 10 of the contract (for non-completion of the work in time) for this default.

In such case, the Corporation may not accept the item of work at the rates applicable under the contract, but may accept such items at reduced rates as the authority specified in Appendix 7 may consider reasonable during the preparation of on account bills or final bill, if the item is so acceptable without detriment to the safety and utility of the item and the structure or he may reject the work outright without any payment and/or get it and other connected and incidental items rectified, or removed and re-executed at the risk & cost of the contractor. Decision of the Corporation to be conveyed in writing in respect of all of the above shall be final and binding on the Contractor and shall be excepted matter(s).

18 TAXATION

18.1 Definitions

For the purposes of this Clause 18 (Taxation):

- (a) "Tax" or "Taxes" means taxes, levies, duties, fees, charges and contributions as amended from time to time and any interest or penalties thereon;
- (b) "Government Authority" or "Government Authorities" means any local or national government or authority of any country, competent to levy any Tax.

18.2 Person Responsible for payment of taxes

18.2.1 General:

Except as may be expressly set out in this Contract, the Contractor shall be responsible for:

- (a) the payment of all Taxes now or hereafter levied or imposed on the Contractor or its subcontractors or on the personnel of the Contractor or its subcontractors by any Government Authority in respect of any wages, salaries and other remuneration paid directly or indirectly to persons engaged or employed by the Contractor or its subcontractors (hereinafter referred to as "Personal Income tax");
- (b) the payment of all Taxes now or hereafter levied or imposed by any Government Authority on the actual/assumed profits and gains made by the Contractor or its subcontractors (hereinafter referred to as "Corporate Income tax");
- (c) the payment of all Taxes now or hereafter levied or imposed by any Government Authority on the Goods and services, if any, provided to the Corporation by the Contractor or its subcontractors (hereinafter referred to as "GST"); and
- (d) the payment of any other Taxes now or hereafter levied or imposed by any Government Authority on the Contractor or its subcontractors as a result of the performance of this Contract.

18.3 Withholding taxes and Withholding certificates

18.3.1 The Corporation shall, at the time of its payments due to the Contractor, withhold the necessary taxes at such rate as is required by any Government Authority, unless and to the extent that the Contractor shall produce to the Corporation any certificate issued by a Government Authority (having authority to issue such certificate) entitling the Contractor to receive the payments under the Contract for a prescribed period without deduction of any tax or deduction at a low rate.

18.3.2 The Corporation shall provide the necessary withholding tax certificates to the Contractor within the time stipulated by the relevant law to enable the Contractor to file the same with the Government Authority as a proof of payment of such taxes.

18.4 Person Responsible for filing of returns/information to Government Authorities

18.4.1 The Contractor shall be responsible for filing all necessary Tax returns (including, without limitation, returns for Corporate Income tax, Personal Income tax, GST as applicable) with the relevant Government Authorities in accordance with all applicable statutory requirements and shall be responsible for providing all information requested by such Government Authorities.

18.4.2 The Contractor shall also ensure that its subcontractors file such returns as stipulated by the relevant Government Authorities and furnish such information as requested for by the relevant Government Authorities.

18.4.3 The Corporation, with respect to the tax withheld from the Contractor in accordance with Clause 18.3 (Withholding Tax and Withholding Tax Certificates), shall be responsible for filing the withholding tax returns with the relevant Government Authorities in accordance with applicable statutory requirements.

18.5 Corporation's rights, if treated as representative assessee by Government Authorities

In certain situations, a Government Authority may treat the Corporation as the representative assessee of the Contractor and/or its subcontractors and recover the Taxes due to the Government Authority by the Contractor or its subcontractors from the Corporation. In such situations, the Corporation shall have the following rights:

- (a) The Corporation shall be entitled to recover from the Contractor, the Taxes paid on behalf of the Contractor or its subcontractors (together with any costs and expenses incurred by the Corporation in connection therewith) or to retain the same out of any amounts to be paid to the Contractor or its subcontractor that may be in its possession (whether due under this Contract or otherwise) and shall pay only the balance, if any, to the Contractor; and
- (b) If the Corporation is required to furnish any details or documents in such capacity, the Corporation shall request the details or documents to be furnished to it by the Contractor and the Contractor shall immediately furnish the same to the Corporation. If the Contractor fails to comply with the foregoing, any penalty/interest levied on the Corporation for non-filing or late filing of details or documents in this regard shall be recoverable from the Contractor.

18.6 Indemnity

The Contractor shall defend, indemnify and hold the Corporation Group harmless from and against any Claim in connection with any Taxes which may be levied or imposed on the Contractor or its subcontractors by any Government Authority arising out of or in connection with the performance of this Contract.

18.7 Change in Law

All tendered rates shall be inclusive of any tax, levy or cess applicable on last stipulated date of receipt of tender including extension, if any. No adjustment, i.e. increase or decrease shall be made for any variation in the rate of any tax, levy or cess applicable on input goods or services.

If, post due date of tender submission, there is any change in law which results in a change in the rate of any Tax or the introduction of a new Tax applicable on Contractor's prices or rates on output services then the Parties shall agree to a revision in pricing to reflect such change provided that:

- (a) the Party requesting such revisions shall promptly (and in any case prior to submission of the Contractor's final invoice under this Contract) notify the other Party that such change in law has arisen; and
- (b) the Party requesting such revision shall provide the other Party with documentary proof of such change in cost to the reasonable satisfaction of the other Party; and
- (c) the provisions of this Clause 18.7 (Change in Law) shall not apply to changes in Personal Income tax or Corporate Income tax or to changes in non-Indian Taxes.

Provided further that such increase including GST shall not be made in the extended period of contract for which the contractor alone is responsible for delay.

The Contractor shall keep necessary books of accounts and other documents for the purpose of these conditions, as may be necessary and shall allow inspection of the same by a duly authorized representative of the Corporation and shall also furnish such other information/document as the Corporation may require from time to time.

18.8 Contractor to Indemnify Corporation

The Contractor shall be liable for and shall defend, indemnify and hold the Corporation Group harmless from and against any Claim in connection with any item imported by the Contractor to which the Notifications do not apply and which is not imported at the request of the Corporation for the performance of this Contract.

18.9 Use of Equipment

The equipment, spares and consumables imported for petroleum operations under this Contract shall not be used or deployed by the Contractor for any purpose other than the performance of the Work. In the event that the equipment, spares or consumables are used or deployed for any purpose other than the performance of the Work, the Contractor shall be liable for all additional duty, fines or penalties imposed or other action taken by the customs department or any relevant authority.

19 INDEMNITIES

19.1 General

19.1.1 The indemnities granted in this Clause shall be full and primary notwithstanding the provisions of Clause 21 (Insurance).

19.1.2 Each Party shall give the other prompt notification of any claim with respect to any of the indemnities hereunder, accompanied by full details of the circumstances of any incident giving rise to such a claim.

19.2 Property and Injury to Personnel

19.2.1 The Contractor shall be liable for, and shall defend, indemnify and hold the Corporation Group harmless from and against any Claim in connection with:

- (a) loss of or damage to the property of the Contractor Group (including, but not limited to, the Contractor's Equipment); and
- (b) loss of or damage to the property of the Corporation Group (including the Free Issue Material); and
- (c) death or sickness of or injury to any member of the Contractor Group (including, but not limited to, the Contractor's Personnel)

arising out of or in connection with the performance of this Contract, whether or not resulting from or contributed to by any negligence and/or breach of duty (statutory or otherwise) of the Corporation Group.

19.3 Third Party Liability

19.3.1 The Contractor shall be liable for, and shall defend, indemnify and hold the Corporation Group harmless from and against any claim in connection with:

- (a) loss of or damage to any Third-Party property; and
- (b) death or sickness or injury to any Third Party

arising out of or in connection with the performance of this Contract, to the extent caused by any negligence and/or breach of duty (statutory or otherwise) of the Contractor Group. For the purposes of this Clause 19 (Indemnities), the words "Third Party" shall mean any party which is not a member of the Corporation Group or the Contractor Group.

19.4 Pollution and Contamination

19.4.2 The Contractor shall be liable for, and shall defend, indemnify and hold the Corporation Group harmless from and against any claim resulting from pollution and/or contamination which originates:

- (a) from the property of the Contractor Group (including, but not limited to, the Contractor's Equipment); and/or
- (b) from spill of fuels, lubricants, motor oils, pipe, dope, paints, solvents and rubbish or other effluent in the area, custody or control of the Contractor Group

arising out of or and in connection with the performance of this Contract, whether or not resulting from or contributed to by any negligence and/or breach of duty (statutory or otherwise) of the Corporation Group.

19.5 Responsibility for the Facilities

Without prejudice to the Contractor's other obligations under the Contract and at law, the Contractor shall be responsible for the Facilities from the Effective Date until the date of issue of the Completion Certificate in respect of the whole of the Facilities. In the event of any loss or damage to the Facilities during such period, the Contractor shall, if instructed by the Corporation, reconstruct, repair or replace the same at its own expense and in accordance with the provisions of this Contract.

20 CONSEQUENTIAL LOSS

Notwithstanding any provision to the contrary elsewhere in this Contract and whether or not resulting from or contributed to by any negligence and/or breach of duty (statutory or otherwise), the Contractor shall be liable for, and shall defend, indemnify and hold the Corporation Group harmless from and against the Contractor Group's own consequential or indirect loss arising out of or in connection with the performance of this Contract.

21 INSURANCES

21.1 Contractor Insurances

The Contractor shall procure and maintain, at its sole expense, in full force and effect throughout the duration of this Contract, the insurances set out below:-

- (a) Employers Liability and/or Workman's Compensation insurance to the full extent required by all laws applicable in the country (a) where this Contract is being performed and (b) in which the Contractor is incorporated;
- (b) Construction All Risks insurance covering loss of or damage to the Facilities to the full replacement value thereof (as applicable in case of new construction/ upgradation works mentioned in Work Order);

- (c) Any other insurances which the Contractor is obliged to cover under any applicable laws or which shall be adequate in terms of type, coverage and limits to cover the Contractor's liabilities under this Contract.

21.2 No Limitation

The insurances set out in Clause 21.1 (Contractor Insurances) are minimum requirements and shall not be construed in any way as limits of liability or as constituting acceptance by the Corporation of responsibility for financial liabilities in excess of such limits. The liabilities assumed by the Contractor under Clause 19 (Indemnities) are separate from and independent of the Contractor's obligations under this Clause 21 (Insurance).

21.3 General Requirements

The Contractor undertakes that its insurances and those of its subcontractors:

- (a) shall be issued by reputable and substantial insurers (with a Standard & Poors rating of BBB+ and above);
- (b) shall be primary and shall not be considered contributory insurance with any insurance provisions of the Corporation Group;
- (c) shall have the Corporation Group's interests endorsed as additional assured (other than in relation to Employers Liability/Workers Compensation insurance) to the extent of the liability assumed by the Contractor hereunder;
- (d) shall contain waivers of any rights of recourse including, in particular, subrogation rights against the Corporation Group arising out of or in connection with the performance of this Contract to the extent of liabilities assumed by the Contractor hereunder;
- (e) shall be endorsed to provide the Corporation with at least thirty (30) days written notice of a material change, cancellation or non-renewal by the underwriters.

21.4 Certificates of Insurance

Prior to commencing the Work, the Contractor shall furnish the Corporation with certificates of insurance evidencing the above insurances and, thereafter, renewal certificates as soon as they become available.

21.5 Subcontractors

The Contractor shall procure that its subcontractors are insured to appropriate levels as may be relevant to their work. The Contractor shall be liable to the Corporation Group for any absence or insufficiency of the insurances of its subcontractors.

21.6 Co-operation

Each Party shall afford the other all such reasonable assistance as may be required for the preparation and negotiations of insurance claims but the Contractor shall be responsible for the preparation of documents for insurance claims under any of the policies referred to in the claim. Where the Contractor is engaged in handling claims, actions or proceedings in respect of which it has granted an indemnity as provided above, the Contractor shall ensure that the Corporation is informed if the Corporation's operations, safety standards or working practices are called into question by any party or if the Contractor wishes to use information relating thereto in handling those claims, actions or proceedings. The Corporation shall at its sole option have the right to participate in and/or make representations in relation to the defence of such matters and the Contractor shall allow the Corporation full opportunity to do so.

22 FORCEMAJEURE

22.1 General

No failure or omission by either Party to carry out or to perform any of the terms or conditions of this Contract shall give the other Party a claim against such Party, or be deemed a breach of this Contract, if and to the extent that such failure or omission arises from Force Majeure.

The Party prevented from performing due to Force Majeure shall promptly, and in any case within 48 hours, notify the other Party of the nature and anticipated duration thereof and shall use all reasonable endeavours to resume performance of this Contract as soon as reasonably possible. The Party prevented from performing due to any such cause shall, in addition, furnish the other Party with such information in respect of such cause as the other Party may reasonably require.

22.2 Definition

The term "Force Majeure", as used in this Contract, shall mean:

- (a) riot, war, invasion, act of foreign enemies, hostilities (whether war be declared or not), acts of terrorism, civil war, rebellion, revolution, military invasion, insurrection of military or usurped power; or
- (b) ionizing radiations or contamination by radio-activity from any nuclear waste, or radioactive, toxic, explosive or other hazardous properties of any explosive, nuclear assembly or nuclear component thereof (other than arising out of any radiation source used by the Contractor in relation to the Work); or
- (c) earthquake, flood, or any other natural disaster, but excluding weather or sea conditions as such, regardless of severity; or
- (d) strikes at national or state level or industrial disputes at a national level, or strikes or industrial disputes by labour not employed by the affected Party or its sub-contractors and which affects a substantial or essential portion of the Work; or
- (e) fire or explosion (being fire or explosion not caused by the negligence of the affected Party or its sub-contractors); or
- (f) acts of Government which could not have been reasonably anticipated or controlled which makes performance impossible or impracticable.

22.3 Payment during Force Majeure

The Contractor shall not be entitled to any payment in respect of any period where the Work is not carried out as a result of Force Majeure. Except grant of time extension, in no event whatsoever, the Contractor shall be entitled for any other cost(s) including, prolongation costs, expenses, or site establishment charges or the like.

22.4 Termination for Force Majeure

Should any circumstance of Force Majeure continue for a period equal to or more than three consecutive months then the Corporation, at its sole discretion, may terminate this Contract with immediate effect by notice in writing to the Contractor, in which case the Corporation's sole liability in respect of such termination shall be to pay to the Contractor all sums properly due to the Contractor under the Contract in respect of the Work up to the date of termination.

23 LIQUIDATION OR INSOLVENCY

23.1 Corporation's Right to Terminate

In the event that the Contractor, at any time during the term of this Contract, becomes insolvent under any of the provisions of any applicable statute or makes a voluntary assignment of its assets for the benefit of creditors, is adjudged bankrupt, either upon the Contractor's voluntary petition in bankruptcy or upon the petition of the Contractor's creditors, or any of them, or should a judgement be executed on any of the goods or equipment of the Contractor, or should any lien or other right inconsistent with the Contractor's title to such goods or equipment be enforced, or if the Contractor shall have a receiver, administrator, administrative receiver and/or manager appointed in respect of all or any of its assets, an application or order is made or a resolution is passed to wind up the Contractor or if the Contractor shall go into liquidation (whether voluntarily or otherwise) or if the Contractor becomes subject, under the applicable laws of any jurisdiction, to any event having an analogous effect to any of the foregoing, the Corporation may terminate this Contract with immediate effect by notice in writing to the Contractor or to the receiver or liquidator or to any person in whom the Contract may become vested, as provided in Clause 24.3 (Termination due to Default).

24 TERMINATION

24.1 Termination by Corporation without Cause

The Corporation may, at its option, terminate all or any part of the Work or the Contract/ Work Order forthwith without cause at any time by giving written notice to the Contractor, subject to the provisions of Clause 24.2 (Reimbursement to Contractor).

24.2 Reimbursement to Contractor

In the event of termination under the provisions of Clause 24.1 (Termination by Corporation without Cause), the Corporation's sole liability in respect of such termination shall be to pay to the Contractor all sums properly due to the Contractor under the Contract in respect of the Work (or terminated part thereof) up to the date of termination;

24.3 Termination due to Default

The Corporation may, without prejudice to any other rights it may possess under the Contractor law, at its option, terminate all or any part of the Work/ Work Order or the Contract forthwith by written notice to the Contractor, where:-

- (a) the Contractor has breached any of its obligations under the Contract, provided that, where remediable, the Corporation has notified the Contractor of such breach in writing and the Contractor has, upon receipt of such notice, failed to immediately commence and thereafter continuously proceed to remedy such breach to the Corporation's reasonable satisfaction; or
- (b) the Contractor is not ready to commence the Work at the Site by the Commencement Date; or
- (c) If the contractor has, without reasonable cause, suspended the progress of the work or has failed to proceed with the work with due diligence and continues to do so after a notice in writing of seven days from the Officer in Charge;
- (d) If the contractor shall offer or give or agree to give to any person in Corporation service or to any other person on his behalf any gift or consideration of any kind as an inducement or reward for doing or forbearing to do or for having done or forborne to do any act in relation to the obtaining or execution of this or any other contract for Corporation;
- (e) If the contractor had secured the contract with Corporation as a result of wrong tendering or other non-bonafide methods of competitive tendering or commits breach of Integrity Agreement.
- (f) the Contractor has failed to complete the Work by the Completion Date stipulated in work order or extended date of completion; or
- (g) as provided in Clause 23 (Insolvency), one or more of the circumstances in that Clause apply.

- (h) Fail to submit Insurance Certificate(s), Performance Bank Guarantee(s);
- (i) Refuses or is unable to provide sufficient materials, services or labour (adequate resources) to execute and complete the Facilities in the manner specified in the Work Plan, at rates of progress that give reasonable assurance to the Corporation that the Contractor can attain completion of the Facilities/ Works by the Time for Completion;
- (j) Refuses or is unable to rectify, reconstruct or replace any defects in services delivered or work completed/in progress or that the Service/work is being performed in an inefficient or otherwise improper or un-workmanlike manner to the satisfaction of the Corporation.

If termination occurs pursuant to this Clause 24.3 (Termination due to Default), then the Corporation's sole liability to the Contractor shall be for all the sums properly due to the Contractor under the Contract in respect of the Work (or terminated part thereof) up to the date of termination. The Contractor shall have no claim towards compensation for any loss sustained by it for reasons of having purchased or procured any materials or entered into any engagements or made any advances on account or with a view to the execution of the Work or the performance of the Contract.

24.4 Saving of Rights

The termination or expiry of this Contract shall be without prejudice to the rights and obligations of the Parties up to and including the date of such termination or expiry, and shall not affect or prejudice any term of this Contract that is expressly or by implication provided to come into effect on, or continue in effect after, such termination or expiry.

24.5 Consequences of Termination

24.5.1 In the event of termination under any provision of this Contract, the Contractor shall:

- (a) promptly cease performance of the Work (or relevant part thereof) and, as directed by the Corporation, clear all unnecessary Contractor's Equipment and Contractor's Personnel from the Site;
- (b) allow the Corporation all necessary rights of access to the Site to take over the Work (or relevant part thereof); and
- (c) if, and to the extent, requested by the Corporation assign any subcontracts or other rights and titles relating to the Work (or relevant part thereof) which the Contractor may have entered into or acquired.
- (d) the Performance Bank Guarantee shall stand forfeited in full and shall be absolutely at the disposal of the Corporation.

24.5.2 The Corporation may enter upon the Site, expel the Contractor, and complete the Facilities/ Work(s) itself or by employing any third party at the risk and cost of the Contractor. The Corporation may, to the exclusion of any right of the Contractor over the same, take over and use any Contractor's Equipment owned by the Contractor and on the Site in connection with the Facilities for such reasonable period as the Corporation considers expedient for the completion of the Works.

24.5.3 Upon completion of the Facilities or at such earlier date as the Corporation thinks appropriate, the Corporation shall give notice to the Contractor that such Contractor's Equipment will be returned to the Contractor or near the Site and shall return such Contractor's Equipment to the Contractor in accordance with such notice. The Contractor shall thereafter without delay and at its cost remove or arrange removal of the same from the Site.

24.5.4 If the Corporation completes the Facilities/ Works, the cost of completing the Facilities/ Works by the Corporation shall be determined after completion of such Facilities/ Works.

- If the sum that the Contractor is entitled to be paid pursuant to Clause 24.3 above, plus the reasonable costs incurred by the Corporation in completing the Facilities/ Works, exceeds the Work Order value, the Contractor shall be liable for such excess.

- If such excess is greater than the sums due to the Contractor under Clause 24.3 hereof, the Contractor shall pay the balance to the Corporation, and if such excess is less than the sums due the Contractor under Clause 24.3, the Corporation shall pay the balance to the Contractor.
- The Corporation and Contractor shall agree, in writing, on the computation described above and the manner in which any sums shall be paid and in case of any issue/dispute arising therein, the same shall be resolved as per dispute resolution mechanism under this Contract.

24.6 Survival of Clauses upon Expiry/Termination

The provisions of the Agreement and Clauses 10 (Liquidated Damages), 11 (Patents), 14 (Warranty), 17 (Payment), 18 (Taxation), 19 (Indemnities), 20 (Consequential Loss), 24 (Termination), 27 (Confidentiality and Publicity), 31 (General Legal Provisions), and 32 (Governing Law and Jurisdiction) shall survive the expiry or termination of the Contract and shall remain in full force and effect after such date.

- 24.7** The Contractor acknowledges that the Contract/ Work Order(s) when terminated on account of Contractor's default and/or breach of Code of Business Ethics or integrity agreement, such Contractor shall be, as per the Corporation's policy, be blacklisted by the Corporation from participation in any future tenders/ contracts.

25 SUSPENSION

25.1 Suspension without Cause

- 25.1.1** The Corporation shall have the right, without cause, at any time to require the Contractor to suspend the Work (or part thereof) under this Contract on giving notice to the Contractor. Such notices shall include an estimate of the duration of the period of suspension (the "Suspension Period"). The Work (or relevant part thereof) shall resume at the end of the Suspension Period or at such other date as the Corporation may by notice in writing to the Contractor specify.

- 25.1.2** During the Suspension Period pursuant to sub-clause 25.1.1, the Corporation shall, for the period commencing after 30 days from the date of suspension under this Clause, pay the Contractor, on actuals - salaries and/or wages paid by the Contractor to his employees and labour at site, remaining idle during the period of suspension, adding thereto 2% to cover indirect expenses of the Contractor, provided the contractor submits his claim supported by details to the Corporation within 30 days from the period commencing after 30 days from the date of suspension.

- 25.1.3** If the Works or part thereof, as the case may be, is suspended on the orders of the Corporation for more than three months at a time, the Contractor may, after receipt of such order, serve a written notice on the Corporation to treat the Works or part thereof, as the case may be, as an abandonment of the works by Corporation.

In the event of the Contractor treating the suspension as an abandonment of the Work Order or part thereof, as the case may be, except as provided in sub-clause 25.1.2 above, it shall not have any claim to payment of any compensation on account of any profit or advantage which he might have derived from the execution of the work in full, but which he could not derive in consequence of the abandonment.

25.2 Suspension Due to Default of Contractor

- 25.2.1** If the Contractor is in breach of any of its obligations under this Contract (including, without limitation, any breach of Clause 8 (Health Safety and Environment)), the Corporation shall, subject to Clause 25.2.2, be entitled to immediately suspend the Work (or part thereof) by written notice to the Contractor until such time as such breach has been remedied by the Contractor, in which case no rates or other amounts shall be payable to the Contractor in respect of such period of suspension.

- 25.2.2** Except in the case of a breach which in the reasonable opinion of the Corporation is likely to endanger the safety of any persons or property, the Corporation shall, prior to issuing any suspension notice pursuant to Clause 25.2.1, notify the Contractor of the breach. Following receipt of such notice, if the

Contractor fails to immediately commence and thereafter continuously proceed to remedy such breach to the Corporation's reasonable satisfaction, the Corporation may issue the suspension notice pursuant to Clause 25.2.1

25.3 Procedure following Suspension Notice

Following receipt of a notice to suspend the Work, the Contractor shall discontinue the Work (or relevant part thereof) and follow any specific requirements of the Corporation with regard to the safety of the Work during any suspension period.

26 PERMITS, LAWS AND REGULATIONS

26.1 Permits and Authorisations

The Contractor shall at all times ensure compliance with all such certificates, licenses, permits, approvals and authorizations referred to in this Clause 26 (Permits, Laws and Regulations). For the avoidance of doubt, the provisions of this Clause 26 (Permits, Laws and Regulations) pertain not only to the present legal and Government requirements, but also to the legal and Government requirements for the entire period of the Contract (including any extension thereof).

26.2 Laws

In performing the Work, the Contractor shall observe and comply with all applicable laws including, without limitation, health and safety, labour (including ESI, EPF, CPWD's Contractor's Labour Regulations), immigration and marine laws, whether of Government/statutory or other authority or agency having jurisdiction in relation to the Parties, the Work or the Site. The Contractor shall defend, indemnify and hold the Corporation Group harmless from and against any Claim in connection with the Contractor's failure to comply with such laws, arising out of or in connection with the performance of this Contract.

27 CONFIDENTIALITY AND PUBLICITY

27.1 Confidentiality

All information concerning the Corporation's activities obtained by the Contractor in the course of performance of the Work hereunder and all information or data otherwise furnished to the Contractor by the Corporation shall be considered confidential and shall not be disclosed by the Contractor to any third party without the prior written consent of the Corporation or used by the Contractor for any purpose other than carrying out the Work.

27.2 Publication

The Contractor shall not publish or permit to be published any pictorial, written, oral or other information relating to the Contract, the Work, the performance thereof or the activities of the Corporation without the Corporation's prior written consent. Such consent shall be given (if at all) separately in relation to each specific application therefor and shall apply only to that application. The accuracy of any information released by the Contractor and not supplied directly by the Corporation is the absolute responsibility of the Contractor.

27.3 Contractor's Proprietary Information

The Corporation undertakes to keep confidential all techniques, know-how, methods and processes which are the property of or are proprietary to the Contractor. The Corporation shall also treat as

confidential and shall not, without the Contractor's prior written consent, disclose to any third party any other information which is clearly marked as confidential by the Contractor.

27.4 Exclusions

The provisions of Clauses 27.1 (Confidentiality) and 27.3 (Contractor's Proprietary Information) shall not apply to information which:

- (a) is part of the public domain; or
- (b) was in the possession of the relevant Party prior to the Effective Date and which was not subject to any obligation of confidentiality owed to the other Party; or
- (c) was received from a third party whose possession is lawful and who is under no obligation not to disclose; or
- (d) is required to be disclosed in order to comply with the requirements of any law, rule or regulation of any governmental or regulatory body having jurisdiction over the Work or the relevant Party, or of any relevant stock exchange.

28 ASSIGNMENT AND SUBCONTRACTING

28.1 Assignment

- 28.1.1 The Contractor shall not assign either the Contract or any part of it or any benefit or interest in or under it without the prior written approval of the Corporation.
- 28.1.2 The Corporation shall be entitled to assign the Contract or any part of it or any benefit or interest in or under it to any Co-venturer or Affiliate of the Corporation or to any other party taking over the operatorship in respect of petroleum operations pursuant to the Joint Operating Agreement. Any assignment by the Corporation to any other party shall require the prior written approval of the Contractor, such approval not to be unreasonably withheld or delayed.
- 28.1.3 In the event of an assignment by a Party pursuant to Clause 28.1.1 or 28.1.2 and if requested by that Party, the other Party undertakes to enter into such documentation as is reasonably necessary to transfer the first Party's obligations under the Contract.

28.2 Subcontracting

- 28.2.1 The Contractor shall not subcontract the Work or any part of the Work without the prior written approval of the Corporation.
- 28.2.2 The Contractor shall not be relieved from any of its obligations or liabilities under the Contract by virtue of any subcontract and the Contractor shall be responsible for all work, acts, defaults and omissions of its subcontractors and its or their employees or consultants as though they were the work, acts, defaults and omissions of the Contractor.
- 28.2.3 No subcontract shall bind or purport to bind the Corporation, and each subcontract shall provide for its immediate termination in the event of termination of this Contract, and for immediate suspension of the services under the subcontract in the event of suspension of the Work under this Contract.
- 28.2.4 All subcontractors shall be responsible only to the Contractor. Notwithstanding the foregoing, the Corporation shall have the same rights in respect of the inspection of any services carried out by any subcontractor as are provided for in this Contract in respect of the Work.

29 VARIATIONS

29.1 Variations Extent and Pricing.

The Corporation shall have power:

- (i) to make alteration in, omissions from, additions to, or substitutions for the original specifications, drawings, designs and instructions that may appear to him to be necessary or advisable during the progress of the work, and
- (ii) to make new item of work, if it is not scheduled in the Price/Compensation Schedule, and to decide the rates of such item as per procedure mentioned in following clauses.

29.2 Deviated Quantities and Pricing:

- i. The Corporation shall have power to omit a part of the works in case of non-availability of a portion of the site or for any other reasons and the Contractor shall be bound to carry out the Works in accordance with any instructions given to him in writing signed by the Corporation and such alterations, omissions, additions or substitutions shall form part of the Contract as if originally provided therein and any altered, additional or substituted work which the Contractor may be directed to do in the manners specified above as part of the Works, shall be carried out by the Contractor on the same conditions in all respects including price on which he agreed to do the main work except as hereafter provided.
- ii. The Corporation shall be entitled by order in writing to enlarge or extend, diminish or reduce the works or make any alterations in their design, character, position, site, quantities, dimensions or in the method of their execution or in the combination and use of materials for the execution thereof to order any additional work to be done or any works not to be done and the Contractor will not be entitled, to any compensation for any increase/reduction in the quantities of work but will be paid only for the actual amount of work done and for approved materials supplied against a specific order.
- iii. When work order is placed by the Corporation based on assessment of work and estimation of quantities at their own, the quantities mentioned in the work order shall be liable for variation and may vary to any extent such that total value of works shall not be increased by 5% of the originally ordered value.
- iv. When work order is placed by the Corporation based on estimation of quantities by Contractor or his Engineer and if it is found that
 - a) actual executed quantity of an individual item of work is more than 10% of estimated quantity (given by Contractor's Engineer), the payments shall be restricted to 110% of estimated quantity of that item of work mentioned in the work order. However, Gross payment including all other items of works, completed against such work order, in such cases shall be restricted to 105% of originally ordered value.
 - b) actual quantity of an individual item of work executed is less than 10% of the estimated quantity (given by Contractor's Engineer) then payment shall be restricted to actual quantity of that item of work executed at place and in such cases if it is found that gross value of works incorporating actual executed quantities of all items stipulated in work order, become less than 10% of Estimated value of work as mentioned in work order, punitive recovery equivalent to 5% off net saving in total amount due to difference in the quantity of the item estimated / mentioned in work order and actual executed, shall be done from the contractor's bills.
- v. In any case, if it becomes necessary to execute additional quantities (beyond the quantities mentioned in work order) due to the magnitude or nature of work for satisfactory completion of maintenance/services, Contractor shall inform the Corporation before executing such additional quantities. In these cases, Corporation will release supplementary work order incorporating additional quantities required to be executed. Approval of Corporation shall be obtained for all such supplementary work order incorporated with additional quantities.
- vi. Contractor shall carry out all works & Services as directed by Corporation during the Contract Period. Total quantum of works/services, to be executed under this Contract and against various work orders shall be such that the gross value of all works/services completed under the contract do not vary by +125% of original Contract Value mentioned in LOA.
- vii. When, it is found that works to be executed require additional amount (beyond 125% of original

contract value), A fresh tender shall be called by Corporation and all such balance works shall be executed under separate contract to be finalized by fresh tender.

29.3 Deviation, Extra Items, New Items and Pricing

- (i) In case of extra item(s) (items that are completely new and are in addition to the items contained in the Price/Compensation Schedule/ Contract/ Work Order placed), the Contractor may within fifteen days of receipt of order or occurrence of the item(s) submit market rate, claim rates, supported by proper analysis which shall include invoices, vouchers etc. and manufacturer's specifications for the work, failing which the rate approved later by the Corporation shall be binding and the Corporation shall within a reasonable time from receipt of the claims supported by analysis, after giving consideration to the analysis of the rates submitted by the Contractor, determine the rates on the basis as described in (ii) below and the contractor shall be paid in accordance with the rates so determined.

- (ii) Any item of work, which is not included in the accepted schedule of Rates (mentioned in Price/Compensation Schedule/ Contract/ Work Order placed) shall be executed at the rates set forth in the accepted schedule i.e. DSR Civil / DSR E&M (latest DSR published by CPWD on its website on the date of inviting of tender) modified by Contractor Percentage (CP) quoted by Contractor in his Financial bid over the respective Schedule of rates given in tender / price sub schedule but for such items not contained in the DSR, as per following procedure:

If the substituted / altered/additional work, required to be executed as per CWC's requirements, for which there are no established rates in DSR; the same shall be payable as per provisions stated hereunder-

- A. As far as possible the rates for such items shall be derived from analysis of rates of nearer or similar items mentioned in respective Delhi schedule of rates (Civil 2021 and E&M 2022) for Civil and E&M works respectively as given above, modified by Contractor Percentage (CP) quoted by Contractor in his Financial bid over the respective Schedule of rates given in tender / price sub schedule for Civil and E&M works respectively (ie A. I or A. II as the case may be).
- B. If direct working of rates from DSR, by method described above, is not possible or when item is not given in DSR (civil 2021 or E&M 2022) or in case of any item of General Maintenance works/ Services not mentioned in Tender Sub schedule, the contractor shall be paid on the basis as under:
- (a) Material, labor either or both: Reasonable cost of materials plus reasonable cost of labor inclusive of tools, plants, machinery, and GST & Labor Cess as applicable and plus 15% of so derived cost to cover contractor profit, supervision, overheads, establishments, etc.
- (b) The rates so worked out shall be modified by Contractor Percentage (CP) quoted by Contractor in his Financial bid over the respective Schedule of rates in tender / price Sub Schedule for Civil / E&M / General Maintenance Works & Services as per nature of works (as the case may be).

The Corporation's decision regarding reasonable labor cost and material consumption/ cost shall be final and binding on Contractor. For avoiding confusion, Reasonable rates, for the purpose of sub clause above, shall be decided by Engineer based on lowest of (x) and (y) below:

(X) = market rate of material, manpower, T&P (as enquired & received by Engineer in charge from not less than 3 suppliers) and

(Y) = purchase price (mentioned in Invoices) of the items purchased by contractor

Variation in quantities & Vitiations:

As there are more than one sub schedule in Contract, there is possibility of vitiations of contract due to quantity variation. Therefore, in case of variation in quantities or original contracted amount for any sub schedule, the vitiations statement will be prepared at the time of approval of deviation statement / Payment and the vitiations amount i.e. (the difference in amount to keep L1 remains L1 after variation in quantity) will be recovered from contractor bill and no compensation on ground of quantity variation or recovery of such amount shall be payable.

29.4 Additional Time due to deviations in quantities/extra works:

The time for completion of the works shall, in the event of any deviations resulting in additional cost over the tendered value sum being ordered, be extended, if requested by the contractor, as follows:

- (a) In the proportion which the additional cost of the altered, additional or substituted work, bears to the original tendered value plus.
- (b) 25% of the time calculated in (i) above or such further additional time, as may be considered reasonable by the Corporation.

- 30.1** The Contractor shall at all times perform this Contract in a lawful manner consistent with the highest ethical standards and principles, including strict adherence to Corporation's Code of Business Ethics. The Contractor shall not at any time enter into any arrangement with personnel, officers or agents of the Corporation without the Corporation's prior written approval.
- 30.2** In conducting its business, Contractor shall not, at any time, either directly or indirectly, in the name of, on behalf of, or for the benefit of the Corporation, its Affiliates, offer, pay, promise to pay, or authorize the payment of any money and/or gift, or offer, give, promise to give, or authorize the giving of anything of pecuniary value or otherwise to (a) any official, employee, agent, or representative of any government, or any government department, agency, or instrumentality thereof; (b) any political party or official thereof, or to any candidate, nominated or otherwise, for political office; or (c) any official, employee or agent of the Corporation, its Affiliates; in each case for the purpose of influencing any act or decision of such official, employee, agent, party, or candidate or inducing such official, employee, agent, party, or candidate to do or omit to do any act in violation of the lawful duty of such official, employee, agent, party, or candidate, or securing any improper advantage for or otherwise promoting the business interests of the Contractor in any way. Contractor shall require each of its directors, officers, employees, agents, consultants, subcontractors and supplier to comply with the provisions of this clause.
- 30.3** In the event corporation believes that the Contractor is engaged in corrupt practices or is acting in contravention of the aforesaid provisions defined in this clause, during the existence of this Contract, Corporation shall have the right to take appropriate action, which may include the immediate termination of this Contract.

31 GENERAL LEGAL PROVISIONS

31.1 Amendment

This Contract shall not be amended except by an instrument in writing expressed to be an amendment or variation hereto and executed by the Parties.

31.2 Waiver

No delay or failure on the part of either Party to enforce from time to time all or any part of the terms and conditions of this Contract shall be interpreted as a waiver of such terms and conditions.

31.3 Retention of Rights

Except in respect of the indemnities granted pursuant to Clause 19 (Indemnities), unless otherwise specifically stated, both the Corporation and the Contractor shall retain all rights and remedies, both under the Contract and at law, which either may have against the other.

The Contractor shall not be relieved from any liability or obligation under the Contract by any review, approval, authorization, acknowledgement, issue of completion certificate or the like, by the Corporation.

31.4 Language

The language of the Contract shall be English and all meetings and other communications shall be in English.

31.5 Notices

31.5.1 All notices under this Contract shall be in writing and shall be served to the respective address and/or fax number set out in the Agreement. Either Party may from time to time change its address and/or fax number for service herein by giving written notice to the other Party.

31.5.2 Any notice may be served by hand delivery to a Party at its address for service hereunder or by facsimile transmission or by mail.

31.5.3 Any notice given by hand delivery shall be deemed to be given at the time of delivery.

31.5.4 Any notice given by facsimile transmission shall be deemed to be given at the time transmission has been confirmed by the sender's fax machine, subject to the following provision. Where said time of transmission falls outside the normal business hours of the recipient, delivery shall be deemed to be given at 10:00 hrs (recipient's local time) on the recipient's next following business day.

31.5.5 Any notices served by mail shall be given by registered mail and shall be deemed to be given on the date recorded on the delivery recording sheets by the mail carrier as delivered to and signed for on behalf of the recipient.

31.6 Invalidity

If any provision of this Contract shall be held to be invalid or unenforceable by a judgment or decision of any court of competent jurisdiction or any authority, the same shall be deemed severable and the remainder of this Contract (including the remainder of the affected provision) shall remain valid and enforceable to the fullest extent permitted by law. In any such case, the Parties will negotiate in good faith with a view to agreeing one or more provisions which may be substituted for such invalid or unenforceable provision in order to give effect, so far as practicable, to the spirit of this Contract.

31.7 Entire Agreement

This Contract contains the entire agreement between the Parties and supersedes any previous understandings, commitments, agreements or representations whatsoever, oral or written, pertaining to the subject matter hereof, provided that nothing in this Clause 31.7 (Entire Contract) shall have effect to exclude or restrict the liability of either Party for fraud or fraudulent misrepresentation.

31.8 Status of Corporation

The Corporation enters into this Contract for itself and as agent for and on behalf of the other Co-venturers. Notwithstanding the foregoing:

- (a) the Contractor agrees to look only to the Corporation for the due performance of this Contract and nothing contained in this Contract will impose any liability upon, or entitle the Contractor to commence any proceedings against any Co-venturer other than the Corporation; and
- (b) the Corporation is entitled to enforce this Contract on behalf of all the Co-venturers as well as for itself. For that purpose, the Corporation may commence proceedings in its own name to enforce all obligations and liabilities of the Contractor and to make any claim which any Co-venturer may have against the Contractor; and
- (c) all losses, damages, costs (including legal costs) and expenses recoverable by the Corporation pursuant to this Contract or otherwise shall include the losses, damages, costs (including legal costs) and expenses of the Corporation's Co-venturers and its and their respective Affiliates, except that such losses, damages, costs (including legal costs) and expenses shall be subject to the same limitations or exclusions of liability as are applicable to Corporation or the Contractor under the Contract.

32 GOVERNING LAW AND JURISDICTION

32.1 General

Subject to Clause 32.2, this Contract shall be governed by and construed in accordance with the laws of India (excluding any of its conflict of law rules which would direct or refer to the laws of another jurisdiction) and shall be subject to the exclusive jurisdiction of the Courts at New Delhi.

32.2 Dispute Resolution

Any dispute, disagreement, claim or other difference arising out of or in connection with this Contract (a "Dispute") shall be resolved in accordance with Clause 32.2 (Dispute Resolution).

32.2.1 The Parties are unable to resolve any Dispute through good faith discussion, either Party shall be entitled to refer such Dispute to arbitration by serving notice on the other Party.

- In cases where the claim amount is INR 50 Crores or less, the arbitral tribunal shall consist of a sole arbitrator, to be appointed mutually by both the parties.
- In cases where the claim amount is in excess of INR 50 Crores, the arbitral tribunal shall consist of three members, one to be nominated each by a party and the presiding arbitrator to be appointed by the two nominated arbitrators.

32.2.2 The Parties agree that the arbitration proceedings shall be governed by the provisions of the Arbitration and Conciliation Act 1996 of India (or any statutory modification or re-enactment thereof for the time being in force). The language of the arbitration shall be English. The venue for such arbitration shall be New Delhi.

32.2.3 The arbitration award shall be final and binding on the Parties. The right to refer any Dispute to arbitration pursuant to this Clause 32.2 (Dispute Resolution) shall survive the expiry or termination of the Contract.

32.2.4 The Contractor shall be obliged to continue to provide the Service(s) to the CWC under the Contract or the Scope of Work, during the arbitration proceedings and no payment due or payable to the Contractor (except payment in dispute) shall be withheld on account of such proceedings.

33. FORECLOSURE OF CONTRACT

33.1 If at any time after execution of this Contract or any Work Order(s) placed or during the progress of Work(s), the purpose or object for which the Work(s) is being done changes due to any supervening cause and as a result of which the work has to be abandoned or reduced in scope, the Corporation shall give notice in writing to that effect to the Contractor stating the decision as well as the cause for such decision and the Contractor shall act accordingly in the matter. The Contractor shall have no claim to any

payment of compensation or otherwise whatsoever, on account of any profit or advantage which he might have derived from the execution of the works in full, but which he did not derive in consequence of the foreclosure of the whole or part of the works.

The Contractor shall be paid at contract rates, full amount for works executed at site and in addition, a reasonable amount as certified by the Corporation for the items hereunder mentioned which could not be utilized on the work to the full extent in view of the foreclosure:

- (i) Any expenditure incurred on preliminary site work, e.g., temporary access roads, temporary labour huts, staff quarters and site office; storage accommodation and water storage tanks.
- (ii) Corporation shall have the option to take over Contractor's materials or any part thereof either brought to site or of which the Contractor is legally bound to accept delivery from suppliers (for incorporation in or incidental to the work) provided, however Corporation shall be bound to take over the materials or such portions thereof as the Contractor does not desire to retain. For material taken over or to be taken over by Corporation, cost of such materials as detailed by Corporation shall be paid. The cost shall, however, take into account purchase price, cost of transportation and deterioration or damage which may have been caused to materials whilst in the custody of the Contractor.
- (iii) Reasonable compensation for transfer of T&P from site to contractor's permanent stores or to his other works, whichever is less. If T&P are not transported together of the said places, no cost of transportation shall be payable.
- (iv) Reasonable compensation for repatriation of Contractor's site staff and labour to the extent necessary and a actual cost.

33.2 The Contractor shall, if required by the Corporation, furnish to him, books of account, wage books, timesheets and other relevant documents and evidence, as may be necessary to enable him to certify thereon a reasonable amount payable under this condition.

The reasonable amount of items on (i), (iii) and (iv) above shall not be in excess of 2% of the cost of the work remaining incomplete on the date of closure, i.e. total stipulated cost of the work as per this Contract less the cost of work actually executed under the Contract and less the cost of Contractor's materials also taken over by the Corporation as per item (ii) above.

Provided always that against any payments due to the Contractor on this account or otherwise, the Corporation shall be entitled to recover or be credited with any outstanding balances due from the Contractor for advance paid in respect of any tool, plants and materials and any other sums which at the date of termination were recoverable by the Corporation from the contractor under the terms of the contract.

33.3 In the event of action being taken under this Clause to reduce the Scope of Work, the Contractor may furnish fresh Performance Guarantee on the same conditions, in the same manner and at the same rate for the balance Contract amount and initially valid up to the extended date of completion or stipulated date of completion, if no extension has been granted plus 60 days beyond that. Wherever such a fresh Performance Guarantee is furnished/submitted by the Contractor, the Corporation may return the previous Performance Guarantee.

33.4 The Corporation shall have a right to descope any portion of the Work where the Contractor is not able to complete such Work(s) within prescribed time. The Corporation shall have a right to get such Work(s) done from alternate agencies at the cost of the Contractor and Contractor shall have no grievance/claim/issue whatsoever in this regard.

5. This bank guarantee shall not be determined, discharged or affected by the liquidation, winding up, dissolution or insolvency of the Supplier and shall remain valid, binding and operative against the Surety. The bank guarantee shall not be discharged by any change in Surety's constitution, constitution of CWC or that of the Supplier or change in appropriate laws.
6. The Surety agrees that CWC shall have the fullest liberty without the Surety's consent and without affecting in any manner, Surety's obligations hereunder to vary any of the terms and Conditions of Contract to extend time for performance of the Contract by the said Supplier and to enforce, or to forebear to enforce any of the terms and conditions relating to the Contract and the Surety shall not be relieved from its liability by reason of any such variation, or extension being granted to the Supplier or any forbearance, act or omission on the part of CWC or any indulgence shown by CWC to the Supplier or any such matter or thing whatsoever which under the Applicable Laws may, but for this provision, have effect of relieving the Bank.

7. The Surety hereby agree and acknowledge that this guarantee is irrevocable and shall remain in full force till it is fully and finally discharged by CWC in writing or [insert date] whichever is later, and all dues of CWC under or by virtue of the Contract have been fully paid and all its claims satisfied or discharged.
8. The Bank also agrees that this bank guarantee shall be governed and construed in accordance with Indian laws and subject to the exclusive jurisdiction of Courts at New Delhi.
9. All charges, fees, commission and other costs shall be to the account of the Supplier. Failure of the Supplier to make such payments shall not in any way affect the Surety's obligation under this bank guarantee and CWC shall be paid the money due to it under this bank guarantee without any deduction.
10. The Surety confirms that this bank guarantee has been issued with observance of appropriate laws of India.
11. Notwithstanding anything contained herein above:
 - (i) Surety's liability under this bank guarantee is limited to INR (in words) and Bank's guarantee shall remain in force until [insert date].
 - (ii) Any claim under this bank guarantee must be received by Surety or before [insert date]. If no such claim has been received by us by the said date, the right of CWC under this bank guarantee will cease.
 - (iii) Any letter from the CWC to the Manager, (Insert Branch name) branch of the Surety, under the seal of CWC shall be deemed to be sufficient and valid demand for payment under this bank guarantee.
 - (iv) The Bank undertakes not to revoke this bank guarantee before the expiry of this bank guarantee including during extension period, if any.

APPENDIX-2

SUBSTANCE ABUSE CONDITIONS

The Corporation is committed to the provision of safe work places for its employees and other persons working on or visiting premises on which work is being carried out for the Corporation. This policy is put into operation to help to achieve the foregoing commitment. The Contractor shall promote and comply with this policy concerning substance abuse.

This policy is applicable to all persons including, without limitation, the Contractor, its Affiliates, agents and subcontractors who carry out services on Corporation premises (hereinafter jointly referred to as the "Contractor"). The term "Corporation premises" shall mean all property owned, operated, leased by or under the control of the Corporation, whether onshore or offshore and shall include, without limitation, any drilling unit, barge or vessel on contract to the Corporation. The term "employee" shall for the purpose of this Appendix include all persons including agency staff engaged by the Contractor.

The use, possession, concealment, transportation, promotion or sale of prohibited substances (as hereinafter defined) on Corporation premises is strictly forbidden. Any contravention by a Contractor's employee shall result in that employee being excluded forthwith and prohibited from Corporation premises. Additionally, any Contractor's employee who is suspected of being under the influence of any prohibited substances shall be prohibited from Corporation premises.

For the purposes of this Appendix, "prohibited substances" are defined as:

- (i) any substance which an individual may not sell, possess, use or distribute under applicable Indian legislation ;
- (ii) any other legal but unlawfully used substance, e.g. prescription drugs obtained or used without permission or such drugs not being used for their originally intended purpose;
- (iii) any solvent (including, without limitation, glue) used or intended to be used for the purpose of intoxication; or
- (iv) any alcoholic beverage.

It is not the intention of this policy to prevent onshore-based personnel partaking of alcoholic beverage off Corporation premises in their own time provided that the individual's subsequent behaviour on-site is not (in the reasonable opinion of the Corporation) hazardous to health and safety and provided that the limits specified below are not exceeded. Alcohol is prohibited from all offshore installations and vessels and at the Corporation's process terminal.

Drug paraphernalia associated with substance abuse are prohibited from Corporation premises.

Contractor must have and administer a formal substance abuse policy. Contractor shall, if requested by Corporation, promptly submit a copy of its policy and programme to the Corporation's Representative. Such policy must provide for substance testing of Contractor's employees and must meet standards acceptable to the Corporation. The Corporation reserves the right to deny entry to Corporation premises for the employees of any Contractor which fails, when requested by Corporation, to present a written policy which, in the Corporation's opinion, meets such standards or which fails to administer an acceptable policy.

Except as stated below, substance testing results will not be disclosed to the Corporation. However, as a condition of their employees being entitled to enter Corporation premises, Contractors must certify that each employee has passed a substance test that meets the standards of this policy. Contractors must maintain records of substance testing which are subject to audit by Corporation.

The results of substance tests performed for reasonable suspicion or accident/incident investigations as outlined below must be disclosed to local Corporation management upon request.

The Contractor shall bear all costs associated with testing and shall be responsible at its own cost for replacing for that any employee prohibited from Corporation's premises.

Refusal by a Contractor's employee to submit to testing required by this policy or a confirmed positive result will result in the Contractor's employee being prohibited from Corporation premises.

In the event that it suspects a breach of this Appendix by the Contractor, the Corporation may conduct or may authorise other parties to conduct unannounced searches and inspections on Corporation premises of Contractor or Contractor's employees, including their effects, lockers, baggage, desks, tool boxes, clothing and vehicles. The purpose of such searches and inspections is to ensure compliance with this policy.

Any prohibited substances or items prohibited by this policy, or any materials that are illegal to possess, will be retained by the Corporation and may be destroyed or turned over to the appropriate law enforcement authorities.

Refusal by a Contractor's employee to submit to a search or inspection or discovery of prohibited substances in the possession of such employee will result in the Contractor's employee being prohibited from Corporation premises. Contractor will be responsible at their own cost and expense for replacing any such person.

The Corporation reserves the right to audit the Contractor's records periodically to verify compliance with this policy.

Audit results will be treated as confidential.

In all cases where the Contractor is permitted to employ a sub-contractor, the Contractor is responsible for ensuring that the sub-contractor and sub-contractor's employees shall comply with this policy, without prejudice to the Corporation's right herein.

The Contractor must obtain a signed consent demonstrating each employee's agreement to release to the Contractor and the Corporation the results of any substance testing performed.

The Contractor shall carry out tests that, at minimum, seek to determine whether the following substances are abused: cannabis, amphetamines, cocaine, benzodiazepines, opiates, barbiturates, secobarbital, and alcohol.

In the event on-site testing (e.g. at a heliport or onshore terminal) for alcohol consumption is required using an approved breathalyser unit, the standard shall be a level of alcohol in breath not greater than 35 micrograms per 100 millilitres of breath.

SAFETYCODE

1. Suitable scaffolds should be provided for workmen for all works that cannot safely be done from the ground, or from solid construction except such short period work as can be done safely from ladders. When a ladder is used, an extra Mazdoor shall be engaged for holding the ladder and if the ladder is used for carrying materials as well, suitable footholds and hand-holds shall be provided on the ladder and the ladder shall be given an inclination not steeper than $\frac{1}{4}$ to 1 ($\frac{1}{4}$ horizontal and 1 vertical).
2. Scaffolding of staging more than 3.6 m (12 ft) above the ground or floor, swung or suspended from an overhead support or erected with stationary support shall have a guard rail properly attached or bolted, braced and otherwise secured at least 90 cm (3 ft) high above the floor or platform of such scaffolding or staging and extending along the entire length of the outside and ends thereof with only such openings as may be necessary for the delivery of materials. Such scaffolding or staging shall be fastened as to prevent it from swaying from the building or structure.
3. Working platforms, gangways and stairways should be so constructed that they should not sag unduly or be unequal, and if the height of the platform or the gangway or the stairway is more than 3.6 m (12 ft) above ground level or floor level, they should be closely boarded, should have adequate width and should be suitably fastened as described in Para 2. above.
4. Every opening in the floor of a building or in a working platform shall be provided with suitable means to prevent the fall of person or materials by providing suitable fencing or railing whose minimum height shall be 90 cm (3 ft).
5. Safe means of access shall be provided to all working platforms and other working places. Every ladder shall be securely fixed. No portable single ladder shall be over 9 m (30 ft) in length while the width between side rails in rungs shall in no case be less than 29 cm (11½") for ladders up to and including 3 m (10 ft) in length. For longer ladders, this width should be increased at least $\frac{1}{4}$ " for each additional 30 cm (1 foot) of length. Uniform step spacing of not more than 30 cm shall be kept. Adequate precautions shall be taken to prevent danger from electrical equipment. No material on any of the sites or work shall be so stacked or placed as to cause danger or inconvenience to any person or the public. The contractor shall provide all necessary fencing and lights to protect the public from accident and shall be bound to bear the expenses of defence of every suit, action or other proceedings at law that may be brought by any person for injury sustained owing to neglect of the above precautions and to pay any damages and cost which may be awarded in any such suit; action or proceedings to any such person or which may, with the consent of the contractor, be paid to compensate any claim by any such person.
6. (a) Excavation and Trenching – All trenches 1.2 m (4 ft) or more in depth, shall at all times be supplied with at least one ladder for each 30 m (100 ft) in length or fraction thereof. Ladders shall extend from bottom of the trench to at least 90 cm (3 ft) above surface of the ground. Side of the trenches which are 1.5 m (5 ft) or more in depth shall be stepped back to give suitable slope or securely held by timber bracing, so as to avoid the danger of sides collapsing. The excavated materials shall not be placed within 1.5 m (5 ft) of the edges of the trench or half of the depth of the trench, whichever is more. Cuttings shall be done from top to bottom. Under no circumstances, undermining or undercuttings shall be done.
 - (b) Safety Measures for Digging Bore Holes –
 - (i) If the borewell is successful, it should be safely capped to avoid caving and collapse of the borewell. The failed and the abandoned ones should be completely refilled to avoid caving and collapse
 - (ii) During drilling, sign boards should be erected near the site with the address of the drilling contractor and the Engineer-in-charge of the work
 - (iii) Suitable fencing should be erected around the well during the drilling and after the installation of the rig on the point of drilling, flags shall be put 50 m around the point of drilling to avoid entry of people
 - (iv) After drilling the borewell, a cement platform (0.5m x 0.5m x 1.2m) 0.6m above ground level and 0.6m below ground level should be constructed around the well casing

(v) After completion of the bore well, contractor should cap the bore well properly by welding steel plate, cover the bore well with drilled wet soil and fix thorny shrubs over the soil. This should be done even while repairing the pump

(vi) After bore well is drilled, the entire site should be brought to the ground level.

7. Demolition- Before any demolition work is commenced and also during the progress of the work,

(i) All roads and open areas adjacent to the worksites shall either be closed or suitably protected

(ii) No electric cable or apparatus which is liable to be a source of danger or a cable or apparatus used by the operator shall remain electrically charged

(iii) All practical steps shall be taken to prevent danger to persons employed from risk of fire or explosion or flooding. No floor, roof or other part of the building shall be so overloaded with debris or materials as to render it unsafe.

8. All necessary personal safety equipment, as considered adequate by the Corporation should be kept available for the use of the person employed on the site and maintained in a condition suitable for immediate use and the contractor should take adequate steps to ensure proper use of equipment by those concerned.

The following safety equipments shall invariably be provided-

(i) Workers employed on mixing asphaltic materials, cement and lime mortar shall be provided with protective footwear and protective goggles.

(ii) Those engaged in whitewashing and mixing or stacking of cement bags or any material which is injurious to the eyes, shall be provided with protective goggles.

(iii) Those engaged in welding works shall be provided with welder's protective eye shields.

(iv) Stone Breakers shall be provided with protective goggles and protective clothing and seated at sufficiently safe intervals.

(v) When workers are employed in sewers and manholes, which are in inactive use, the contractors shall ensure that the manhole covers are opened and ventilated at least for an hour before the workers are allowed to get into the manholes and the manholes so opened shall be cordoned off with suitable railing and provided with warning signals or boards to prevent accident to the public. In addition, the contractor shall ensure that the following safety measures are adhered to :

(a) Entry for workers into the line shall not be allowed except under supervision of the Site Engineer or any other higher officer.

(b) At least 5 to 6 manholes upstream and downstream should be kept open for at least 2 to 3 hours before any man is allowed to enter into the manhole for working inside.

(c) Before entry, presence of Toxic gases should be tested by inserting wet lead acetate paper which changes colour in the presence of such gases and gives indication of their presence.

(d) Presence of Oxygen should be verified by lowering a detector lamp into the manhole. In case, no Oxygen is found inside these sewer line, workers should be sent only with Oxygen Kit.

(e) Safety belt with rope should be provided to the workers. While working inside the manholes, such rope should be handled by two men standing outside to enable him to be pulled out during emergency.

(f) The area should be barricaded or cordoned off by suitable means to avoid mishaps of any kind. Proper warning signs should be displayed for the safety of the public, whenever cleaning works are undertaken during night or day.

(g) No smoking or open flames shall be allowed near the blocked manhole being cleaned.

(h) The malba obtained on account of cleaning of blocked manholes and sewer lines should be immediately removed to avoid accidents on account of slippery nature of the malba.

(i) Workers should not be allowed to work inside the manhole continuously. He should be given rest intermittently. The Corporation shall decide the time up to which a worker may be allowed to work continuously inside the manhole.

(j) Gas masks with Oxygen Cylinders should be kept at site for use in emergency.

(k) Air-blowers should be used for flow of fresh air through the manholes. Whenever called for, portable air blowers are recommended for ventilating the manholes. The Motors for these shall be vapour proof and of totally enclosed type. Non-sparking gas engines also could be used, but they should be placed at least 2 m away from the opening and on the leeward side protected from wind, so that they will not be source of friction on any inflammable gas that might be present.

- (l) Workers engaged for cleaning the manholes/sewers should be properly trained before allowing to work in the manhole.
 - (m) Workers shall be provided with Gum boots or non-sparking shoes, bump helmets and gloves, non-sparking tools, safety lights, gas masks and portable air blowers (when necessary). They must be supplied with barrier cream for anointing the limbs before working inside these sewer lines.
 - (n) Workmen descending a manhole shall try each ladder step or rung carefully before putting his full weight on it to guard against insecure fastening due to corrosion of the rung, fixed to manhole well.
 - (o) If a man has received a physical injury, he should be brought out of the sewer immediately and adequate medical aid should be provided to him.
 - (p) The extents to which these precautions are to be taken, depend on individual situation, but decision of the Corporation regarding the steps to be taken in this regard in an individual case, will be final.
 - (vi) Contractor shall not employ men and women below the age of 18 years on the work of painting with products containing lead in any form. Wherever men above the age of 18 are employed on the work of lead painting, following precautions should be taken:

The copy of application for obtaining labour license may be submitted to Warehouse Manager within the period as specified in **Appendix-7 to Schedule I: General Conditions of Contract.**

The contractor shall obtain a valid licence under the Contract Labour (R&A) Act, 1970 and the Contract Labour (Regulation and Abolition) Central Rules, 1971, before the commencement of

the work and continue to have a valid license until the completion of the work.

The contractor shall also comply with provisions of the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979. The contractor shall also abide by the provisions of the Child Labour (Prohibition and Regulation) Act, 1986.

The contractor shall also comply with the provisions of the building and other Construction Workers (Regulation of Employment & Conditions of Service) Act, 1996 and the building and other Construction Workers Welfare Cess Act, 1996.

Any failure to fulfil these requirements shall attract the penal provisions of this contract arising out of the resultant non-execution of the work.

No labor below the age of fourteen years shall be employed on the work.

8. Payment of Wages

Payment of Wages:

- i. The contractor shall pay to labour employed by him either directly or through sub-contractors, wages not less than fair wages as defined in the CPWD's Contractor's Labour Regulations or as per the provisions of the Contract Labour (Regulation and Abolition) Act, 1970 and the Contract Labour (Regulation and Abolition) Central Rules, 1971, wherever applicable.
- ii. The contractor shall, notwithstanding the provisions of any contract to the contrary, cause to be paid fair wage to labour indirectly engaged on the work, including any labour engaged by his sub-contractors in connection with the said work, as if the labour had been immediately employed by him.
- iii. In respect of all labour directly or indirectly employed in the works for performance of the contractor's part of this contract, the contractor shall comply with or cause to be complied with the CPWD's Contractor's Labour Regulations made by Govt. from time to time in regard to payment of wages, wage period, deductions from wages recovery of wages not paid and deductions unauthorizedly made, maintenance of wage books or wages slips, publication of scale of wage and other terms of employment, inspection and submission of periodical returns and all other matters of the like nature or as per the provisions of the Contract Labour (Regulation & Abolition) Act, 1970, and Contract Labour (Regulation & Abolition) Central Rules, 1971, wherever applicable.
- iv. (a) The Regional Manager concerned shall have the right to deduct from the money due to the contractor any sum required or estimated to be required for making good the loss suffered by a worker or workers by reason of non-fulfilment of the conditions of the contract for the benefit of workers, non-payment of wages or of deductions made from his or their wages which are not justified by their terms of the contract or non-observance of the Regulations.

(b) Under the provision of Minimum Wages (Central) Rules, 1950, the contractor is bound to allow to the labours directly or indirectly employed in the works one-day rest for 6 days' continuous work and pay wages at the same rate as for duty. In the event of default, the Regional Manager shall have the right to deduct the sum or sums not paid on account of wages for weekly holidays to any labours and pay the same to the persons entitled thereto from any money due to the contractor by the Regional Manager concerned.

In the case of Union Territory of Delhi, however, as the all-inclusive minimum daily wages fixed under Notification of the Delhi Admin. No. F.12(162)MWO/DAB/43884-91, dated 31.12.1979 as amended from time to time are inclusive of wages for the weekly day of rest, the question of extra payment for weekly holiday would not arise.
- v. The contractor shall comply with the provisions of the Payment of Wages Act 1936, Minimum Wages Act 1948, Employees Liability Act 1938, Workmen's Compensation Act 1923, Industrial Disputes Act 1947, Maternity Benefits Act, 1961 and the Contractor's Labour (Regulation & Abolition) Act 1970 or the modifications thereof or any other laws relating thereto and the rules made thereunder from time to time.
- vi. The contractor shall indemnify and keep indemnified Corporation against payments to be made under and for the observance of the laws aforesaid and the CPWD's Contractor's Labour Regulations without prejudice to his right to claim indemnity from his sub-contractors.

The laws aforesaid shall be deemed to be a part of this contract and any breach thereof shall be deemed to be a breach of this contract.
- vii. Whatever is the minimum wage for the time being, or if the wage payable is higher than such

wage, such wage shall be paid by the contractor to the workmen directly without the intervention of Jamadar and that Jamadar shall not be entitled to deduct or recover any

amount from the minimum wage payable to the workmen as and by way of commission or otherwise.

The contractor shall ensure that no amount by way of commission or otherwise is deducted or recovered by the Jamadar from the wage of workmen.

9. **Maternity Leave and Pay**

Leave and pay during leaves shall be regulated as follows—

1. Leave:

(i) in the case of delivery - maternity leave not exceeding 8 weeks, 4 weeks up to and including the day of delivery and 4 weeks following that day

(ii) in the case of miscarriage - up to 3 weeks from the date of miscarriage

2. Pay:

(i) in the case of delivery - leave pay during maternity leave will be at the rate of the women's average daily earnings, calculated on total wages earned on the days when full time work was done during a period of three months immediately preceding the date on which she gives notice that she expects to be confined or at the rate of Rupee one only a day whichever is greater.

(ii) in the case of miscarriage - leave pay at the rate of average daily earning calculated on the total wages earned on the days when full time work was done during a period of three months immediately preceding the date of such miscarriage.

3. Conditions for the grant of Maternity Leave:

No maternity leave benefit shall be admissible to a woman unless she has been employed for a total period of not less than six months immediately preceding the date on which she proceeds on leave.

4. The contractor shall maintain a register of Maternity (Benefit) in the Prescribed Form as shown in **Appendix-G-I&II**, and the same shall be kept at the place of work

10. **Logistics for Labours**

The contractor(s) shall at his/their own cost provide his/their labour with a sufficient number of huts (hereinafter referred to as the camp) of the following specifications on a suitable plot of land to be approved by the Warehouse Manager.

(i) (a) The minimum height of each hut at the eaves level shall be 2.1m (7ft) and the floor area to be provided will be at the rate of 2.7 sqm (30 sqft) for each member of the worker's family staying with the labourer.

(b) The contractor(s) shall, in addition, construct suitable cooking places, having a minimum area of 1.80m x 1.50m (6' x 5'), adjacent to the hut for each family.

(c) The contractor(s) shall also construct temporary latrines and urinals for the use of the labourers each on the scale of not less than four per each one hundred of the total strength, separate latrines and urinals being provided for women.

(d) The contractor(s) shall construct sufficient number of bathing and washing places, one unit for every 25 persons residing in the camp. These bathing and washing places shall be suitably screened.

(ii) (a) All the huts shall have walls of sun-dried or burnt bricks, laid in mud mortar or other suitable local materials, as may be approved by the Warehouse Manager. In case of sun-dried bricks, the walls should be plastered with mud gobra on both sides. The floor may be kutcha, but plastered with mud gobra and shall be at least 15 cm (6") above the surrounding ground. The roofs shall be laid with thatch or any other materials, as may be approved by the Warehouse Manager and the contractor shall ensure that throughout the period of their occupation, the roofs remain water-tight.

(b) The contractor(s) shall provide each hut with proper ventilation.

(c) All doors, windows, and ventilators shall be provided with suitable leaves for security purposes.

(d) There shall be kept an open space of at least 7.2m (8 yards) between the rows of huts which may be reduced to 6m (20 ft) according to the availability of site with the approval of the Warehouse Manager. Back-to-back construction will be allowed.

(iii) Water Supply - The contractor(s) shall provide an adequate supply of water for the use of labourers. The provisions shall not be less than two gallons of pure and wholesome water

perheadperdayfordrinkingpurposesandthreegallonsofcleanwaterperheadperdayfor

bathing & washing purposes. Where piped water supply is available, supply shall be at standposts and where the supply is from wells or river, tanks which may be of metal or masonry, shall be provided. The contractor(s) shall also, at his/ their own cost, make arrangements for laying pipe lines for water supply to his/ their labour camp from the existing mains wherever available and shall pay all fees and charges therefor.

- (iv) The sites selected for the camp shall be high ground, removed from jungle.
- (v) Disposal of Excreta - The contractor(s) shall make necessary arrangements for the disposal of excreta from the latrines by trenching or incineration which shall be according to the requirements laid down by the Local Health Authorities. If trenching or incineration is not allowed, the contractor(s) shall make arrangements for the removal of the excreta through the Municipal Committee/authority and inform it about the number of labourers employed so that arrangements may be made by such Committee / Authority for the removal of the excreta. All charges on this account shall be borne by the contractor and paid direct by him to the Municipality/Authority. The contractor shall provide one sweeper for every eight seats in case of dry system.
- (vi) Drainage- The contractor(s) shall provide efficient arrangements for draining away sewage water, so as to keep camp neat & tidy.
- (vii) The contractor(s) shall make necessary arrangements for keeping the camp areas sufficiently lighted to avoid accidents to the workers.
- (viii) Sanitation- The contractor(s) shall make arrangements for conservancy and sanitation in the labour camps according to the rules of the Local Public Health and Medical Authorities

11. Conduct of Contractor Labors

The Corporation/Regional Manager/Warehouse Manager may require the contractor to dismiss or remove from the site of the work any person or persons in the contractor's employ upon the work whom may be incompetent or misconduct himself and the contractor shall forthwith comply with such requirements. In respect of maintenance/repair or renovation works etc. where the labour have an easy access to the individual houses, the contractor shall issue identity cards to the laborer, whether temporary or permanent and he shall be responsible for any untoward action on the part of such labor. AE will display a list of contractors working in the Colony/Blocks on the notice board in the colony and also at the service center, to apprise the residents about the same.

12. Removal of illegal Occupation

It shall be the responsibility of the contractor to ensure that no space in complex, provided to him for carrying out work/delivery of service, is not occupied by anybody unauthorized. If it is found so, then the Warehouse Manager shall have the option to refuse to accept work(s) / building/buildings irrespective of its completion stage. Any delay in acceptance on this account will be treated as the delay in completion and for such delay, a levy up to 5% of Value of work as per work order may be imposed by Regional Manager whose decision shall be final both with regard to the justification & quantum and be binding on contractor.

However, the Warehouse Manager, through a notice, may require the contractor to remove the illegal occupation any time on or before construction and delivery.

Trespass

The contractor shall, at all times, be responsible for any damages or trespass, committed by his agents and workmen in carrying out the work, unless such trespass is authorized by the Regional Manager/Warehouse Manager.

13. Employment of Skilled/Semi-Skilled Workers

The contractor shall, at all stages of work, deploy skilled/semi-skilled tradesmen who are qualified and possess certificate in particular trade from CPWD Training Institute/Industrial Training Institute / National Institute of Construction Management and Research (NICMAR)/National Academy of Construction, CID or any similar reputed and recognized Institute managed/certified by State/Central Govt. Number of such qualified tradesmen shall not be less than 20% of total skilled/semi-skilled workers required in each trade at any stage of work. Contractor shall submit number of man-days required in respect of each trade, its scheduling and the list of qualified tradesmen along with requisite certificate from recognized Institute to Regional Manager for approval.

Notwithstanding such approval, if the tradesmen are found to have inadequate skill to execute the work of respective trade, the contractor shall substitute such tradesmen within two days of written notice from Regional Manager. Failure on the part of contractor to obtain approval of Regional Manager or failure to deploy qualified tradesmen will attract a compensation to be paid by contractor

at the rates specified in **Appendix-**

7 to Schedule I: General Conditions of Contract per such tradesman per day. Decision of Regional Manager, as to whether particular tradesman possesses requisite skill and amount of compensation in case of default, shall be final and binding.

Provided always, that the provisions of this Clause shall not be applicable for works with estimated cost put to tender being less than Rs. 5 crores.

For work costing more than Rs. 10 crores, and upto Rs. 50 crores, the contractor shall arrange on site training as per National Skill Development Corporation (NSDC) norms for at least 20% of the unskilled workers engaged in the project in co-ordination with the CPWD Regional Training Institute & National Skill Development Corporation (NSDC) for certification at the level of skilled/semi-skilled tradesmen.

For work costing more than Rs. 50 Crores, the contractor shall arrange on site training as per National Skill Development Corporation (NSDC) norms for at least 30% of the unskilled worker engaged in the project in coordination with the CPWD Regional Training Institute & National Skill Development Corporation (NSDC) for certification at the level of skilled/ semi-skilled tradesmen. The cost of such training as stated above shall be borne by the Government. The necessary space and workers shall be provided by the contractor and no claim whatsoever shall be entertained.

14. PF Compliance and Contribution of EPF and ESI

It will be responsibility of the contractor to obtain separate code/identification No. for contractor's deposit of PF dues/ESI, if applicable with concerned authority directly. Copy of PF Registration / Codeno. along with copy of PF paid Challans, shall be submitted along with Running Account Bills or Final Bill.

The ESI and EPF contributions on the part of employer in respect of this contract shall be paid by the contractor and shall be included under the rates quoted by him in the tender. The ESI, EPF and other labour compliance will be sole responsibility of Contractor; CWC will not provide anything over and above rate quoted by contractor. Contractor will provide the proof to CWC for submission of ESI & EPF to respective authorities along with bills and proof of final amount deposited to respective authorities for ESI & EPF along with final bill compulsorily. If the contractor fails to do so, CWC will deduct appropriate amount from contractor's Bill/Security Deposit and pay to the respective authorities.

15. Minimum Wages Act to be Complied

The contractor shall comply with all the provisions of the Minimum Wages Act, 1948 and Contract Labour (Regulation and Abolition) Act, 1970, amended from time to time and rules framed thereunder and other labour laws, affecting contract labour that may be brought into force from time to time.

16. Default & Breach of Provisions

In the event of the contractor(s) committing a default or breach of any of the provisions of the CPWD's Contractor's Labour Regulations and Model Rules for the protection of health and sanitary arrangements for the workers as amended from time to time or furnishing any information or submitting or filing any statement under the provisions of the above Regulations and Rules which is materially incorrect, he/they shall, without prejudice to any other liability, pay to the Corporation as decided by the authority mentioned in **Appendix-7 to Schedule I: General Conditions of Contract** for every default, breach or furnishing, making, submitting, filing such materially incorrect statements and in the event of the contractor(s) defaulting continuously in this respect, the penalty may be enhanced to as decided by the authority mentioned in **Appendix-7 to Schedule I: General Conditions of Contract** per day for each day of default subject to a maximum of 5 percent of the estimated cost of the work put to tender. Decision of the Regional Manager in all of the above respects shall be final and binding on Parties.

Should it appear to the Regional Manager that the contractor(s) is/are not properly observing and complying with the provisions of the CPWD's Contractor's Labour Regulations & Model Rules and the provisions of the Contract Labour (Regulation & Abolition) Act 1970, and the Contract Labour (R&A) Central Rules 1971, for the protection of health & sanitary arrangements for work-people employed by the contractor(s) (hereinafter referred as "the said Rules") the Regional Manager shall have power to give notice in writing to the contractor(s) requiring that the said Rules be complied with and the amenities prescribed therein be provided to the work-people within a reasonable time to

C. Annual Repairs

- i. The works of periodical nature like whitewashing, color washing, distemping, painting etc. shall be called Annual Repair works and these shall be generally undertaken based on requirement.
- ii. The periodicity for painting systems shall be as below.

Whitewashing and color washing on exterior surfaces, horticulture belt etc.	One Year
Whitewashing and color washing on interior surfaces	two years
Painting with Distemper on plastered / concrete surface (interior)	three years
Painting with Emulsion on plastered / concrete surface (Exterior)	four years
Painting with Emulsion on plastered / concrete surface (interior)	four years
Steel surface (exposed) like eave and purlin & truss, Fender, Rolling shutter etc.	four years
Steel surface (interior) like roof truss, roof purlin, internal Steel column setc.	Ten Years
Cement paint over exterior walls	three years
Woodwork polishing	three years

In city of adverse climate receiving excess rain, extreme weather, high dust, temperature variation, this periodicity can be reduced based on the severity of climate and degradation occurred in physical appearance of painting etc.

- iii. Following guidelines shall be followed for planning and execution of Annual repair works.

The total estimated cost of maintenance of a building / structure during a year, as annual repair, shall be within the prescribed limits as approved by the Competent Authority as per DOP, from time to time, for Annual repairs.

The entire exercise of finishing under annual repair should be carried out in a professional manner. Before sanctioning of estimate, placement of work order, it should be ensured that all defects like dampness of walls, damage to RCC, brickwork and plaster, electrical cabling, its dressing, correct installation of wiring are covered and also rectified so that the building looks renovated and presentable for sufficient time after annual repairs.

Painting along with associated annual repair works should be carried in One GO in entire CW Complex.

Payment of works will be made on the basis of actual work carried out and in case made based on standard measurement book, it shall be ensured that no work is left and there shall be no slackness of supervision on the part of the Officers.

No work of original construction or complete replacement of components shall be taken up in Annual Repair works.

D. SPECIAL REPAIR

As the building ages, there is deterioration to the various parts of the building and services and major repairs and replacement of elements become inevitable. It becomes necessary to prevent the structure from deterioration and undue wear and tear as well as to restore it back to its original conditions to the extent possible. The following types of works in general are to be undertaken under special repairs:-

- i. Provision of waterproofing treatment to the roof, velly gutter. All the existing treatments known are supposed to last satisfactorily only for a period of about ten years.
- ii. Major Repair in Roof system, realignment of sheets, replacement in blocks, Replacement of Velly Gutter with replacement of Downtake Pipe system etc.
- iii. Major Repair of internal roads and pavements.
- iv. Major Repairs / replacement of flooring, skirting, dado and plaster.
- v. Replacement / new installation of doors, window frames, shutters and fittings.
- vi. Replacement of complete water supply network and sanitary installation like water tanks, WC cistern, wash basins, kitchen sinks, pipes etc. The life of GI pipes shall be considered as 25 years.

Volume-III–Schedule-II:ScopeofWork&Appendix-I,II,III

- vii. Re-grassing of lawns/grass plots in 5 to 6 years without replacement of earth and in 8 to 10 years with replacement of earth.
- viii. Renovation of lawn in 4 to 6 years as per site requirement.
- ix. Replanting of hedges in 8-10 years.
- x. Completely uprooting and removing hedges/shrubbery.
- xi. Replanting of
 - a) Rose beds in 5-6 years.
 - b) Perennial beds in 5-6 years.
 - c) Cannabeds in 1-2 years.
- xii. Shifting of any garden feature from one site to another within building.
- xiii. Electrical Equipment's/Installations after their useful life.

The replacement shall be made only after detailed inspections after assessing the condition of the components where they have outlived their useful life or not.

- i. At the commencement of contract, a Survey of the buildings shall be conducted to identify the items of Special Repairs which are required to be carried out. Special repair complaints are also to be noted and referred from general inspection reports of warehouses.
- ii. Special repairs, which are required to eliminate leakage and dampness in the buildings shall be given priority and completed before the monsoon. Special repairs to plastering, replacement of doors and windows and flooring shall be synchronized with the annual repairs so that whitewashing, color washing/distemping are carried out systematically.
- iii. It shall be ensured that the plants/trees survive and as such maintenance of the same shall be taken care with. Trees/Plants which are planted near to foundation of the buildings and in open areas/parks shall be planted in such a way that neither they damage the foundation nor are required to be felled down due to redevelopment of the area.

Authenticity of Special Repairs

Any work of Special Repair to be undertaken in the CW Complex has to be certified by the Engineer. The Engineer has to verify himself the necessity of undertaking Special Repair to any item of the building. All such repair shall be done with approval of Regional Manager for AA/ES or higher authority as per DOP.

E. Upgradation Works

Upgradation works, under this contract may be carried out as per the guidelines issued from corporate office time to time. A record shall be kept of the items upgraded building wise online/offline and once a building is already upgraded, further upgradation shall not be carried out without approval of the Competent Authority as per DOP. All the services, Civil and Electrical, which have completed their life or which are beyond repair or may not remain sustainable with repair shall be replaced and record shall be maintained.

At the commencement of contract, a Survey of the buildings shall be conducted to identify the items of all upgradation works which are required to be carried out in complex. complaints are also to be noted and referred from general inspection reports of warehouses.

F. Small value capital works/new construction works:

- Works as mentioned in table 3 above, may also be carried out under the contract based on exigencies of service and operational requirements as per decision of Regional Manager.
- Effort shall be made to carry out all upgradation works of Roof and Road in One GO. Other capital works of new construction should also be planned in ONE GO however, if total requirement of such works during a FY Year is small or the exigencies of the works /urgency or nature of operations / customer requirement is such that, the works are required to be taken up in phased manner or partially, these may also be executed under the contract by placing the work order with approval of Regional Manager.
- Upgradation of Floor of Godowns should be taken up in this contract because it has to be done in phased manners
- No capital works of upgradation and new construction of value exceeding Rs.50 lakh should be executed under this rate contract. Such higher value works should be executed through separate contracts after inviting tenders.

□

G. Energy Efficiency Measures

- All electrical installations shall be made adopting Energy efficiency measures like fixing of LED fittings, providing energy efficient fans etc.
- Green Building approved materials should be used preferably over other material.
- Use of water/ Power, Waste disposal, Vehicle circulation/ movement etc in CW Complex should be done with minimum carbon emission.
- Sewage Waste, should be treated before disposal into public sewer and should be used for Horticulture, Toilet re-flushing etc. Stormwater collection and harvesting should be made effective based on geological profile of CW Complex.

3. Materials, Tools & Plant to be provided by the Contractor and Testing of Materials

3.1 The contractor shall, at his own expense, provide all materials, required for the works other than those which are stipulated to be supplied by the Corporation.

The contractor shall, at his own expense and without delay, supply to the Engineer, samples of material to be used on the work and shall get these approved in advance. All such materials to be provided by the Contractor shall be in conformity with the specifications laid down or referred to in the contract. The contractor shall, if requested by the Engineer furnish proof, to the satisfaction of the Engineer that the materials so comply.

In case contractor does not set a field laboratory at CW Complex, all required tests shall be carried out in the reputed / approved outside laboratory. Payment of testing charges of such tests will be borne by the contractor in each case.

- i. For outside testing, test of materials and stipulated samples shall be carried out by one of the following laboratories/tests houses - (1) IIT, (2) NIT, (3) National Test Houses, (4) National Council of Cement & Building Material, (5) Govt. Engg. College/National Accreditation Board Approved Lab (NABL), as per decision of the Engineer section in the region.
- ii. Testing and acceptance criteria for cement, steel and any other materials, supplied by contractor should be as per BIS codes/Technical Specification or as decided by Engineer in charge, as per stipulated testing frequency given in enclosed list (field quality plan) or CPWD Specifications.
- iii. Sample of material for testing will be supplied free of cost by the contractor, including its transportation to the approved test houses/laboratory, as directed by the Engineer or inspecting officials.
- iv. All Routine tests on various materials shall be carried out as per the field quality plan-List of Mandatory Tests (enclosed) at the cost of the contractor. Wherever it is not specified, it will be carried out as per decision of Site Engineer, which will be final and binding on the contractor.
- v. In addition to the tests required under above clauses thereof, the Engineer or his representative may order tests to be carried out by an independent person appointed by him at such place or in such laboratory, as he may determine in accordance with the appropriate Clauses of relevant Standard Specifications and cost of such tests shall be borne by the contractor.
- vi. Testing record shall be maintained as per standard Testing Performance, enclosed in the contract document for proper testing and their record by the contractor.
- vii. In case, test results indicate that the cement, steel, bitumen or any other material brought or arranged by the contractor for incorporation in work does not conform to the relevant BIS Codes, the same shall stand rejected and shall be removed from site by the contractor at his own cost within a week's time of written order from the Engineer - in-charge to do so.

3.2 Contractor to Supply Tools & Plant etc: Plant & Machinery Required for the Work

The contractor shall provide at his own cost all materials except such special materials, if any, as may in accordance with the contract be supplied from the CWC stores, machinery, tools & plants as specified in Appendix 7 of Schedule 1.

In addition to this, appliances, implements, other plants, ladders, cordage, tackle, scaffolding and temporary works required for the proper execution of the work, whether original, altered or substituted and whether included in the specifications or other documents forming part of the contract referred to in these

Volume-III–Schedule-II:ScopeofWork&Appendix-I,II,III

conditions or not, or which may be necessary for the purpose of satisfying or complying with the requirements of the Officer-in-Charge as to any matter as to which under these conditions he is entitled to be satisfied, or which he is entitled to require together with carriage therefor to and from the work.

The contractor shall also supply without charge the requisite number of persons with the means and materials, necessary for the purpose of setting out works and counting, weighing and assisting the measurement for examination at any time and from time to time of the work or materials. Failing his so doing, the same may be provided by the Corporation at the expense of the contractor and the expenses may be deducted, from any money due to the contractor, under this contract or otherwise and/or from his dues or the proceeds of a sale thereof, or of a sufficient portion thereof.

- (i) It will be responsibility of the Contractor to arrange all plants & machinery, trucks, vibratory, Road rollers etc. as required by him for execution of works.
- (ii) Contractor will also arrange for getting permission of such plant & machinery, if required from local or other concerned authorities for use as well as for their transportation to site.
- (iii) All expenditure incurred in this connection will be borne by the Contractor.

4. Maintenance after Completion (Defect Liability Period-DLP):

Following works executed /services delivered under this contract/ Work Order shall be maintained by the contractor at his own cost during the maintenance period/DLP as mentioned below. This period shall be reckoned from the actual date of completion of work.

- i. All kind of construction/repair works in Bituminous Roads/concrete/masonry works in Building /Roads/Drains - DLP/Maintenance period-12 month.
- ii. All kind of leakage arresting, plugging in Roofs/pipes etc.-DLP/Maintenance period-12 month.
- iii. New construction-Upgradation works of Road/Roof/Floor-3 Years
- iv. New construction/upgradation works-Others including Painting and any other special repair:- Maintenance period-12 month.
- v. Electrical fittings/items/Motors/Pump-As per manufacturer warranty; DLP/Maintenance period-1 year.
- vi. Sanitary Installation/Fitting/Fixture-As per manufacturer warranty; DLP-12 Month.
- vii. Rollingshutters/Manual gears and other similar mechanical fitting works-DLP/Maintenance period-12 month.

The works /services, for which no maintenance period is prescribed here, contractor is waived off from his obligation of maintaining the works post completion.

5. Night Work

Contractor shall plan and deploy his all resources to complete the work within time as per agreed program of completion. If the CWC is, however, satisfied that the work is not likely to be completed in time except by resorting to night work; by special order, the contractor would be required to carry out the work even at night, without conferring any right on the contractor for claiming for extra payment for introducing night working. The decision of the Officer in charge in this regard will be final and binding on the contractor.

6. Work to be Executed in Accordance with Specifications, Drawings, Orders etc.

The Contractor shall execute the whole and every part of the work in the most substantial and workman like manner both as regards materials and otherwise in every respect in strict accordance with the specifications. The Contractor shall also conform exactly, fully and faithfully to the design, drawings and instructions in writing in respect of the work assigned by the Corporation and the Contractor shall be furnished free of charge one copy of the contract documents together with specifications, designs, drawings and instructions, as are not included in the standard specifications of Central Public Works Department, specified in **Schedule I: Appendix-7** or in any Bureau of Indian Standard or any other, published standard or code or Schedule of Rates or any other printed publication referred to elsewhere in the contract.

The Contractor shall comply with the provisions of the contract and with the care and diligence execute and maintain the works and provide all labour and materials, tools and plants including for measurements and

supervision of all works, structural plans and other things of temporary or permanent nature required for such execution and maintenance in so far as the necessity for providing these, is specified or is reasonably inferred from the Contract. The Contractor shall take full responsibility for adequacy, suitability and safety of all the works and methods of construction.

7. Work(s) where no Specifications are specified

In the case of any class of work for which there is no specifications provided under this Contract, such work shall be carried out in accordance with the Bureau of Indian Standards Specifications. In case, there are no specifications in Bureau of Indian Standards, the work shall be carried out as per manufacturers' specifications, if not available then as per State/District Specifications. In case there are no such specifications as required above, the work shall be carried out in all respects in accordance with the instructions and requirements of the Corporation.

8. Water for Works

- (a) Departmental water supply, if available, shall be the source of water for using into various works/services under this contract:

Water on the request of Contractor and, if available may be supplied to the contractor by the Corporation, subject to the following conditions:

- (i) The water charges shall be recovered from dues of Contractor, @ 1% on gross amount of the work done/services delivered.
- (ii) Main sources of supply (Tapping source), shall be decided by Warehouse Manager based on availability of water. The contractor shall make his/their own arrangement of water connection and laying of pipelines from existing main of source of supply up to place of work at his own cost.
- (iii) The Corporation does not guarantee to maintain uninterrupted supply of water and it will be incumbent on the contractor(s) to make alternative arrangements for water at his/their own cost in the event of any temporary breakdown in the Corporation water main so that the progress of his/their work is not held up for want of water. No claim of damage or refund of water charges will be entertained on account of such temporary breakdown.
- (b) In case, CW complex does not have adequate source of water or there is no such water which is fit for construction purpose, Warehouse Manager shall inform the contractor in writing, before commencement of work to arrange the water at its own. In all such cases, the contractor(s) shall make his/their own arrangements for water required for the work (sources as well conveyance of water) and nothing extra will be paid for the same. In all such cases, when contractor has procured construction water with its own arrangement due to non-availability of same in CW Complex, as confirmed by Warehouse Manager in writing, The water charges @ 1% shall not be recovered from contractor's bill as mentioned in subclause (a-i) above. The procurement/arrangement of construction water by Contractor will be subject to the following conditions:
- (i) That the water used by the contractor shall be fit for construction purposes to the satisfaction of the Engineer.
- (ii) The Engineer-in-Charge shall make alternative arrangements for supply of water at the risk & cost of contractor(s), if arrangements made by the contractor(s) for procurement of water are in the opinion of the Engineer unsatisfactory.
- (iii) In all such cases, alternate Water Arrangements can also be done by contractor by installation of borewell into CWC Land if it is permitted as per local bye-laws. The contractor shall be allowed to construct temporary wells in Corporation land for taking water only for construction purposes when he has got permission of the respective local authority and of Engineer in writing.
- No charges shall be recovered from the contractor towards providing of land for installation of borewell, but the contractor shall be required to provide necessary safety arrangements to avoid any accidents or damage to adjacent buildings, roads and service lines. He shall be responsible for any accidents or damage caused due to construction and subsequent maintenance of the wells and shall restore the ground to its original condition after the wells are dismantled on completion of the work.

The Officer-in-Charge shall be at liberty to object to and require the contractor to remove from the works any person who in his opinion misconducts himself for his representative, or is incompetent or negligent in the performance of his duties or whose employment is otherwise considered by the Officer-in-Charge to be undesirable. Such person shall not be employed again at works site without the written permission of the Corporation and the persons so removed shall be replaced as soon as possible by competent substitutes.

Important conditions

A) Initial Inspection of Complex and Buildings survey

- (i) Within 7 days of placement of LOA, an Initial inspection shall be carried out jointly by Warehouse Manager/Engineer and Contractor along with his team of Engineers (principal technical representative) to particularly assess the requirement of all maintenance works & services which are required to be carried out in CW Complex as well as upgradation and new capital construction works (from table 1,2 & 3 of **Schedule II: Scope of Work**). The works required to be carried out can be accessed with reference of Check List of minimum requirement of Infrastructure & its Maintenance mentioned in **Appendix III of Schedule II: Scope of Work**.
- (ii) Contractor will deploy at least one engineer having the qualifications mentioned in the **Appendix 7 of Schedule I** for carrying out the Measurement of area where general maintenance / repair & maintenance works / services are required. The measurement of the required Repair & maintenance activities shall be done along with Joint inspection. The Contractor, within 10 days of initial inspection, shall submit to the Corporation the detailed estimates of quantities mentioning the type of the works/ services required to be carried out in the CW Complex.
- (iii) Initial Inspection and Measurement of quantities for preparation of estimates shall be done by Warehouse Manager and Contractor's Engineer Jointly.
- (iv) The estimated quantities to be executed shall be assessed meticulously by Contractor's Engineer, and any variation beyond plus minus 10% in each item of work may not be acceptable to Corporation. The Corporation at its own discretion may place separate work order for executing additional quantities (beyond estimates provided by Contractor's Engineer) or may or may not do the payment of any kind of excess work done beyond the +110% of the quantities mentioned in work order based on estimates provided by Contractor's Engineer. Decision of Corporation, in all such cases, shall be final and binding on the Contractor.

B) Execution of works/delivery of Services:

EQUIVALENCYOFSTANDARDSANDCODES,MEASUREMENTS&MATERIALS

Wherever reference is made in the contract to specific standards and codes to be met by the goods and materials to be furnished, and work performed or tested, the provisions of the latest current edition or revision of the relevant standards and codes in effect shall apply, unless otherwise expressly stated in the contract. In case, no reference is made for any particular work, relevant IS/BIS Codes will be followed.

- 1.2.1 Providing and operating necessary measuring & testing devices and materials including all consumables are included in the Scope of Work. No separate measurement or payment for testing the work shall be made, but rates quoted for various items shall be deemed to include cost of such tests, which are required to ensure achievement of specified quality.
- 1.2.2 All materials shall be of standard quality, manufactured by renowned concerns, conforming to Indian Standards and shall have certification work from Bureau of Indian Standards as far as possible, unless otherwise approved by Engineer. The contractor shall get all materials approved by Engineer prior to procurement and use. The contractor shall furnish manufacturer's certificates, for materials supplied by him when asked for. Further to that he shall get material tested from an approved Test House, if asked for by the Engineer. Cost for all the tests and test certificates shall be borne by the contractor. No separate payment shall be made for the testing. The Engineer shall have the right to determine whether all or any of the materials are suitable. Any materials procured or brought to site and not conforming to specifications and satisfaction of the Engineer shall be rejected and the contractor shall have to remove the same immediately from site at his own expense & without any claim for compensation due to such rejection.
- 1.2.3 All goods and materials to be incorporated in the works shall be new, unused, of the most recent or current models and incorporate all recent improvements in design & materials, unless provided otherwise in the contract.
- 1.2.4 Wherever referred to in this tender document, only the latest revision of Specifications, Codes of Practice and other publications of the Indian Standards shall be applicable.

A. EXCAVATION:

1) CLASSIFICATION OF SOILS FOR EARTHWORK IN EXCAVATION

The earthwork shall be classified under the following categories and measured separately for each category.

- i. **All kinds of soils:** Generally any strata, such as sand, gravel, loam, clay, mud, black cotton soil, shingle, river or alluvial boulders, siding of roads, paths etc. and hardcore, macadam surface of any description (water bound, grouted tarmac etc.), lime concrete, mud concrete and their mixtures which for excavation yield to application of picks, shovels, jumper, scarifiers, ripper and other manual digging implements.
- ii. **Ordinary rock:** Generally any rock which can be excavated by splitting with crow bars or picks and does not require blasting, wedging or similar means for excavation such as limestone, sand stone, hard laterite, hard conglomerate and unreinforced concrete below ground level. If required light blasting may be resorted to for loosening the materials but this will not in any way entitle the material to be classified as, "Hard rock".
- iii. **Hard rock:** Generally any rock or boulder for the excavation of which blasting is required such as quartzite, granite, basalt, reinforced cement concrete (reinforcement to be cut through but not separated from concrete) below ground level and the like.

Volumell:ScheduleII-Appendix-IV(Technicalspecificationsofworks)

2) **Engineer-in-Charge** will furnish all necessary drawings showing the areas to be excavated, filled, sequence of priorities etc. Contractor shall follow such drawings strictly.

3) Excavation Category:

a) Excavation in Open area/Wide Excavation:

- Excavation exceeding 1.5m in width and 10sqm on plan and exceeding 30cm in depth.
- Excavation for basements, water tank etc.
- Excavation in trenches exceeding 1.5m in width and 10sqm on plan

b) Surface Excavation.

- Excavation exceeding 1.5m in width and 10sqm. on plan but not exceeding 30cm. in depth in all type of soils and rocks shall be described as surface excavation

c) Excavation in foundation & Trenches.

- This shall comprise excavation not exceeding 1.5m in width or 10sqm on plan and to any depth in trenches (excluding trenches for pipes, cables, conduit etc.)

4) General

Contractor shall provide all tools, plants, instruments, qualified supervisory personnel, labor, materials, and temporary works, consumables, any and everything necessary, whether or not such items are specifically stated herein, for completion of the Work.

Contractor shall set properly all lines and establish levels for various works such as earthwork in excavation for levelling, basement, foundations, plinth filling, roads, drains, cable trenches, pipelines etc.

The area to be excavated/filled shall be cleared of fences, trees, plants, logs, slumps, bush, vegetation, rubbish slush etc. and other objectionable matter. If any roots or stumps of trees are found during excavation, they shall also be removed. The materials removed shall be burnt or disposed off as directed by Engineer. Where earth fill is intended, the area shall be stripped of all loose/soft patches, top soil containing deleterious matter/materials before fill commences. Final cleaning shall be done with removal of all rubbish up to the distance of 50.0 m all around outside the periphery of building.

5) Relics, Objects of Antiquity, Etc.

All gold, silver, oil minerals archaeological and other findings of importance, all precious stones, coins, treasures, relics, antiquities and other similar things which may be found in or upon the site shall be the property of Engineer-in-Charge and Contractor shall duly preserve the same to the satisfaction of Engineer-in-Charge and from time to time deliver the same to such person or persons as Engineer-in-Charge may from time to time authorize or appoint to receive the same.

6) Site Clearance:

Before the start of work, the area of the Site shall be cleared of all shrubs, vegetation, grass, bushwood, stumps, saplings etc of girth up to 30cm measured at a height of one metre above ground level. All the building shall be laid out to ensure that the layout plan fits at site. Trees if any live within construction site layout shall be shifted to other safe place as directed by Engineer in charge (at extra cost). After completion of the work, the entire area of the site shall be cleared from all debris, unwanted materials / equipment and level/slope of ground as required at site up to peripheral roads. The debris and unwanted material shall be disposed off away from the site without any extra cost.

Volumell:ScheduleII-Appendix-IV(Technicalspecificationsofworks)

7) SiteLevels:

After site clearance and before commencement of excavation or filling, the contractor shall take levels in both longitudinal and transverse directions of the building at regular intervals as directed by Engineer in charge at site for the entire layout where the new work is to be executed. A record of these levels shall be signed jointly by Contractor and the Engineer-in-charge. These records shall be submitted to the Engineer-in-charge and shall be used in deciding the NGL, PL, FFL and measurement of earthwork.

8) Setting out of works:

The contractor shall set out the works and shall provide & fix all setting out apparatus required and solely be responsible for the true and perfect setting out the same and for correctness of the position, levels, dimensions and alignment of all buildings as per the drawings. The contractor shall take in writing the approval of the Engineer-in-charge for setting out and levels before starting the construction works. These approvals shall be recorded and signed by the Engineer-in-charge and contractor.

A masonry pillar to serve as a benchmark will be erected at a suitable point in the area, which is visible from the largest area. This benchmark shall be constructed and connected with the standard benchmark as approved by the Engineer-in-Charge. Necessary profiles with strings stretched on pegs, bamboos or 'Burjis' shall be made to indicate the correct formation levels before the work is started.

9) Surface Dressing:

The surface area to be occupied by the buildings shall be cleared of all debris, shrubs and plants, grass etc. The roots of trees and saplings shall be removed to a depth of 60cm below ground level or 30 cm below formation level or 15 cm below sub grade level, whichever is lower, and the holes or hollows filled up with the earth, rammed and leveled. All roots and organic material shall be cleared from the filling area inside the building.

10) Important Note:

The works mentioned above viz Site clearance, site levels, setting out and Surface dressing are part of contractor's scope and shall be done by Contractor without any extra cost or payment from CWC.

However, Major works like or large scale/Dense jungle clearance, Surface excavation, Shifting and/or Cutting of Trees (more than 300mm dia in girth at the height of 1 meter above ground) or any major clearance requiring shifting of CWC stored material, Existing structures and services such as old buildings, culverts, fencing, water supply pipelines, sewers, power cables, communication cables, drainage pipes etc. within or adjacent to the area etc., if required to be diverted/removed, shall be diverted/dismantled as per directions of the Engineer-in-charge of work, and shall be payable extra as per agreed Bill of quantities and schedule of rates.

11) Excavation in Trenches and Over Areas:

- i. All excavation operations manually or by mechanical means shall include excavation and 'getting out' the excavated materials.
- ii. During the excavation the natural drainage of the area shall be maintained. Excavation shall be done from top to bottom. Undermining or undercutting shall not be done.
- iii. In firm soils, the sides of the trenches shall be kept vertical up to a depth of 2 metres from the bottom. For greater depths, the excavation profile shall be widened by allowing steps of 50 cm on either side after every 2 metres from the bottom. Alternatively, the excavation can be done so as to give slope of 1:4 (1 horizontal: 4 vertical). Where the soil is soft, loose or slushy, the width of steps shall be suitably increased or sides sloped or the soil shored up as directed by the Engineer-in-Charge. It shall be the responsibility of the contractor to take complete instructions in writing from the Engineer-in-Charge regarding the stepping, sloping or shoring to be done for excavation deeper than 2 metres.
- iv. The earth work in excavation shall be done as per the required depths, width & length shown in approved Excavation Plan /drawings and in line of site levels and alignments in all sorts of soils as directed by Engineer in charge. Nothing extra, from the dimensions shown in approved excavation plan, shall be payable for excavation done for working space for labor. Only neat line excavation as per drawings shall be payable. Roots or trees met with during the excavation shall be cut and removed. Excavated earth

Volumell:ScheduleII-Appendix-IV(Technicalspecificationsofworks)

shall be stacked at least 3 m away from the trenches or as per the Engineer's instructions, so that it may not damage the sides of the excavated trenches. The sides of the excavated trenches shall be in a straight line and bottom uniformly levelled, watered, consolidated and ready for termite treatment. The maximum lead for stacking the earth shall be 200 m, unless otherwise categorically specified more in the item description.

- v. Earthwork in excavation in any type of soil existing at site for foundations of rafts, columns and walls/half brick walls/from existing ground level shall be as indicated on the drawings. The finish floor level of building shall be as per drawings and shall be approved by the Engineer-in-charge after fixing of same at Site by Contractor. The work shall be executed at site as per the levels approved by the Engineer-in-charge.
- vi. Immediately after the excavation of the foundation work, concreting therein and before covering the same the record of the levels as actually executed at site shall be recorded in the measurement books and jointly signed and dated by the Engineer-in-charge & Contractor.
- vii. If trenches or foundations are excavated beyond the specified dimensions due to bad workmanship of contractor, the extra excavations shall be filled with selected good earth ensuring adequate compaction duly watered, consolidated and rammed at the cost of contractor.
- viii. Explosives of any form shall not be used for any construction activity. Where hard rock is met with and blasting operations are considered necessary, the contractor shall obtain the approval of the Engineer-in-Charge in writing for resorting to blasting operation. In ordinary rock blasting operations shall not be generally adopted. However, the contractor may resort to blasting with the permission of the Engineer-in-charge, but nothing extra shall be paid for such blasting operations.
- ix. From the date when the Contractor starts work under this contract, or from the required contract date, whichever is earlier, the Contractor shall assume all responsibilities for earth and rock banks. Such responsibility shall continue to the date when all work under the contract is completed and approved by Engineer-in-Charge. The contractor shall provide sheeting, shoring and bracing required for the support of earth and rock banks during construction. Sheeting, shoring and bracing shall be maintained in place until immediately before filling or backfilling then shall be removed by stages as the filling or backfilling progresses. Engineer-in-Charge reserves the right to specify shoring or bracing as may be deemed necessary by them.
- x. Any settlement or washing away of filled or backfilled areas, and earth and rock banks, that may occur from the action of the elements, or any other cause, prior to acceptance of work, shall be repaired and grades re-established to the required elevations and slopes, at no additional cost.
- xi. Excavation where directed by the Engineer-in-Charge shall be securely barricaded and provided with proper caution signs, conspicuously displayed during the day and properly illuminated with red lights and/or written using fluorescent reflective paint as directed by engineer in charge during the night to avoid accident.
- xii. The Contractor shall take adequate protective measures to see that the excavation operations do not damage the adjoining structures or dislocate the services. Water supply pipes, sluice valve chambers, sewerage pipes, manholes, drainage pipes and chambers, communication cables, power supply cables etc. met within the course of excavation shall be properly supported and adequately protected, so that these services remain functional. However, if any service is damaged during excavation shall be restored in reasonable time.
- xiii. Excavations shall not be carried out below the foundation level of the adjacent buildings until underpinning, shoring etc. is done as per the directions of the Engineer-in-Charge for which payments shall be made separately. Contractor will be responsible if he has not taken precaution for the safety of the people, property or neighbor's property caused by his negligence during the construction operations or unsafe excavation.
- xiv. Any damages done by the contractor to any existing work shall be made good by him at his own cost. Existing drains, pipes, culverts, overhead wires, water supply lines and similar services encountered during the course of execution shall be protected against damage by the contractor. The contractor shall not store material or otherwise occupy any part of the site in a manner likely to hinder the operations of such services.
- xv. To the extent available, selected surplus spoils from excavated materials shall be used as backfill. Fill material shall be free from clods, salts, sulphates, and organic & other foreign material. All clods of earth shall be broken or removed. Where excavated material is mostly rock, the boulders shall be broken into pieces not larger than 150 mm size, mixed with properly graded fine material consisting of moor more earth to fill up the voids and the mixture used for filling.
- xvi. As soon as the work in foundations has been accepted and measured, the spaces around the foundations, structures, pits, trenches etc. shall be cleared of all debris and filled with earth in layers 15 cm to 20 cm, each layer being watered, rammed and properly consolidated before the succeeding one is laid. Each layer shall be consolidated to the satisfaction of Engineer-in-Charge.

Volumell:ScheduleII-Appendix-IV(Technicalspecificationsofworks)

- xvii. Trenchwidthincaseofexcavationintrenchesforpipes,cablesetc.
- Upto one metre depth the authorized widthof trench for excavation shall be arrived at by adding 25cm to the external diameter of pipe (not socket/ collar) cable, conduit etc. Where a pipe is laid onconcretebed/cushioninglayer,theauthorizedwidthshall bethe external diameterofpipe(notsocket/collar)plus25cmorthewidthofconcretebed/cushioninglayerwhicheverismo re.
 - For depths exceeding one metre, an allowance of 5 cm per metre of depth for each side of the trenchshall be added to the authorized width (that is external diameter of pipe plus 25 cm) for excavation.This allowanceshallapplyto theentiredepth of thetrench. In firm soils the sides of the trenchesshall be kept vertical upto depth of 2 metres from the bottom. For depths greater than 2 metres, theexcavation profiles shall be widened by allowing steps of 50 cm on either side after every two metresfrombottom.
 - Where more than one pipe, cable, conduit etc, are laid, the diameter shall be reckoned as thehorizontaldistancefromoutsidetoooutsideoftheoutermostpipes,cable,conduitetc.
 - Where the soil is soft, loose or slushy, width of trench shall be suitably increased or side sloped orthe soil shored up as directed by the Engineer-in-Charge. It shall bethe responsibilityof thecontractortotakecompleteinstructionsinwritingfromtheEngineer-in-Chargeregardingincreaseinthewidthoftrench.Slopingorshoringtobedoneforexcavationinsoft,loose orslushysoils.

12) FILLING

- i. The excavated stacked earth (other than Black cotton soil or disposable soil as decided by Engineerincharge) shall be filled in trenches, sides of foundations and under floor in layers of 200mm thickandbalance shall be disposed off by uniform spreading within the site as directed by theEngineer-in-Charge. The Filling with excavated earth shall be done in regular horizontal layers and all lumpsandclodsexceeding 8 cm in any direction shall be broken. Each layershall be watered and consolidatedwithsteelrammeror ½tonne roller.
- ii. TheSelectedearthssuppliedandusedforfillingshallbefreefromallroots,grass,shrubs,rankvegetation, brushwood, tress, sapling and rubbish.Sand ,supplied forfilling shall be clean and freefrom dust organic andforeign matterand its grading shall be within the limits of grading zone IV orVas specifiedinSection3 'Mortars'ofCPWDspecificationsofwork.
- iii. In case of filling under floor /open area with excavated available or supplied good earth etc., everythird and top must layer shall also be consolidated with power roller of minimum 8 tonnes. Whereverdepthhoffillingexceeds1.5metrevibratorypowerrollershallbeusedtoconsolidatethefillingunle ssotherwise directed by Engineer-in-charge. The top and sides of filling shall be neatly dressed. Thecontractor shall make good all subsidence and shrinkage in earth fillings, embankments, traversesetc.duringexecutionandtillthecompletionofworkunlessotherwise specified.
- iv. Filling in trenches for foundations, pipes etc shall be commenced soon after the Concrete/Masonryworksinfoundationsetc.jointsofpipes, cables, conduits etc. have been tested and passed. Thespace around the footing, pedestals, foundation masonry, pipes, cables conduits etc. shall be clearedofall debris, brick bats etc. Where the trenches are excavated in hard/ soft soil, the filling shall be donewith earth on the side and top of pipes in layers not exceeding 20 cm in depth. Each layer shall bewatered,rammedandconsolidated.Allclodsandlumps of earth exceeding 8 cm in any directionshallbeprotectedbeforetheexcavatedearthisusedfor filling. Volumell:ScheduleII-Appendix-IV(Technicalspecificationsofworks)

13) Lead

Lead for deposition/disposal of excavated material, shall be within a lead of 200m unless specifically mentioned in Tender items. The Deposition/disposal shall be as directed by Engineer-in-Charge. Only leads beyond 200m shall be considered as extra lead if not specifically mentioned in tender items and the Contractor shall be paid extra. For the purpose of measurement of lead the area to be excavated or filled or area on which excavated material is to be deposited/disposed off shall be divided into suitable blocks and for each of the blocks, the distance between centerlines shall be taken as the lead which shall be measured, as far as practically possible, by the shortest straight line route on the plan and not the actual route taken by Contractor. No extra compensation is admissible on the grounds that the lead including that for borrowed materials had to be transported over marshy or katchaland/route.

B. CONDITIONS FOR WATER:

Contractor shall get the water tested from any laboratory approved by the Engineer-in-charge at regular interval as per the CPWD Specifications. All expenses towards collection of samples, packing, transportation except testing charges etc. shall be borne by the contractor.

C. FORMWORK

- i. The supply, erection, workmanship, stripping, measurement, and scope of works covered under the rates etc. shall be in general as per CPWD Specifications unless specifically mentioned in tender document.
- ii. Rates in tender items shall be valid for all heights for carrying out Centering, and shuttering for all RCC/PCC works, wall finishing work setc wherever required for construction works in Warehouse and no extra cost shall be paid unless specifically mentioned in tender BOQ.
- iii. Where it is not specifically stated in the description of the item that form work shall be paid for separately, the rate of the RCC item shall be deemed to include the cost of formwork.
- iv. No deductions from the shuttering due to the openings/ obstructions shall be made if the area of each opening/obstruction does not exceed 0.4 square metre. Nothing extra shall be paid for forming such openings.
- v. Only M.S. Centering/shuttering and scaffolding material unless & otherwise specified shall be used to give an even finish of concrete surface. However, marine-ply shuttering in as per site requirement may be used on specific request from contractor to be approved by the Engineer-in-charge.
- vi. Centering and shuttering for all concrete and reinforced concrete wherever required shall be in steel and / or plywood to produce a smooth and uniform finish on all exposed surfaces. However, all props, bracings, scaffolding etc., shall be in steel. The entire responsibility of planning, design, erection and safety of formwork shall lie with the Contractor.
- vii. Extra for shuttering in curved profile: For shuttering curved in elevation the steel/ply shuttering shall be fabricated to achieve the curved profile as per the architectural drawings and nothing extra shall be payable on this account.
- viii. In order to keep the floor finish as per architectural drawings and to provide required thickness of the flooring as per specifications, the level of top surface of RCC shall be accordingly adjusted at the time of its centering, shuttering and casting for which nothing extra shall be paid to the Contractor.
- ix. As per general engineering practice, level of floors in toilets/bath, balconies, shall be kept 12 to 20mm lower than general floor as required. Shuttering should be adjusted accordingly. Nothing extra shall be payable on this account.

Volumell:ScheduleII-Appendix-IV(Technicalspecificationsofworks)

- x. Steel shuttering as approved by the Engineer-in-charge only shall be used by the contractor. Minimum size of shuttering plates shall be 600mm x 900mm except for the case when closing pieces required to complete the shuttering panels. Dented, broken, cracked, twisted or rusted shuttering plates shall not be allowed to be used on the work. The shuttering plates shall be cleaned properly with electrically driven sanders to remove any cement slurry or cement mortar or rust. Proper shuttering oil or de-bonding compound shall be applied on the surface of the shuttering plates in the requisite quantity before assembly of steel reinforcement.
- xi. For the execution of centring and shuttering, the contractor shall use propriety „Reebole” chemical mould release agent of FOSROC or equivalent as shuttering oil as approved by Engineer-in-charge and nothing extra shall be paid on this account.

D. REINFORCEMENT STEEL.

- i. The TMT bars shall conform to IS 1786 pertaining to Fe 415 D or Fe 500 D or Fe grade of steel as specified in Tender Item/Drawing.
- ii. In case of Construction in seismic zone III and above, unless specifically mentioned in technical drawings, steel reinforcement of Grade Fe 415 D shall be used. However, high strength deformed steel bars, produced by thermomechanical treatment process of grade Fe 415, Fe 500 and Fe 550 having elongation more than 14.5. % and conform to other requirements of Fe 415 D, Fe 500 D and Fe 550 D respectively of IS 1786 may also be used for reinforcement.
- iii. The supply, storage at site, assembly, erection, placement in position into formwork, workmanship including bend, hook, overlap, welding, anchoring, cover, testing, acceptable quality parameters and test results, permissible tolerance, measurement, and scope of rates etc. shall be in general as per CPWD Specifications unless specifically mentioned in tender document or Construction Drawings.
- iv. Reinforcement bars shall be placed in position as shown in the drawings or as directed by the Engineer-in-charge. The bars crossing one another shall be tied together at every intersection with two strands of annealed steel wire 0.9 to 1.6 mm thickness twisted tight to make the skeleton of the steel work rigid so that the reinforcement does not get displaced during deposition of concrete.
- v. Tack welding in crossing bars shall also be permitted in lieu of binding with steel wire if approved by Engineer-in-charge.
- vi. Reinforcement including authorized spacer bars and lappages shall be measured in length of different diameter, as actually (not more than as specified in the drawings.) used in the work nearest to centimeter and their weight calculated on the basis of standard weight given in clause 6.2 of IS 1786. In case actual unit weight of the bars is less than standard unit weight, but within variation, in such cases weight of reinforcement shall be calculated on the basis of actual unit weight. Wastage and unauthorized overlap shall not be paid for.
- vii. Annealed steel wire required for binding or tack welding shall not be measured, its cost being included in the rate of reinforcement.
- viii. The contractor shall provide approved type of support for maintaining the bars in position and ensuring required spacing and correct cover of concrete to reinforcement as called for in the drawings, spacer blocks of required shape and size. Chairs and spacer bars shall be used in order to ensure accurate positioning of reinforcement. Spacer blocks shall be cast well in advance with approved proprietary pre-packed free flowing mortars (Conbextra as manufactured by M/s Fosroc Chemicals India Ltd., or equivalent as approved by the Engineer-in-charge at his discretion) of high early strength and same colour as surrounding concrete, Pre-cast cement mortar / concrete blocks / blocks of polymer shall not be used as spacer blocks unless specially approved by the Engineer-in-charge, rate of RCC items is inclusive of cost of such cover blocks.

E. RCC WORK

- i. All mixed design concrete shall be executed by Concrete Batch Mix Plant of suitable capacity, to be installed by Contractor at site. In special cases RMC shall be allowed by Engineer on written request of the contractor but the RMC should also be from a plant of appropriate capacity. No extra payments shall be allowed on account of Concrete from batch mix plant or RMC.
- ii. In case of Nominal Mix concrete also, weight basis batching shall only be allowed.

Volumell:ScheduleII-Appendix-IV(Technicalspecificationsofworks)

- iii. Mixer having arrangement of weighing water for controlling W.C. ratio should only be used in all PCC and RCC works where there is no provision for Ready Mix Concrete in tender items.
- iv. Any cement slurry if added over base surface (or for continuation of concreting) for bond, its cost shall be deemed to have been included in the respective items, unless otherwise, explicitly stated and nothing extra shall be payable nor extra cement considered in the cement consumption on this account.
- v. Unless otherwise specified for the item, the maximum water cement ratio for any grade of concrete shall not be more than 0.5. The contractor shall within 15 days of issue of letter for commencement of the work, submit the mix design for various grades of concrete along with 7 days crushing strength reports and within 40 days submit 28 days crushing strength reports, for the samples for the mix. Nothing extra shall be payable on account of admixing any chemical admixture for achieving any characteristic for the concrete. Concreting shall be commenced only after the approval of the mix design by the Engineer-in-Charge.
- vi. Wherever required the M.S. inserts shall be provided during the casting of RCC / PCC for which nothing extra shall be payable. As far as possible the contractor shall plan that the concreting is carried out during day shift.
- vii. It is important to maintain the water cement ratio constant at its correct value. To this end, determination of moisture contents in both fine and coarse aggregates shall be made as frequently as possible, the frequency for a given job being determined by the Engineer-in-Charge according to weather conditions. The amount of the added water shall be adjusted to compensate for any observed variations in the moisture contents. For the determination of moisture content in the aggregates, IS 2386 (Part 3) may be referred to. To allow for the variation in mass for aggregated due to variations in their moisture content, suitable adjustments in the masses of aggregates shall be made.
- viii. The concrete shall be deposited in its final position in a manner to preclude segregation of ingredients. In deep trenches and footings concrete shall be placed through chutes or as directed by the Engineer-in-Charge. In case of columns and walls, the shuttering shall be so adjusted that the vertical drop of concrete is not more than 1.5 metres at a time.
- ix. The surface which is to receive plaster or where it is to be joined with brick masonry wall, shall be properly roughened immediately after the shuttering is removed, taking care to remove the laitance completely without disturbing the concrete. The roughening shall be done by hacking. Before the surface is plastered, it shall be cleaned and wetted so as to give bond between concrete and plaster.
- x. On the basis of mandatory lab tests, in case of actual average compressive strength being less than specified strength but up to 70% of specified strength, the rate payable shall be in the same proportion as actual average compressive strength bears to specified compressive strength. In case average compressive strength is less than 70% of the specified strength, the work represented by these samples shall be rejected.
- xi. However, on the basis of mandatory field tests, where they prevail, the rates of the work represented by samples showing actual compressive strength less than specified strength shall be worked out as per relevant guideline of CPWD Specifications. In addition, Engineer-in-Charge may order for additional tests (see Appendix 'B' of chapter 5 of CPWD Specifications) to be carried out at the cost of contractor to ascertain if the portion of structure where in concrete represented by the samples had been used, can be retained on the basis of these tests. Engineer-in-Charge may take further remedial measures as necessary to retain the structure at the risk and cost of the contractor.
- xii. If at any stage of the work, during or after placing the concrete in the structure the work is found defective such concrete shall be removed and work be done with fresh concrete and adequate rigid forms at the cost of the contractor. The contractor shall be liable to bear the cost for the cement concrete thus dismantled.
- xiii. The construction work shall be done with proper and assured system of curing duly identified areas with dates marked in paint. In hot weather the contractor shall take relevant care to cover the work with wet gunny bags/hessian cloth or use continuous ponding of water on surface so as to keep the surface wet.
- xiv. Hard stone aggregate of different sizes shall be crushed or broken from hard stone conforming to CPWD Specifications for works subject to Para below. Where CPWD Specifications for R.C.C. or any item or work are silent, the provisions of the latest Code of BIS for plain and reinforced cement concrete for general building construction I.S. 456-2000 or the concerned I.S. specifications or Code of practices shall apply.
- xv. When an R.C.C. slab or flat slab is projected beyond the wall/beam line, the payment for such

Volumell:ScheduleII-Appendix-IV(Technicalspecificationsofworks)

projected part of the R.C.C. work shall be made under the corresponding item of R.C.C. slab/flat slab. Payment for centering & shuttering of the projected portion shall also be made under the item of centering & shuttering for the slab/flat slab. Nothing shall be paid for the edge shuttering of the slab/flat slab projection or otherwise. All exposed edges shall be finished as per specifications without extra payment.

F. BRICKWORKS

- i. Type of the Bricks to be used in Masonry works in foundation and superstructure i.e Common Burnt Clay Bricks/ Fly Ash Lime Bricks / Clay Fly Ash Bricks/ Tile Brick/ Brick Bats Calcium Silicate Bricks/CC Block/AAC Block etc. shall be strictly as mentioned in Tender Item and Construction drawings.
- ii. Unless specifically mentioned in Construction Drawing or Tender Item, Bricks used shall have compressive strength not less than 7.5 MPa. In case bricks of compressive strength 7.5 MPa are not available and the structure is not of load bearing nature, then use of less compressive strength bricks can be relaxed as per CPWD specification, at a reduced rate as worked out by the Engineer in-charge.
- iii. All brick Masonry work shall be done with the available size of F.P.S. Bricks. The measurement of the brick work would be done in the multiples of the half brick. Above three bricks, the brick work would be measured as per the actual thickness.
- iv. The 'Modular bricks' shall only be used where use of same is specifically mentioned in the relevant items.
- v. The material Specifications, dimensions, permissible tolerance, testing, acceptable quality parameters, test results, workmanship, erection and placement procedures, measurement of works and scope of works covered under rates etc all in general shall be as per CPWD Specifications with up to date correction slips unless specifically mentioned in tender documents.
- vi. Top courses of all plinths, parapets, steps and top of walls below floor and roof slabs shall be laid with brick on edge, unless specified otherwise. Brick on edge laid in the top courses at corner of wall shall be properly radiated and keyed into position to form cut (maru) corners. Where bricks cannot be cut to the required shape to form cut (maru) corners, cement concrete 1:2:4 (1 cement : 2 coarse sand : 4 graded stone aggregate 20 mm nominal size) equal to thickness of course shall be provided in lieu of cut bricks.
- vii. No deduction or addition shall be done and no extra payment made for the following:
Where minimum area is defined for deduction of an opening, void or both, such areas shall refer only to opening or void within the space measured.
 - a. Ends of dissimilar materials (that is, joists, beams, lintels, posts, girders, rafters, purlins, trusses, corbels, steps, etc.): up to 0.1 m² in section;
 - b. Opening up to 0.1 Sqm in area (see Note);
 - c. Wall plates, bed plates, and bearing of slabs, chajjas and the like, where thickness does not exceed 10 cm and bearing does not extend over the full thickness of wall;
 - d. Cement concrete blocks as for hold fasts and holding down bolts;
 - e. Iron fixtures, such as wall ties, pipes up to 300 mm diameter and hold fasts for doors and windows; and
 - f. Chases of section not exceeding 50 cm in girth.
 - g. Bearing portion of drip course, bearing of moulding and cornice.

Note: In calculating area of an opening, any separate lintel or sills shall be included with the size of the opening but end portions of lintel shall be excluded. Extra width of rebated reveals, if any, shall also be excluded.

G. FLOORING

- i. Final finished flooring with Marble/Granite/Stone/Ceramic/Vitrified/CC etc shall be done in pattern, layout out, sizes, thickness as shown in Construction drawings and Tender items otherwise as directed by Engineer in charge.
- ii. The supply, material Specifications, dimensions, permissible tolerance, testing, acceptable quality parameters, test results, workmanship, erection and placement procedures, measurement of works and scope of works covered under rates set calling general shall be as per CPWD Specifications with up to date correction slips unless specifically mentioned in tender documents.
- iii. Sample of Marble /Granite/Ceramic/Vitrified/CC Tile or any other material to be used in finish flooring shall be got approved by Contractor from Engineer in charge.
- iv. Gang saw cut granite floor slabs.

Volumell:ScheduleII-Appendix-IV(Technicalspecificationsofworks)

- v. Wherever the tenders schedule provide for mirror polished granite slab flooring using Gangsaw cut granite slabs. The size of such gang saw cut granite slabs shall not be less than 1.5m x2.4m. The granite block shall be gang saw cut using water cutting process. The polishing of the cut stone slabs should be automatic machine polished to highly even surface without any undulations. Manual polished and kerose cutting process slabs shall not be accepted and shall be rejected.
- vi. Proper gradient shall be given to flooring for toilets, verandah, kitchen, courtyard etc. so that the wash water flows towards the direction of floor trap. Any reverse slope if found, these shall be made good by the contractor by ripping open the floor/grading concrete and nothing extra shall be paid for such rectifications. Slope in Office, warehouse floor shall be as indicated in drawings otherwise as directed by Engineer in charge.
- vii. Final Finish flooring shall be laid over a well prepared base and sub base flooring of material & specifications as mentioned in tender items and shown in Construction Drawings.
- viii. Sub base floor shall be laid over well prepared subgrade.

H. SUBGRADE

- i. Where the pavement / Warehouse Floor is to be laid on surface obtained after cutting the soil, the sub-grade for pavement shall be prepared as per specifications relevant to item in BOQ for achieving not less than 97% of dry density as per IS:2720 Part VIII at no extra cost or otherwise as per the procedure mentioned hereafter.
 - The sub-grades shall be excavated to a depth of 0.5 meter, watered and compacted in layers not exceeding 250mm thickness, dressing to required camber and profile and consolidation with vibratory roller of 80 to 100 KN static weight so as to achieve not less than 97% of dry density as per IS:2720 Part VIII. However, before relaying and compacting the loosened material the surface below this level shall be suitably consolidated as directed by the Engineer but with a minimum six passes of vibratory roller. If the next 15 cm below this level does not have a relative compaction of 90%, it shall be compacted until not less than 95% dry density is obtained. Rate for work of this nature shall be covered in the item of preparation of sub-grade.
- ii. Where the pavement is to be laid on fill and height of proposed fill is less than 0.5 meter, the procedure for sub-grade preparation as mentioned above shall be followed.
- iii. Where the pavement is to be laid on fill and the height of proposed fill is more than 0.5 meter, preparation of sub-grade is not required at these locations, however, in such locations original ground level shall be compacted by rolling as directed by the Engineer as much as possible but with a minimum of six passes of vibratory roller of 80 to 100 KN static weight. No separate payment shall be made for this, as same shall be covered in item of earth work in excavation and /or filling.
- iv. **Control Test on Borrow Material**
Soil suitable for consolidation under O.M.C. conditions should preferably have the following characteristics:
 - Minimum percentage of clay-10%; Liquid limit- 14; Plasticity index- 4; Percentage of silt should not exceed- 50%; free from Peat, muck and organic soils which are unsuitable.The Engineer in-charge may, however, relax these requirements taking into account availability of materials, cost of transportation and other relevant factors.

I. WBM/WMM

WBM/WMM wherever to be used as sub base/base course in road/warehouse floor etc. shall be laid in proper gradient, compacted thickness as shown in construction drawings. The supply, stacking, procedure for laying in position, testing, acceptance within tolerance limit, measurement and scope of work covered under rates shall be as per the guideline of relevant CPWD specifications for these works.

J. STRUCTURAL STEEL WORKS IN COLUMN-BEAM FRAMES/ROOF TRUSS/MEZZANINE FLOOR

- xv. The welders qualified as per procedure given in the IS standards shall only be engaged for doing the welding work.
- xvi. The welding procedure as proposed by the contractor shall be got approved in advance from the Engineer-in-charge.
- xvii. The welds shall be subjected to visual examination, mechanical tests on samples, dye penetration tests, other non-destructive tests like radiographic/ultrasonic test etc.
- xviii. Internal surfaces of boxed/back-to-back members should be treated with primer.
- xix. The edges of chequered plates shall be made smooth and no burrs or jagged ends shall be left.
- xx. The structural steel required conforming to IS: 2062 shall normally be procured from the main steel producers viz. TATA, SAIL and RINL (Vizag). Tubes to be supplied by Contractor, conforming to IS 1161, shall normally be of Make TATA, APPOLO.
- xxi. In case of difficulties in getting required quantities of materials from the main producers, permission may be given as a special case to procure the materials from the secondary producers having IS registration by Engineer in charge if the contractor approaches the Engineer-in-charge with the efforts made by them in getting the materials with full justification details.
- xxii. Fabricated structural member viz., columns, beams and purlins along with the base plates and cleats etc. shall be provided with zinc chromate steel primer coating after fabrication unless specifically mentioned otherwise in Tender Items and Specifications.
- xxiii. The quantity of the steel for structural members for the purpose of payment shall be worked out by adopting the unit weight given in the relevant IS code for tubes, angles, Channels, flats and plates etc. If the actual weight of the member is less than that specified in the code beyond the minus tolerance permissible then the materials shall be rejected. Payment on weight basis would be made as per the theoretical or actual weight whichever is less.
- xxiv. Weight of cleats, brackets, packing pieces, bolts, nuts, washer's distance pieces, separators, diaphragm gussets (taking overall square dimensions) fish plates etc. shall be added to the weight of respective items unless otherwise specified. No deduction shall be made for skew cuts.

K. ADDITIONAL CONDITIONS FOR PRE-FAB STRUCTURE IN STEEL:

- i. Wherever Tender Items mentioned the Prefab Structures or **Pre-Engineered Building System (PEB)**, The scope of work for **Fabrication, Supply and Erection of Pre-Engineered Building System (PEB)** is as defined in the following sections under the contract which includes manufacture, supply and erection of Structural Steel System and all accessories as per design, drawings and as per direction of Engineer-in-Charge.
- ii. **Condition for Specialized Agency for PEB Structure:**

In case the Main contractor is himself not a PEB Manufacturer, He will obtain the approval of Engineer in charge for selection and appointing the PEB Manufacturer/Supplier for this contract. The Engineer-in-Charge or his authorized representative shall visit the factory of PEB manufacturer and will grant the approval for Supply of PEB system based on the experience, availability of CNC machines for fabrication, cutting/welding etc and production capacity of the manufacturer. EIC or his representative will also visit the factory of PEB Manufacturer during manufacturing of PEB components for quality checks. The PEB components shall be brought to site from factory only after the satisfactory test results and quality checks as per the direction of Engineer in Charge.
- iii. Before commencement of procurement, the contractor, if mentioned in tender drawings or item specifications, shall make detail design drawings based on models and suggested loading, framed drawings provided by CWC and will prepare fabrication & erection drawings for steel structure and detail fabrication and erection drawings for roofing and cladding indicating the positions of overlap, joints, Louvers, Flashings, cutouts etc. He shall make all drawings available all worksheets/supporting data/design details to Engineer in Charge as sodesired. The contractor shall arrange one more spring than the total required number, for testing purpose. The Engineer-in-Charge shall select at random one spring to be sent for test regarding grade of H.T. steel wire used in the springs. No extra payments shall be made for the additional spring arranged.

The rates to the quoted for supplying and fixing rollings shutters should include making necessary chases in masonry and making good the same for fixing of side guide etc.

M.FINISHING

- i. The work shall be carried out to provide a smooth finish with pleasing appearance in high standards of workmanship and quality of material up to the satisfaction of Engineer in charge.
- ii. The supply of materials for finishing works and their storage, procedure of applications, testing, acceptance within tolerance limit, measurement and scope of work covered under rates for these works shall be as per relevant CPWD specifications unless specifically mentioned otherwise in tender documents, drawings.
- iii. For all exposed brick work or tile work double scaffolding independent of the work having two sets of vertical supports shall be provided. The supports shall be sound and strong, tied together with horizontal pieces over which scaffolding planks shall be fixed. For all other work in buildings, single scaffolding shall be permitted. In such cases the inner end of the horizontal scaffolding poles shall rest in a hole provided only in the header course for the purpose. Only one header for each pole shall be left out. Such holes for scaffolding shall, however, not be allowed in pillars/columns less than one metre in width or immediately near the skew back of arches. The holes left in masonry works for scaffolding purposes shall be filled and made good before plastering.
- iv. For external and under coat plaster work, the fine aggregate shall conform to grading IV. For finishing coat plaster work the fine aggregate shall conform to grading zone V shall be used unless specified otherwise.
- v. The plaster shall be kept wet for a period of at least 7 days. During this period, it shall be suitably protected from all damages at the contractor's expense by such means as the Engineer-in-Charge may approve. The dates on which the plastering is done shall be legibly marked on the various sections plastered so that curing for the specified period thereafter can be watched.
- vi. Wherever scaffolding is necessary for White wash/Painting works, it shall be erected on double supports tied together by horizontal pieces, over which scaffolding planks shall be fixed. No ballies, bamboos or planks shall rest on or touch the surface which is being white washed. Where ladders are used, pieces of old gunny bags shall be tied on their tops to avoid damage or scratch to walls.
- vii. For White wash /waterproofing cement paint on new work, three or more coats shall be applied till the surface presents a smooth and uniform finish through which the plaster does not show. The finished dry surface shall not show any signs of cracking and peeling nor shall it come off readily on the hand when rubbed. For old work, after the surface has been prepared, a coat of white wash/cement paint shall be applied over the patches and repairs. Then a single coat or two or more coats of white wash/cement paint as stipulated in the description of the item shall be applied over the entire surface. The white washed surface should present a uniform finish through which the plaster patches do not appear.
- viii. Distemping: If the wall surface plaster has not dried completely, cement primer shall be applied before distemping the walls. But if distemping is done after the wall surface is dried completely, distemper primer shall be applied. Oil bound distemper is not recommended to be applied, within six months of the completion of wall plaster. However, newly plastered surfaces if required to be distemped before a period of six months shall be given a coat of alkali resistant priming paint conforming to IS 109 and allowed to dry for at least 48 hours before distemping is commenced.
- ix. The color code and make of Painting material on exterior or interior finish shall be first approved by Engineer in charge. Contractor shall submit all possible combinations, physical samples on size 300x300 mm over wall for approval of color without any extra cost.
- x. The Primer, Synthetic Enamel paint, distemper etc., of as approved by the Engineer-in-charge and of low VOC (unless specified otherwise), shall only be used and brought to the site of work in the

If a proprietary brand is used, the proportion shall be as specified by the manufacturer. The treated water shall be left in pipeline for a period as directed but not exceeding 24 hours chlorine residual tests shall be taken

at various points along the pipeline. The disinfection process shall be repeated until the sample of water taken from the pipeline is declared fit for human consumption by a recognized laboratory.

- xxi. The supply of Input materials and their storage, procedure for laying in position, testing, acceptance within tolerance limit, measurement and scope of work covered under rates for water supply, sanitation, drainage works shall be as per the guideline of relevant CPWD specifications unless specifically mentioned otherwise in tender documents, drawings.

O. CONSTRUCTION & EXPANSION JOINTS

- i. Construction joints in PCC, RCC and Light Weight Concrete works etc., shall be provided only at places as per approved structural drawings. It shall not in any manner structurally or functionally affect the structure. If, any additional construction joint is required to be provided, it shall be done with approval of the Engineer-in-Charge. The centering, shuttering, strutting etc., required for the construction joint shall be provided as per the CPWD Specifications. Nothing extra shall be payable on this account.

TREATMENT TO THE CONSTRUCTION JOINTS AND RECTIFICATION OF DEFECTS.

- ii. All care shall be taken to minimize the number of construction joints in the rafts, floors, and walls as well as in the levelling course of PCC at base. Still, wherever the construction joints are provided, these shall be slightly opened up and then suitably filled with cement mortar 1:3 (1 cement: 3 fine sand) after applying a bond coat of cement slurry. The aluminum nipples shall be fixed in the cavity and crevices, if required. Then cement slurry of w/c ratio 0.5 shall be pressure grouted through these nipples as required, which shall then be suitably cut. Nothing extra shall be payable on this account.
- iii. All care shall be taken to avoid any honey combed concrete or any cavity. Still, if any honey combed concrete or cavity in RCC/CC works is encountered, the same shall be rectified by removing all loose concrete by chiselling. The chipped concrete surface shall be cleaned and made dust free by blowing compressed air and then washed clean with water (but without excess water). Then a bond coat of polymer modified cement slurry @ 2.2 kg of cement per sq.m. of concrete surface, in two coats, shall be applied as specified. The second coat shall be applied immediately within 15-20 minutes of application of the first coat. A coat of polymer modified cement plaster of mix 1:3 (1 cement: 3 fine sand) of the required thickness shall be applied as specified to fill the cavity if the required thickness is less than 20 mm. If the required thickness is more than 20 mm, the cavity shall be filled by concrete of relevant grade after providing the required centering and shuttering. The surface shall then be moistured for minimum 7 days. Nothing extra shall be payable on this account.

Expansion Joint

- i. General Seismic / separation joints shall be provided where shown on the drawings. They shall be constructed with a gap between the adjoining parts for the works of the width specified in the drawings.
- ii. The contractor shall ensure that no debris is allowed to enter and be lodged in seismic and separation joints.
- iii. Seismic or separation joints shall be provided with approved 50mm thickness of compressible filler board, backer rod and polysulphid sealant compound etc.,
- iv. Board to be used in expansion joint shall be of best approved quality and shall be got approved before use. It shall have minimum density of 95 kg/cum, Non staining with less than 1% water absorption and compression recovery of 93% minimum as per the specifications.

Volumell:ScheduleII-Appendix-IV(Technicalspecificationsofworks)

MethodofApplication

- v. 50mm thick expansion board having sufficient width directed by Engineer-in-charge shall be provided in expansion joint before filling and finishing the expansion joint with sealant.
- vi. The expansion joint shall be cleaned and made dry completely. All loose materials shall also be removed. The joints gap shall be made uniform in width and depth after cleaning the joints. The backup material of best quality shall be provided in position in order to produce the size of joint i.e. width and depth. The primer part of I and II shall be mixed thoroughly together in required proportion as prescribed by manufacturer's specification, so that a uniform mixture is obtained. The mixed solution shall be applied to two sides of the joint that it covers the sides completely.
- vii. Disturbed edges of RCC members near expansion joints shall be finished with rich mortar without any extra work including providing required width of expansion board in the joints and measurement of expansion board only shall be taken.

Sampling criteria

Following test carried out at every 100 sqm.

- (i) Density
- (ii) Water absorption
- (iii) Compression recover

P. CONSTRUCTION SITE LAB:

- i. The contractor shall arrange and provide at the site of work all the equipments for field testing as required like:-
 - balances, sieves, slump cone, dial gauges,
 - graduated measuring cylinders, steel tapes, vernier calipers, micrometer screw gauges, plumb bobs, spirit levels,
 - Total station survey equipment, magnifying glass, screw drivers, plastic bags for samples, etc.
- ii. Allowing establishing the site laboratory by the contractor shall not absolve the contractor from fulfilling the criteria of getting the tests done in an independent laboratory. The decision of the Engineer-in-Charge of allowing any test in the site laboratory or any other laboratory shall be final and binding on the contractor and no claim of any kind whatsoever shall be entertained from the contractor on this account.

Q. OTHER IMPORTANT - MISCELLANEOUS

- (i) Even if the certain items of work are carried out by the specialized sub-contractor, the responsibility for the work shall however rest with the main contractor only. **Procurement, Storage and Payment of Cement, Steel, Bitumen etc.**
- (ii) The contractor shall procure Portland Pozzolana Cement (PPC) as per IS-1489 Part-I in all the work except Cement Concrete Pavement works, wherein Ordinary Portland Cement (OPC) of Grade 43 (IS:269:2015) and/or 53 Grade (IS: IS:269:2015) shall be used. The PPC & OPC to be used shall be of approved make, as specified in the list of Approved Makes (enclosed with Technical Specifications).
- (iii) The contractor shall procure steel reinforcement bars conforming to IS 1786:2008 pertaining Fe415D or Fe500D, structural steel conforming to IS-808 and bitumen should conform to IS:702 and 703 as per the item/drawing from manufacturer of approved make, as specified in the list of Approved Makes (enclosed with Technical Specifications).
- (iv) The storage of cements should be done by contractor as per IS:4082-1996 (recommendation on stacking & storage of construction materials at site). Sheds having capacity as decided by Engineer-in-Charge to

- (x) Cement, Steel & Bitumen brought to site and remaining unused after completion of workshallnotberemovedfromsitewithoutwrittenpermission oftheEngineer-in-charge.
- (xi) No claim whatsoever shall be entertained by CWC on account of delay in non-availability ofthesematerialsinthemarket.
- (xii) Cladding of cement and rusting of steel should be avoided to the maximum extent possible.For such cladding of cement and/or rusting of steel, which may render the same unusable, thecontractorshallberesponsibletomakegoodsuchquantities,thelossathisowncost.

R. TheoreticalConsumptionofMaterial

After completion of the work and also at any intermediate stage in the event of non-reconciliation ofmaterialsissued,theoretical quantityof materials used in the work shall be calculated on the basisandmethodgivenhereunder:

- i. Quantity of cement & bitumen shall be calculated on the basis of quantity of cement & bitumenrequired for different items of work as shown in the Schedule of Rates mentioned in **Schedule I:Appendix-**

Volumell:ScheduleII-Appendix-IV(Technicalspecificationsofworks)

7.Incaseanyitemisexecutedforwhichstandardconstantsfortheconsumptionof

Volumell:ScheduleII-Appendix-IV(Technicalspecificationsofworks)

cement or bitumen are not available in the above-mentioned schedule or cannot be derived from the same, it shall be calculated on the basis of standard formula, to be laid down by the Engineer-in-Charge.

- ii. Theoretical quantity of steel reinforcement or structural steel sections shall be taken as the quantity required as per design or as authorized by Engineer-in-Charge, including authorized lappages, chairs etc. plus 3% wastage due to cutting into pieces, such theoretical quantity being determined and compared with the actual issues each diameter wise, section-wise and category wise separately.
- iii. Theoretical quantity of G.I. & C.I. or other pipes, conduits, wires and cables, pig lead and G.I./M.S. sheets shall be taken as quantity actually required and measured plus 5% for wastage due to cutting into pieces (except in the case of G.I./M.S. sheets it shall be 10%), such determination & comparison being made diameter wise & category wise.
- iv. For any other material, as per actual requirements.
- v. For Non-Scheduled items, decision of the Engineer-in-Charge regarding theoretical quantities of materials which should have been actually used, shall be final and binding on the contractor.

Over the theoretical quantities of materials so computed a variation shall be allowed as specified in **Schedule I: Appendix-7**.

TECHNICALCONDITIONSANDSPECIFICATIONSFOR ELECTRICALWORKS

1. Tender Drawings and Construction Drawings:

- 1.1 These drawings are meant for Tenderer's guidance only. "Approval for Construction" drawings will be furnished to the contractor during the progress of work to supplement the bid drawings. Construction drawings will be revised and fresh copies issued to the contractor from time to time to incorporate any change to be adopted in the work as per final design to suit any change to be adopted in the work as per final design to suit any condition encountered during the progress of work. Hence, "Approved for Construction" drawings will be furnished progressively during the progress of work, broadly conforming to construction schedule.
- 1.2 HT/LT main panel, other major equipments, other Distribution Board drawings and cable routes shall be submitted by the contractor for approval of CWC / Consultant before starting fabrication, manufacture.
- 1.3 Details shown either on the drawings or stated in the Specifications shall prevail upon drawings in case of doubts. However, in case of ambiguity, the more stringent shall be applicable.
- 1.4 **Conformity to IE Act, IE Rules and Standards:** All Electrical works shall be carried out in accordance with the provisions of Indian Electricity Act, 2003 and Indian Electricity Rules, 1956 amended up-to-date (date of call of tender unless otherwise specified).
- 1.5 **Earthing**
Earthing shall be carried out as per IS rules 3043 code of practice for earthing with latest amendments and as per specification and site requirement.

2. Guarantee

The tenderer shall guarantee the equipment offered for satisfactory performance for a period of 12 months from the date of commissioning and handing over the installation to the employer against defects arising out of faulty design, material & workmanship. The tenderer should make good all the defects free of costs during the guarantee period and replace or repair the defective equipments/parts free of cost promptly and satisfactorily.

3. Inspection & Testing

The purchase representative shall be free to visit the manufacturer's work at all reasonable times to witness and inspect the testing of equipments. It is the duty of the tenderer to see that all the equipments supplied are tested as per relevant IS/BS specifications. The contractor shall furnish three copies of manufacturer's test certificate for the routine and type test conducted on the equipments offered. If necessary, the contractor shall arrange to conduct all the routine tests at the manufacturer's premises in presence of CWC representative. On receipt of the equipments/materials at site, the tenderer shall offer equipments/materials for inspection of electrical engineer and get approved before installation.

4. Pre-Commissioning Tests of Equipment

HT/LT switchgear, Transformer, LT cables and DG set shall be subjected to the pre-commissioning tests as per approved Performa by employer. The pre-commissioning test report shall be sent to the Consultant/CWC for approval for electrical installation/license for release-sanctioned load.

5. Approval of Drawings

The drawings for HT Panels and LT Panels, High Mast, DG set and cable layout shall be offered by the tenderer for approval of CWC and manufacturing/laying of these items can be taken in hand only after approval of the drawings by CWC. The tenderer shall also supply three copies of approved drawings for LT switchgear and transformers (both the dimensional and schematic) along with 3 copies of routed drawings & earthing position etc.

6. The contractor shall provide all kinds of facilities for inspection of the works by the Engineer of CWC.

Volumell:ScheduleII-Appendix-IV(Technicalspecificationsofworks)

7. The electrical work shall conform to CPWD General Specifications for external with up-to-date amendments and for internal electrification works with up-to-date amendments.

7.1 The electrical works other than internal & external electrification like DG Set, Substation, High Mast, Fire Detection & Alarm system, Heating, Ventilation & Air Conditioning System (HVAC) and Lifts & Escalators shall conform to latest CPWD's General Specifications with up-to-date amendments.

8. Liaisoning/Approval Work with Statutory Authorities

It will be responsibility of the contractor to do liaisoning work for obtaining necessary approvals / clearances for electrical load sanction and power supply connection etc. to energizing the terminal, the statutory charges as per the State Electricity Board demand not will be paid by the CWC.

LIST OF APPROVED MAKES

The CWC reserves the right to select any of the brands indicated in the list of approved makes. The Tenderer shall quote his rates on the basis of the price of quality and grade of product of the brand/make stipulated in the item of works as described in BOQ & Specification as well as in the list of approved makes. The contractor cannot claim extra if CWC changes the make but within the list of approved makes. However other equivalent manufacture may be considered with prior approval of Engineer due to issue of local availability.

Final approval of Make will be as decided by Engineer authorized by Corporation.
